

CHI 2014
One of a CHInd

Conference Program

Toronto, Canada | April 26 – May 1, 2014

Association for
Computing Machinery

SIGCHI
special interest group computer human interaction

The 32nd Annual ACM Conference on
Human Factors in Computing Systems

Schedule of Events

MONDAY

7:30 – 8:30	Video Previews
9:00 – 10:20	Opening Keynote – Margaret Atwood
10:20 – 11:00	Coffee Break
11:00 – 12:20	Technical Program
12:20 – 14:00	Lunch Break (on your own)
14:00 – 15:20	Technical Program
15:20 – 16:00	Coffee Break
16:00 – 17:20	Technical Program
17:30 – 19:30	Exhibit Hall Grand Opening Reception

TUESDAY

7:00 – 8:20	Video Previews
8:30 – 8:50	Provoke! Wisdom! Impact! – Nathan Eagle
9:00 – 10:20	Technical Program
10:20 – 11:00	Coffee Break
11:00 – 12:20	Technical Program
12:20 – 14:00	Lunch Break (on your own)
14:00 – 15:20	Technical Program
15:20 – 16:00	Coffee Break
16:00 – 17:20	Technical Program
17:30 – 19:30	Job Fair A Taste of CHI Public Night

WEDNESDAY

7:00 – 8:20	Video Previews
8:30 – 8:50	Provoke! Wisdom! Impact! – Scooter Morris
9:00 – 10:20	Technical Program
10:20 – 11:00	Coffee Break
11:00 – 12:20	Technical Program
12:20 – 14:00	Lunch Break (on your own)
14:00 – 15:20	Technical Program
15:20 – 16:00	Coffee Break
16:00 – 17:20	Technical Program
18:00 – 20:00	Hospitality Event

THURSDAY

7:00 – 8:20	Video Previews
8:30 – 8:50	Provoke! Wisdom! Impact! – Elizabeth F. Churchill
9:00 – 10:20	Technical Program
10:20 – 11:00	Coffee Break
11:00 – 12:20	Technical Program
12:20 – 14:00	Lunch Break (on your own)
14:00 – 15:20	Technical Program
15:20 – 16:00	Coffee Break
16:00 – 17:20	Closing Keynote – Scott Jenson

Welcome to CHI 2014

CHI is more than a conference, it is an international community of researchers and practitioners who want to make a difference. Everything we do is focused on uncovering, critiquing and celebrating radically new ways for people and technology to evolve together. People in their everyday contexts, in diverse regions of the world, from very different backgrounds, with alternative outlooks on life drive this innovation. As you take part in the conference sessions we really hope you will experience how powerful this people-centred approach to technological transformation can be.

CHI as a conference is now in its 32nd year and has grown to become the premier international forum on human-computer interaction, gathering us all to share innovative interactive insights that shape people's lives. CHI draws together a multidisciplinary community from around the globe. Our great strength is our ability to bring together students and experts, researchers and practitioners, scientists, designers and engineers, drawing from their rich perspectives to create new visions of human-computer interaction.

This year's conference theme is *One of a CHInd*. We chose this nearly two years ago as we began planning for this event. It has helped us focus our efforts and we hope you will use it to keep your eyes open to the bigger picture amongst all the excitement, range of presentations and activities at the conference. CHI 2014 is *One of a CHInd* because it is a celebration of the conference's one of a kind diversity; from the broad range of backgrounds of its attendees, to the diverse spectrum of communities and fields that the conference and its research have an impact on. CHI 2014 will take place at the Metro Toronto Convention Centre in Toronto, Canada, a city itself known for its one of a kind cultural diversity. But, CHI 2014 is more than a celebration of the diversity of our community and conference setting. We hope that this year's event, more than anything, reminds you that the "people", "participants", "users" or "humans" that you hear described throughout this week are actually uniquely wonderful individuals full of hopes, concerns, joys and frustrations. CHI is here to serve all of these one of a kinds.

CHI 2014 features two outstanding keynote speakers: Booker prize winning author, Margaret Atwood; and, leading UX designer, Scott Jenson. New for CHI 2014, we have *Provoke! Wisdom! Impact!* plenary talks first thing each morning on Tuesday, Wednesday and Thursday. Come

along, join the crowd and be energised by our speakers who will each bring in their experience of the Big Picture to inspire us. The talks will be short - twenty minutes - and then the rest of the day's programme will begin. We are also delighted to host a timely retrospective exhibition on wearable technology curated by Thad Starner and Clint Zeagler.

CHI 2014 also includes two days of focused workshops and four days of technical content, including CHI's prestigious technical program, with 15 parallel sessions of rigorously reviewed research Papers, engaging Panels, Case Studies and Special Interest Groups (SIGs), an extensive Course program and invited talks from SIGCHI's award winners: Steve Whittaker, Gillian Grampton Smith and Richard Ladner. We also host student research, design, and game competitions, provocative alt.chi presentations and last-minute SIGs for discussing current topics. Interactivity hands-on demonstrations showcase the best of interactive technology. We also highlight over 241 Work-In-Progress posters: this year we have added some features to these sessions to better help you get the most out of the exciting, early stage work on show; do go along and engage with the authors about their work. Evening events include the CHI 2014 conference reception, Sponsors and University events, local performances and the Job Fair.

We received over 3200 submissions and accepted nearly 1000 that will appear in the ACM Digital Library. To help you navigate through this immense program, there are a number of online and digital resources from the conference website to our mobile apps. You can also browse the videos, papers and extended abstracts on the CHI 2014 USB Key. But, CHI 2014 is about being in Toronto so perhaps the best way to select from and experience the event is by asking for pointers and chatting with your fellow attendees, our wonderful student volunteers, the information desk helpers or any of this year's committee. We are all here to make your experience as useful and enjoyable as possible.

We are deeply indebted to our vast number of volunteers, without whom CHI 2014 would not be possible, including over 3800 reviewers, over 180 senior members of the program committee, nearly 100 members of the CHI 2014 conference committee and, of course, the more than 180 student volunteers. We thank you all!

We are honored and excited by the opportunity to host CHI 2014 and wish you a productive and enjoyable stay in Toronto!

Matt Jones, Swansea University, UK
Philippe Palanque, Université Paul Sabatier, France
CHI 2014 General Conference Chairs

Albrecht Schmidt, University of Stuttgart, Germany
Tovi Grossman, Autodesk Research, Canada
CHI 2014 Technical Program Chairs

Conference Chairs

Matt Jones *Swansea University, Wales, UK*
Philippe Palanque *Université Paul Sabatier, France*

Technical Program

Technical Program Chairs
Tovi Grossman *Autodesk Research, Canada*
Albrecht Schmidt *University of Stuttgart, Germany*

MONDAY

7:30 - 8:30 • Video Previews (801AB)

9:00-10:20

Opening Keynote (Exhibit Hall G)
Margaret Atwood - *Robotics in my Work and Life*

10:20 - 11:00 – Coffee Break (Level 700 Foyer)

11:00-12:20

701A	701B	709	711	713AB	714AB	715A	716A
Papers Visualization and Aesthetics	Papers Stress		Course Designing Unbiased Surveys for HCI Research	Course Sampling & Synthesis: The Two Sides of Experience Sketching	Papers Social Local Mobile	SIG HCI in Food Product Innovation	Panel Design Methods for the Future that is NOW

12:20 - 14:00 – Lunch Break

14:00-15:20

Papers Studying Online Communities	Special Social Impact Award: Richard Ladner	Course HTML5 Game Development 1/2	Course Empirical Research Methods for HCI 1/2	Course Introduction to HCI 1/2	Papers Image and Animation Authoring	SIG Art And Interaction: Cataloging The Digital Arts	Panel Designing for the Experiential Body
--	---	---	---	--	--	--	---

15:20 - 16:00 – Coffee Break (Level 700 Foyer)

16:00-17:20

Papers Designing and Understanding Visualizations	Papers Crowdfunding and Crowd Storage	Course HTML5 Game Development 2/2	Course Empirical Research Methods for HCI 2/2	Course Introduction to HCI 2/2	Papers Novel Approaches to Navigation		Panel Electronic Privacy and Surveillance
---	---	---	---	--	---	--	---

17:30 - 19:30 • Conference Reception & Exhibit Grand Opening • Interactivity (Exhibit Hall E)

TUESDAY

7:00 - 8:20 • Video Previews (Exhibit Hall G) • Women's Breakfast (Exhibit Hall F)

8:30-8:50

Provoke! Wisdom! Impact! Plenary (Exhibit Hall G)
Nathan Eagle - *Big Data for Social Good*

8:50 - 9:00 – Break

9:00-10:20

701A	701B	709	711	713AB	714AB	715A	716A
Papers Interactive Visualization and Visual Elements	Papers Understanding and Designing Games	Course Improving the User Interface for People with Disabilities 1/2	Course Multimodal Detection of Affective States 1/2	Course Citizen Science: An Introduction	Papers Personal Values and Preferences	SIG Current Issues in Assessing and Improving Information Usability	Papers Enabling Interactive Performances

10:20 - 11:00 – Coffee Break • WIP Posters Rotation 1 • Doctoral Consortium Poster Focus (Exhibit Hall E)

11:00-12:20

Papers Navigating Video	Papers Crowds and Creativity	Course Improving the User Interface for People with Disabilities 2/2	Course Multimodal Detection of Affective States 2/2	Course Reflections on Design	Papers Interacting with the Web	SIG Games and Entertainment: Reaching beyond CHI	Papers Music, Dance, and Television
-----------------------------------	--	--	---	--	---	--	---

12:20 - 14:00 – Lunch Break

14:00-15:20

Papers Sensemaking and Information in Use	Special Lifetime Research Award: Steve Whittaker	Course Conceptual Models: Core to Good Design 1/2	Course Online A/B Tests & Experiments 1/2	Course Mobile HCI 1/2	Papers Presentation Technologies	SIG Interaction Science: Overcoming Challenges	Panel Opportunities and Risks of Discovering Personality Traits from Social Media
---	--	---	---	---------------------------------	--	--	---

15:20 - 16:00 – Coffee Break • WIP Posters Rotation 1 • SDC and SRC Poster Focus (Exhibit Hall E)

16:00-17:20

Papers Studying Visualization	Papers Exploring Exergames	Course Conceptual Models: Core to Good Design 2/2	Course Online A/B Tests & Experiments 2/2	Course Mobile HCI 2/2	Papers Narratives and Storytelling	SIG Jogging with Technology: Interaction Design Supporting Sport Activities	
---	--------------------------------------	---	---	---------------------------------	--	---	--

17:30 - 19:00 • Video Showcase & Golden Mouse Award (718AB)

17:30 - 19:30 • Job Fair & Recruiting Boards (Exhibit Hall E)

7:30 - 8:30 • Video Previews (801AB)

Opening Keynote (Exhibit Hall G)
Margaret Atwood - *Robotics in my Work and Life*

10:20 - 11:00 – Coffee Break (Level 700 Foyer)

716B	717AB	Exhibit Hall G	718AB	801A	801B	802AB
Papers Coordination and Collaboration	alt.chi Ways of Knowing in HCI	Papers Watches and Small Devices	Papers The Third Dimension	Papers Audio Interaction	Papers Sustainability and Everyday Practices	

12:20 - 14:00 – Lunch Break

Papers Studying and Designing Gameplay	alt.chi Understanding Interactions	Papers Force Input and Haptic Feedback	Papers Hackerspaces, Making and Breaking	Papers Activity Recognition	Papers Managing Income	Course Methods of Design Synthesis – Moving from Data to Innovation 1/2
--	--	--	--	---------------------------------------	----------------------------------	---

15:20 - 16:00 – Coffee Break (Level 700 Foyer)

Papers Interfaces for Care and Support	Papers Research through Design	Papers Pointing and Cursors	Papers Always Connected: Email and Social Media	Papers Smart Homes and Sustainability	Papers Multilingual Communication	Course Methods of Design Synthesis – Moving from Data to Innovation 2/2
--	--	---------------------------------------	---	---	---	---

17:30 - 19:30 • Conference Reception & Exhibit Grand Opening • Interactivity (Exhibit Hall E)

7:00 - 8:20 • Video Previews (Exhibit Hall G) • Women's Breakfast (Exhibit Hall F)

Provoke! Wisdom! Impact! Plenary (Exhibit Hall G)
Nathan Eagle - *Big Data for Social Good*

8:50 - 9:00 – Break

716B	717AB	Exhibit Hall G	718AB	801A	801B	802AB
Papers Battery Life and Energy Harvesting	alt.chi Ways of Creating in HCI	Papers Mid-Air Gestures	Papers Touch and Stylus Interaction	Papers Quantified Self	Papers Sustainability Perspectives	Course Card Sorting for Navigation Design 1/2

10:20 - 11:00 – Coffee Break • WIP Posters Rotation I • Doctoral Consortium Poster Focus (Exhibit Hall E)

Papers Social Media and Health	alt.chi Limits and Futures	Papers On and Above the Surface	Papers Interactive Whiteboards and Public Displays	Papers Human-Robot Interaction	Papers Emergency Response	Course Card Sorting for Navigation Design 2/2
--	--------------------------------------	---	--	--	-------------------------------------	---

12:20 - 14:00 – Lunch Break

Papers Personal Health and Wellbeing	Papers Design Theory	Papers Novel Keyboards	Papers DIY and Hacking	Papers User Models and Prediction	Papers Engage and Educate Children	Course Computer Vision in interaction and UX 1/2
--	--------------------------------	----------------------------------	----------------------------------	---	--	--

15:20 - 16:00 – Coffee Break • WIP Posters Rotation I • SDC and SRC Poster Focus (Exhibit Hall E)

Papers Designing for Older Adults and Demographic Change	Papers Critical Design	Papers Understanding and Modeling Touch	Papers 3D Interaction: Modeling and Prototyping	Papers The Eyes Have It	Papers Learning and Education	Course Computer Vision in interaction and UX 2/2
--	----------------------------------	---	---	-----------------------------------	---	--

17:30 - 19:00 • Video Showcase & Golden Mouse Award (718AB)

17:30 - 19:30 • Job Fair & Recruiting Boards (Exhibit Hall E)

MONDAY

TUESDAY

WEDNESDAY

8:30-8:50	7:00 - 8:20 • Video Previews (Exhibit Hall G)							
	Provoke! Wisdom! Impact! Plenary (Exhibit Hall G) Scooter Morris - <i>A CHI Story - Past, Present, and the Next Chapters</i>							
9:00-10:20	8:50 - 9:00 – Break							
	701A	701B	709	711	713AB	714AB	715A	716A
	Papers Telepresence and Connecting over Video	Papers Exergame Design	Course Rapid Design Labs—A Tool to Turbocharge Design-Led Innovation 1/2	Course Agile User Experience and UCD 1/2	Course How social media design reshapes society	Papers Designing and Modeling GUIs		SIG Child Computer Interaction: Towards Sustainable Thinking & Being
11:00-12:20	10:20 - 11:00 – Coffee Break • WIP Posters Rotation 2 • SGC (Exhibit Hall E)							
	Papers Understanding and Using Social Media	Papers Working Together	Course Rapid Design Labs—A Tool to Turbocharge Design-Led Innovation 2/2	Course Agile User Experience and UCD 2/2	Course Designing for Seniors	Papers Programming and Development Tools	SIG The Usability of Text Entry Systems Now and in the Future	Panel Making Cultures: Empowerment, Participation, and Democracy – or Not?
14:00-15:20	12:20 - 14:00 – Lunch Break • SIGCHI Town Hall Lunch (718AB) • SGC (Exhibit Hall E)							
	Papers Question and Answer Systems	Special Lifetime Practice Award: Gillian Crampton Smith	Course Introduction to Designing and Building Musical Interfaces 1/2	Course Including Children in Technology Design Processes 1/2	Course Interaction Design for Online Video and Television 1/2	Papers Cross-Device Interaction	SIG Community Centered Collaborative HCI in Developing Countries	Panel CROWDFUNDING: An Emerging Field of Research
16:00-17:20	15:20 - 16:00 – Coffee Break • WIP Posters Rotation 2 (Exhibit Hall E)							
	Papers Journalism and Social News	Papers Interruptions and Distractions	Course Introduction to Designing and Building Musical Interfaces 2/2	Course Including Children in Technology Design Processes 2/2	Course Interaction Design for Online Video and Television 2/2	Papers Decisions, Recommendations, and Machine Learning	SIG Interactions Magazine	Panel The Meaning of Design in Healthcare
18:00 - 20:00 • Joint Hospitality Reception (Mattamy Athletic Centre)								

THURSDAY (Industry Day)

8:30-8:50	7:00 - 8:20 • Video Previews (Exhibit Hall G)							
	Provoke! Wisdom! Impact! Plenary (Exhibit Hall G) Elizabeth F. Churchill - <i>Reasons to be Cheerful, Part 4</i>							
9:00-10:20	8:50 - 9:00 – Break							
	701A	701B	709	711	713AB	714AB	715A	716A
	Papers Social Media Usage	Papers Games and Education		Course Speech-based Interaction 1/2	Course The Glass Class: Designing Wearable Interfaces 1/2	Papers Learning and Games	SIG Managing UX Teams	Case studies Realities of Fieldwork
11:00-12:20	10:20 - 11:00 – Coffee Break							
	Papers Location-Based Services and Navigation	Papers Crowdsourcing		Course Speech-based Interaction 2/2	Course The Glass Class: Designing Wearable Interfaces 2/2	Papers Desktop Search and History	SIG Communicating User Research to Drive Design and Product Decisions	Case studies Cross-Perspective Collaboration
14:00-15:20	12:20 - 14:00 – Lunch Break							
	Papers Computer Mediated Intimacy and Romance	Papers Network of Care	Course How You Could Benefit from Using ISO Standards	Course Evaluating Children's Interactive Products	Course A Conversation with Susan Dray	Papers Tutorials	Panel Can You Do Good and Do Well? Exploring HCI Careers in Development	Case studies Creating Methods
16:00-17:20	15:20 - 16:00 – Coffee Break							
	Closing Keynote (Exhibit Hall G) Scott Jenson - <i>The Physical Web</i>							

7:00 - 8:20 • Video Previews (Exhibit Hall G)

Provoke! Wisdom! Impact! Plenary (Exhibit Hall G)
Scooter Morris - A CHI Story - Past, Present, and the Next Chapters

8:30-8:50

8:50 - 9:00 – Break

716B	717AB	Exhibit Hall G	718AB	801A	801B	802AB
Papers Health and Everyday Life	alt.chi Navel Gazing	Papers Text Entry and Evaluation	Papers Emotions and Mobiles	Papers Privacy	Papers Issues That Matter	Course HCI Meets Data Mining: Principles and Tools for Big Data Analytics 1/2

9:00-10:20

10:20 - 11:00 – Coffee Break • WIP Posters Rotation 2 • SGC (Exhibit Hall E)

Papers Interactive Technologies for Rehabilitation	Special Student Research Competition	Papers Shape-Changing Interfaces	Papers Touch Input	Papers Risks and Security	Papers CHI for Social Development	Course HCI Meets Data Mining: Principles and Tools for Big Data Analytics 2/2
--	--	--	------------------------------	-------------------------------------	---	---

11:00-12:20

12:20 - 14:00 – Lunch Break • SIGCHI Town Hall Lunch (718AB) • SGC (Exhibit Hall E)

Papers Exergaming for Health and Fitness	Special Student Design Competition	Papers Sensory Experiences: Smell and Taste	Papers Multitouch Interaction	Papers Authentication and Passwords	Papers Policies and Practice: Doing the Right Thing	Course Make This! Introduction to Electronics Prototyping Using Arduino 1/2
--	--	---	---	---	---	---

14:00-15:20

15:20 - 16:00 – Coffee Break • WIP Posters Rotation 2 (Exhibit Hall E)

Papers Accessibility	Special Student Game Competition	Papers Tangible Interactions and Technologies	Papers Head-Worn Displays	Papers Applications of Body Sensing	Papers Urban Communities and Social Media	Course Make This! Introduction to Electronics Prototyping Using Arduino 2/2
--------------------------------	--	---	-------------------------------------	---	---	---

16:00-17:20

18:00 - 20:00 • Joint Hospitality Reception (Mattamy Athletic Centre)

7:00 - 8:20 • Video Previews (Exhibit Hall G)

Provoke! Wisdom! Impact! Plenary (Exhibit Hall G)
Elizabeth F. Churchill - Reasons to be Cheerful, Part 4

8:30-8:50

8:50 - 9:00 – Break

716B	717AB	Exhibit Hall G	718AB	801A	801B	802AB
Papers Persuasive Technologies and Applications	alt.chi Intimate Interfaces	Papers Whole Body Sensing and Interaction	Papers Novel Mobile Displays and Devices	Papers HCI Paradigms: Past, Present and Future	Papers PolitiCHI	Course Hands-on Sketching Course 1/2

9:00-10:20

10:20 - 11:00 – Coffee Break

Papers Lost and Found in Translation	Papers Participatory Design	Papers Brain Computer Interfaces	Papers 3D Printing and Fabrication	Papers Modeling Users and Interaction	Papers Engaging Older Adults Through Technology	Course Hands-on Sketching Course 2/2
--	---------------------------------------	--	--	---	---	--

11:00-12:20

12:20 - 14:00 – Lunch Break

Papers Driving Interfaces and Evaluations		Papers Gesture-Based Interaction	Papers Interactive Surfaces and Pervasive Displays	Papers Research and Deployment in the Wild	Papers Social Media for Relationships	Course Modern Geography for HCI Researchers and Practitioners
---	--	--	--	--	---	---

14:00-15:20

15:20 - 16:00 – Coffee Break

Closing Keynote (Exhibit Hall G)
Scott Jensen - The Physical Web

16:00-17:20

WEDNESDAY

THURSDAY (Industry Day)

As a proud
Champion Sponsor,
Autodesk welcomes
CHI 2014
to Toronto

Computers alone can't change the world. But people and computers? Yes.

Come pay us a visit. Chat with employees and recruiters about careers at Microsoft. Talk with CHI presenters and authors.

Great swag, the latest UX/HCI Microsoft research demos, and Xbox and large-screen games. Enter a raffle to win an Xbox One.

Visit us at booths 3, 4 & 5

Joint Hospitality Reception

Mattamy Athletic Centre, 50 Carlton Street, Toronto

Wednesday, April 30th 6pm – 8pm

Microsoft is a CHI Champion Sponsor Host

Research: <http://aka.ms/chi2014research>

Design and Design Research: <http://aka.ms/chi2014design>

Talk to a recruiter: msuxrecruiters@microsoft.com

■ ACM SIGCHI

CHI 2014 is sponsored by ACM's Special Interest Group on Computer-Human Interaction (ACM SIGCHI). ACM, the Association for Computing Machinery, is an educational and scientific society uniting the world's computing educators, researchers, and professionals to inspire dialogue, share resources, and address the field's challenges. ACM strengthens the profession's collective voice through strong leadership, promotion of the highest standards, and recognition of technical excellence. ACM supports the professional growth of its members by providing opportunities for life-long learning, career development, and professional networking. ACM offers its more than 100,000 worldwide members cutting edge technical information through world class journals and magazines, dynamic special interest groups, and globally recognized conferences. Visit www.acm.org for more information about ACM.

SIGCHI is the premier international society for professionals, academics, and students who are interested in human-computer interaction (HCI). We provide a forum for the discussion of all aspects of HCI through our conferences, including our flagship CHI conference, publications, web sites, email discussion groups, and other services. We advance education in HCI through courses, workshops, and outreach, and we promote informal access to a wide range of individuals and organizations involved in HCI. Members can be involved in HCI-related activities with others in their region through local SIGCHI chapters. Come to the SIGCHI Town Hall meeting on Wednesday at 12:20 in Room 718AB or visit www.sigchi.org to learn more about SIGCHI.

■ CHI 2014 OVERVIEW

The CHI 2014 technical program showcases presentations of outstanding research in human-computer interaction (HCI), demonstrations of new and innovative technology, discussions of timely and controversial issues, and presentations of the latest developments in HCI design and practice. The CHI technical program includes presentations in multiple formats, recorded in the *CHI 2014 Proceedings and Extended Abstracts* available from the ACM Digital Library and on the CHI 2014 USB key.

■ INVITATION-ONLY | SATURDAY– SUNDAY

Doctoral Consortium

Room 711

Selected doctoral students present and explore their research topics with senior researchers and other students in a two-day interdisciplinary workshop. Doctoral Consortium posters are displayed in the Commons and brief descriptions appear in the *CHI 2014 Extended Abstracts*.

Doctoral Consortium Faculty:

Bill Buxton, Adrian Cheok, Kristina Höök, Katherine Isbister (Co-Chair), Yvonne Rogers, Manfred Tscheligi (Co-Chair)

Workshops

Level 700 and Level 800

Workshops provide a valuable opportunity for small communities of people with diverse perspectives to engage in rich one- and two-day discussions about a topic of common interest. Workshop participants are pre-selected based on submitted position papers and a brief description of each workshop appears in the CHI 2014 Extended Abstracts. Some workshops choose to display a poster in the Exhibit Hall E Poster Area.

■ TECHNICAL PROGRAM | MONDAY — THURSDAY

CHI 2014 received over 3200 submissions and accepted over 1000 presentations and events distributed across 15 parallel sessions over four days. With so many presentations happening at once, how do you choose? CHI 2014 offers the following resources to help you make the most of your conference experience:

Choosing sessions to attend

1. This *CHI 2014 Conference Program* describes the venues and offers at-a-glance summaries of all events in the main technical program, as well as times and locations.
2. The *CHI 2014 USB key* provided when you register includes the *CHI 2014 Conference Proceedings and Extended Abstracts*, also available in the ACM Digital Library, and the CHI 2014 Video Previews (see below). Extra USB keys are available for purchase at the Registration Desk.
3. The free *CHI 2014 Mobile App* contains the full CHI 2014 program as well as a personal interactive schedule to help you keep track of events you would like to see. The CHI 2014 Proceedings and Extended Abstracts as well as Video Previews (below) can be loaded into the Mobile App for easy access. That app can be downloaded from Apple's App Store and Google Play. A web version can be accessed at: <http://chi2014.acm.org/mobileapp>.
4. The *CHI 2014 Video Previews* are 30-second video overviews of most presentations in the main technical program. Daily preview sessions will be held Monday in room 801AB from 7:30am to 8:30am, Tue – Thu from 7:00am to 8:20am in Exhibit Hall G. You can also browse Video Previews on the CHI 2014 USB, the CHI 2014 web site and the CHI2014 Mobile App. You can also watch them on the CHI 2014 Interactive Display (below).
5. The large-screen, high resolution, *CHI 2014 Interactive Display* will use the Paper Forager system to allow attendees to browse through and view all 4276 papers and notes ever published at CHI conference. You can search and filter the collection by keywords or authors, and view any individual paper full-screen to read the content. For CHI 2014 papers, you can watch the video preview for each submission, and trace its citation network back to the past CHI papers which it cites.
6. *CHI 2014 Student Volunteers* (SVs) are available to point you in the right direction or answer questions about the program.

■ CHI 2014 CONFERENCE PROCEEDINGS

The *CHI 2014 Conference Proceedings* contain Papers and Notes, the most rigorously reviewed and prestigious material in the main technical program. The CHI 2014 Program Committee received over 2000 submissions for Papers and Notes. Each was reviewed by one or more Associate Chairs, as well as three or more external reviewers. After a rebuttal phase, the 200+ senior Associate Chairs met in person within specialized subcommittees to discuss and select the accepted papers. The CHI 2014 acceptance rate was 23%.

The CHI 2014 Papers and Notes document research that makes a lasting and significant contribution to our knowledge and understanding of human-computer interaction. CHI Conference Proceedings are read and cited worldwide, with a broad impact on the development of HCI principles, theories, techniques, and their practical application.

CHI Papers

20-minute presentations

Papers present significant contributions to research, development, and practice in all areas of human-computer interaction.

CHI Notes

10-minute presentations

Notes are briefer and more focused than CHI Papers but follow the same rigorous review process.

TOCHI Papers

20-minute presentations

TOCHI papers were published within the past year in SIGCHI's flagship journal, *ACM Transactions on Computer-Human Interaction*.

■ CHI 2014 EXTENDED ABSTRACTS

The *CHI 2014 Extended Abstracts* record interactive events designed to provoke, intrigue, teach and inspire the CHI audience and capture a history of HCI practice.

Courses

Rooms 709, 711, 713AB, 802AB

One or two 80-minute units

List on page 56

Courses provide professional development opportunities for existing and prospective HCI community members. This year, CHI is pleased to also offer six "One of a CHInd Courses". These are special invited courses that will be given by distinguished members of the HCI community. Pre-register to receive the course notes and an identifier on your badge that permits entry to the course. You may register for any unfilled courses at the Registration Desk.

Case Studies

Room 716A

20-minute presentations

Case Studies describe examples of best practices in human-computer interaction. The goal is to explain methods that deliver reliable, high-quality results based on real-world experience and to present the lessons learned.

Panels

Room 716A

80-minute sessions

Panels take various formats but always involve significant interaction among panelists and audience members around a specified topic. The goal is to stimulate thought and discussion on current issues in human-computer interaction.

alt.chi

20-minute presentations

alt.chi offers an outlet for unusual, controversial, alternative or thought-provoking work that does not fit within the standard CHI submission process. The format encourages lively audience participation.

Special Interest Groups (SIGs)

Rooms 715A and 716A

80-minute sessions

SIGs offer a forum for conference attendees who share similar interests to discuss a specified topic. Previous SIGs have launched new conferences and publications or generated new CHI activities.

Video Showcase

80-minute session

Room 718AB

List on page 57

The Video Showcase features engaging videos that offer a variety of perspectives on human-computer interaction, including novel interfaces, reflective pieces and future envisions. Come and enjoy the videos on Tuesday (17:30) followed by the Golden Mouse award ceremony.

Interactivity

Hands-on demonstrations

Exhibit Hall E

List on page 64

Interactivity offers hands-on demonstrations that let you see, hear and touch interactive visions of the future. They take the form of prototypes, demonstrations, artworks, design experiences and inspirational technologies. Interactivity offers an alternative to CHI's traditional text format to disseminate advances in the field. Interactivity promotes and provokes discussion about the role of technology by actively engaging attendees one-on-one. Come see Interactivity at the CHI 2014 Conference Reception and Exhibits Grand Opening (Monday 17:30 – 19:30 Exhibit Hall E) and during coffee breaks.

Works in Progress (WIP)

Posters

Exhibit Hall E

List on page 58

Works in Progress present work at an early stage that can benefit from one-on-one discussions with colleagues. WIP Posters will be displayed in two rotations; the first rotation on Tuesday (29th April) and the second on Wednesday (30th April). Each rotation contains a number of themed clusters. Morning and afternoon coffee breaks on Tuesday and Wednesday are designated sessions during which WIP authors will be available at their posters to informally discuss their research with colleagues. These sessions will also feature some structured interactive activities where authors will pitch their work; do please come along and support them in doing this! Finally, watch out for WIP mini-presentations on the CHI YouTube channel!

Doctoral Consortium

Posters

Exhibit Hall E

List on page 54

Doctoral Consortium students are available to discuss their research in the DC Spotlight session Tuesday during morning coffee break (10:20 – 11:00)

Student Research Competition

Posters and 80-minute session

List on page 54

The Student Research Competition (SRC) is a branch of the ACM Student Research Competition. Monday 16:00 – 17:20 (Room 715B) is the Judging session (jury & competitors only). Students' posters are on display in Exhibit Hall E with author presentations during Tuesday's afternoon break (15:20–16:00). Final presentations are held on Wednesday 11:00 – 12:20 in 717AB. Winners are announced at the Closing Plenary.

Student Design Competition

Posters and 80-minute session

List on page 55

The Student Design Competition (SDC) challenges students to design an object, interface, system, or service related to bodydata: the qualities of the quantified self. Monday 11:00 – 12:20 (Room 715B) is the Judging session (jury & competitors only). Semi-finalist posters are displayed in Exhibit Hall E poster area and authors will be presenting their work to all attendees during Tuesday's afternoon break (15:20 – 16:00). The SDC jury selects four finalists to present on Wednesday 14:00 – 15:20 in 717AB. The winner is announced at the Closing Plenary.

Student Game Competition

Demonstrations and 80-minute session

List on page 55

The Student Game Competition (SGC) challenges students to design games in three categories: Games for a Purpose, Innovative Interface, and Innovative Game Design. Students demonstrate their games on Wednesday (10:00 – 14:00, Exhibit Hall E). The final presentations and ceremony is held on Wednesday (16:00 – 17:20, Room 717AB). Winners are also announced at the Closing Plenary.

INDUSTRY DAY

Thursday, 8:30 – 17:20

CHI has always been a dynamic, vibrant community that mixes up academic researchers with those in industry and others who at the cutting edge of practice. This year, as well as the leading research papers, we have highlights especially attractive to those who do CHI out there, 'in the wild'!

We have designated Thursday as our Industry Focused Day. Come along and hear and see:

- Plenary talk to open the day by Elizabeth Churchill, e-Bay
- Conference closing Keynote from Scott Jenson, Google
- A conversation with Susan Dray, leading practitioner who has worked with many large clients, worldwide
- Hands-on courses covering topics as diverse as speech systems, prototyping in arduino and sketching for design
- A Special Interest Group session on managing UX teams
- Case studies from companies including SAP, Naver, Sandvik and Leadin, Google and NASA

Suggested Sessions

8:30 – 8:50	Plenary: Reasons to be Cheerful, Part 4	(Exhibit Hall G)
9:00 – 10:20	Papers: HCI Paradigms: Past, Present and Future	(801A)
9:00 – 10:20	SIG: Managing UX Teams	(715A)
9:00 – 10:20	Case Studies: Realities of Fieldwork	(716A)
11:00 – 12:20	SIG: Communicating User Research to Drive Design and Product Decisions	(715A)
11:00 – 12:20	Case Studies: Cross-Perspective Collaboration	(716A)
11:00 – 12:20	Papers: Participatory Design	(717AB)
14:00 – 15:20	Panel: Can You Do Good and Do Well? Exploring HCI Careers in Development	(715A)
14:00 – 15:20	Case Studies: Creating Methods	(716A)
14:00 – 15:20	Course: A Conversation with Susan Dray	(713AB)
14:00 – 15:20	Papers: Research and Deployment in the Wild	(801A)
16:00 – 17:20	Closing Keynote: The Physical Web	(Exhibit Hall G)

SPECIAL DAYTIME EVENTS

ACM SIGCHI Town Hall Lunch

Wednesday, 12:20 – 14:00

Room 718AB

SIGCHI officers present ongoing programs and activities, followed by an audience Q&A session. Participants interested in shaping SIGCHI's future are encouraged to attend. An informal lunch is available on a first-come, first-served basis.

Video Previews

Monday: 7:30 – 8:30 Room 801AB

Tue-Thu: 7:00 – 8:20 in Exhibit Hall G

For the early risers! Plan your daily schedule by viewing the 30 second Video Previews for the current day. The video previews for the current day's Papers and Notes will be played through, in a single, back-to-back, playlist.

Wearable Computing Exhibit

Room 803AB

Monday 14:00 – 19:00

Tuesday 10:00 – 19:30

Wednesday 10:00 – 17:20

Thursday 10:00 – 13:00

In the July 2001 issue of IEEE Micro Thad Starner laid out the major challenges of wearable computing. The challenges included Power, Networking, and Interface. In the past 13 years we have come a long way in meeting some of these challenges. Using Thad Starner's extensive collection of on-body and wearable devices we are forming an educational and interactive exhibition to showcase the strides made in wearable computing. We will use this exhibition to present the evolution of electronic textiles, advances in battery life, on-body interfaces, and head mounted displays.

Women's Breakfast

Exhibit Hall F

Tuesday, 7:00 – 8:30

This breakfast offers participants the opportunity to broaden personal professional networks in the field of HCI and to engage in discussions on such topics as mentoring networks, work-life balance, diverse success paths, and personal-branding. During this program participants share their stories of success and challenge which can inspire CHI women who may be longtime leaders or new to the field.

■ SPECIAL EVENING EVENTS

**Conference Reception
& Exhibits Grand Opening***Monday, 17:30 – 19:30*

Catch up with old friends and meet new ones at the CHI 2014 Conference Reception! Explore almost 70 hands-on demonstrations and performances at the Grand Opening of Exhibits and Interactivity. The reception features Canadian themed food choices, local beer and live performances! Admission and drinks tickets are included with your conference registration; additional tickets may be purchased at Registration Desk. Tickets are not available at the door.

*Exhibit Hall E***Job Fair & Recruiting Boards***Tuesday, 17:30 – 19:30*

Recruiters and job candidates are invited to take advantage of the CHI 2014 Job Fair on Tuesday evening. Visit the Recruiting Boards and designated exhibit booths throughout the conference to find out more about available positions.

*Exhibit Hall E***CHI 2014 Champion Sponsor Recruiters:**

Bloomberg	Booths 6 – 7	Recruiting Board
Google	Booths 14 – 15	Recruiting Board
Microsoft	Booths 3 – 5	Recruiting Board

CHI 2014 Contributing Sponsor Recruiters:

Facebook	Booth 36	Recruiting Board
Yahoo Labs!	Booth 10	Recruiting Board

CHI 2014 Other Recruiters:

Samsung Research America	Booth 23	Recruiting Board
Tandem Launch		Recruiting Board

Video Showcase*Tuesday, 17:30 – 19:00*

Join us on Tuesday to watch the CHI 2014 Video Showcase. At the end, join us for the Golden Mouse ceremony to award the best videos.

*Room 718AB***Joint Hospitality Reception***Wednesday, 18:00 – 20:00***Mattamy Athletic Centre***(formerly Maple Leaf Gardens)**50 Carlton Street, Toronto*

Please join us at the Joint Hospitality Reception on Wednesday evening at Toronto's historic Maple Leaf Gardens, now known as the Mattamy Athletic Centre. Referred to as Canada's "Cathedral of Hockey," this site is not only a historical symbol for Canada's on-ice claim to fame, but has also been home to twelve Canadian sports teams since first opening its doors on November 12th, 1931. Recognized as a National Historic Site of Canada in 2007, "the Gardens" is the perfect place to celebrate Toronto and congratulate Canadian colleagues on those recent Olympic gold medals. There will be an exhibition from the Hockey Hall of Fame available, and you can enjoy watching adult men's hockey league teams playing while you meet our hosts and network with colleagues.

This reception is a great prelude to an evening out on the town. Light appetizers and a bar will be available – pick up drink tickets at the door. Your badge is your ticket to enter the reception, so please be sure to wear it. Prominently set in the heart of Toronto and in the heart of Canadians, the former Maple Leaf Gardens is not to be missed. We hope to see you there!

CHI Champion Sponsor Hosts:

Autodesk
Bloomberg
Google
Microsoft

Friends of CHI Hosts:

Universities Group (Virginia Tech, University of California Irvine, University of Maryland, UMBC)

Subway transportation to Mattamy Athletic Centre**• It is 10 minutes to 50 Carlton Street (at Church Street)**

- College station is the closest stop to Mattamy Athletic Centre (Maple Leaf Gardens)
- From southbound & northbound platform, head North on Yonge St. towards College St.
- Turn right onto Carlton St.
- Mattamy Athletic Centre (Maple Leaf Gardens) will be on the left on the corner of Church St. and Carlton St.

■ OPENING HOURS

Registration and Merchandise Desk

Register for the CHI 2014 Conference and Courses (subject to availability) at the Registration Desk located on Level 600 of the Metro Toronto Convention Centre. CHI 2014 Merchandise, including mugs, snow globes and additional USB keys, will be available for purchase, subject to availability.

Saturday	07:30 – 12:00
Sunday	07:30 – 17:30
Monday	07:30 – 19:30
Tuesday	07:30 – 19:30
Wednesday	07:30 – 17:30
Thursday	07:30 – 16:30

The Commons

Exhibit Hall E

Exhibit Hall E is on Level 800 of the Metro Toronto Convention Centre and is where you can enjoy a beverage and light snack during coffee breaks, talk with colleagues or explore Exhibits, Posters and Interactivity demonstrations and performances. Opens on Monday evening.

Monday	17:30 – 19:30	Opening Reception
Tuesday	10:00 – 18:00	(17:30 – 19:30 Job Fair)
Wednesday	10:00 – 18:00	
Thursday	10:00 – 13:00	

Roundtable Meeting Room

Room 715B

Tue-Thu, 9:00 – 12:20, 14:00 – 17:20

A roundtable room is available this year for participants who need a place to sit and have conversations with other attendees of the conference. The room can accommodate multiple groups at once. The room is for drop-in use and cannot be reserved.

Coffee Breaks

Regularly scheduled morning and afternoon coffee breaks are complimentary for all registered CHI 2014 attendees every day 10:20 – 11:00 and 15:20 – 16:00:

Mon	Level 700 Foyer
Tue-Thu	Exhibit Hall E

Speaker Ready Room

Room 704

Speakers and session chairs may use this room as a central check-in point and speakers may reserve a projector to prepare materials and rehearse their presentations. Sign up early with the staff person, since appointments are on a first-come, first-served basis and only one projector is available.

Sat-Wed	07:00 – 17:00
Thu	07:00 – 14:00

Media/Press Office

Room 810

CHI 2014 welcomes members of the media. Please stop by the Media Office to get information on scheduled Media Events this week, and to learn more about CHI 2014, SIGCHI, and future CHI conferences. CHI 2014 media coordinators will be happy to schedule interviews with select authors at the conference. The Media Office hours are the same as the Registration Desk.

■ CHI INFORMATION AND POLICIES

CHI 2014 Information Desk

Exhibit Hall E

Student Volunteers staff the Information desk during Commons hours. They are happy to help answer your questions or find someone who can. At other times, stop by the Registration Desk for information.

Student Volunteers

Room 703 and 705

CHI 2014 has over 175 Student Volunteers, easily identified by their bright colored SV t-shirts. Most are graduate students in human-computer interaction and some are seeking jobs or internships.

Name Badges

Your CHI 2014 name badge serves as your admission pass to conference sessions and events. Please wear your name badge at all times while inside the Metro Toronto Conference Center. Conference management reserves the right to deny admission to anyone not wearing a CHI 2014 name badge.

Internet Café

Exhibit Hall E

Enjoy chatting with colleagues during the breaks at the Internet Café, located next to the Posters area in the CHI 2014 provides access to power for your mobile devices in addition to wireless access.

Wireless Access

CHI 2014 offers wireless high-speed internet access throughout the Metro Toronto Conference Center including in all meeting rooms. Also, please be considerate of your colleagues and limit your time spent online.

Blogging & Photosharing

CHI encourages conference attendees to blog CHI. Please add the category or keyword "CHI 2014" to your blog entries so that others may find them easily. We encourage photosharing by services such as Flickr; but please add a "CHI 2014" tag to your photos and "#chi2014" to your tweets.

Photography and Recording

Photographing crowd scenes and people interacting with technology is common at CHI and attendees should be aware that their image might be captured. Please use common courtesy when taking photos or video of individuals that are later uploaded to YouTube, Flickr or similar sites and ask permission before posting pictures of identifiable people. The use of any type of audio or video recording device is not permitted during any part of the conference.

Smoking Policy

The Metro Toronto Conference Center is a non-smoking facility and smoking is permitted outside only in designated areas.

■ SPOTLIGHTS

Spotlights replaces what used to be known as Communities at CHI. Spotlights are a chance for SIGCHI members with a common area of interest to gather and advance their area through the CHI conference. Spotlights emerging through the CHI conference may even spawn new, more specialized conferences in the future. This year we have five exiting research areas that have been selected to appear as Spotlights at CHI 2014: Games & Entertainment, HCI for Development, Interaction Science, Making Cultures, and Art and Interaction. Below you will find a short description of each Spotlight, as well as a list of suggested sessions relevant to these topics. We also welcome you to visit the Works-in-Progress and Student Competitions in Exhibit Hall E for other content related to these Spotlights.

(P) = Paper Session, (C) = Course

Games and Entertainment

The games and entertainment community has been growing rapidly during the past two years with an increasing number of games and entertainment related submissions in all venues and successful student game competition. In 2014 we are planning to make it the best year yet for the Games and Entertainment Community at CHI as a Spotlight. We are planning to continue the Student Games Competition, increase the quality and quantity of submissions from games researchers and practitioners, and increase the involvement and engagement of practitioners within the community. We also invite you to the Special Interest Group (SIG) on Games and Entertainment session scheduled at CHI 2014.

Suggested Sessions

Monday

11:00 – 12:20 (P) The Third Dimension	(716B)
14:00 – 15:20 (P) Studying and Designing Gameplay	(716B)
14:00 – 15:20 (C) HTML5 Game Development (1/2)	(802AB)
16:00 – 17:20 (C) Novel Approaches to Navigation	(714AB)
16:00 – 17:20 (P) Interfaces for Care and Support	(716B)
16:00 – 17:20 (C) HTML5 Game Development (2/2)	(802AB)

Tuesday

9:00 – 10:20 (P) Understanding and Designing Games	(701B)
9:00 – 10:20 (P) Mid-Air Gestures	(Exhibit Hall G)
11:00 – 12:20 SIG: Games and Entertainment Community SIG: Reaching beyond CHI	(715A)
11:00 – 12:20 (P) Navigating Video	(701A)
11:00 – 12:20 (P) Music, Dance, and Television	(716A)
11:00 – 12:20 (P) Interactive Whiteboards and Public Display	(718AB)
11:00 – 12:20 (P) Human-Robot Interaction	(801A)
14:00 – 15:20 (P) Engage and Educate Children	(801B)
16:00 – 17:20 (P) Exploring Exergames	(701B)
16:00 – 17:20 (P) Narratives and Storytelling	(714AB)

Wednesday

9:00 – 10:20 (P) Telepresence and Connecting over Video	(701A)
9:00 – 10:20 (P) Exergame Design	(701B)
9:00 – 10:20 (P) Health and Everyday Life	(716B)
14:00 – 15:20 (P) Exergaming for Health and Fitness	(716B)
16:00 – 17:20 (P) Tangible Interactions and Technologies	(Exhibit Hall G)

Thursday

9:00 – 10:20 (P) Games and Education	(701B)
9:00 – 10:20 (P) Learning and Games	(701B)
9:00 – 10:20 (P) Persuasive Technologies and Applications	(716B)
9:00 – 10:20 (P) Whole Body Sensing and Interaction	(Exhibit Hall G)

HCI for Development (HCI4D)

Information and communication technologies (ICTs) are increasingly used and appropriated by communities and other stakeholders in low-resource contexts around the world to improve education, healthcare, and lives. Yet, we lack a sufficiently rigorous evidence base that policymakers, practitioners and researchers can draw on to design and apply ICTs for maximum positive social impact. Most importantly, over the decades, human-computer interaction (HCI) has successfully contributed to our methodological toolkit for user-centered, data-driven design; and how decisions in technology design influence technology usage, adoption and the resulting social consequences. With a HCI orientation that recognizes the power of "design thinking", we advance the discourse about "ICTs in development" by recognizing that technology is neither culturally-neutral, static nor deterministic.

The HCI4D community welcomes everyone who is interested in the role of technology in diverse domains such as, but not limited to: conflict zones; literacy; infant mortality; rural and urban community development; and marginalized populations in both developing countries and industrialized nations. We expect members to come from various geographic regions and backgrounds such as anthropology, computer science, economics, education, international development, psychology, and sociology, among others. By being inclusive, we look forward to members engaging with one another in a dialogue that builds on our collective diverse experiences, and in turn strengthening the evidence base for ICTs to impact development in more positive ways.

Suggested Sessions

Monday

11:00 – 12:20 (P) Sustainability and Everyday Practices	(801B)
14:00 – 15:20 (P) Managing Income	(801B)

Tuesday

8:30 – 8:50 Plenary: Big Data for Social Good	(Exhibit Hall G)
9:00 – 10:20 (P) Realities of Fieldwork	(716A)
14:00 – 15:20 (P) Personal Health and Wellbeing	(716B)

Wednesday

11:00 – 12:20 (P) CHI for Social Development	(801B)
14:00 – 15:20 SIG: Community Centered Collaborative HCI Design / Research in Developing Countries	(715A)
14:00 – 16:20 (P) Policies and Practice: Doing the Right Thing	(801B)

Thursday

9:00 – 10:20 (P) HCI Paradigms: Past, Present and Future	(801A)
11:00 – 12:20 (P) Lost and Found in Translation	(716B)
11:00 – 12:20 (P) Cross-Perspective Collaboration	(716A)
14:00 – 15:20 (C) A Conversation with Susan Dray: Uncovering the Ordinary, Inspiring the Extraordinary	(713AB)
14:00 – 15:20 Panel: Can You Do Good and Do Well? Exploring HCI Careers in Development	(715A)

Interaction Science

We want to highlight Interaction Science work and establish a stronger presence of this community within the CHI conference and outside of it. Over the past 30 years science has played a key role in shaping and advancing research in Human-Computer Interaction. Informed in part by methods, theories and findings from the behavioral sciences and from computer science, scientific contributions to HCI have provided explanations of how and why people interact through and with technology. We argue that the contribution of science to HCI could be enhanced if key challenges are met. These challenges are different from those of other disciplines (e.g., engineering, design) that make valuable contributions to HCI.

Suggested Sessions

Tuesday

11:00 – 12:20 Interaction Science SIG: Overcoming Challenges (715A)

We will be maintaining a blog during the conference that will support the discussion of Interaction Science issues. For further information follow us on twitter @Ix_Sci.

Making Cultures

In recent years, HCI researchers have increasingly turned to processes of making, from knitting to digital fabrication, to rethink the digitization of our everyday worlds. Some have studied the rise of community-operated workspaces and blogs that celebrate hands-on practices of hacking, crafting, and tinkering. Others have used reflective modes of making to provoke alternative forms of qualitative inquiry. Through making, such research has probed social responses in participatory design workshops, extended and interrogated existing theory in "critical making" projects, and enacted social change in citizen science initiatives. In all cases, researchers have posed making as a research activity that asks how tactile engagements become tactical within specific socio-technical environments.

The Making Cultures Spotlight includes researchers and practitioners focusing on:

- Empirical study of existing cultures of making, including physical computing, hackerspaces, amateur multimedia production, craft, etc.
- Theory on issues closely related to making, including digital materiality, sustainability, research through design, creativity, and communities of practice and interest
- All aspects of design, development, and deployment of making-focused systems, technologies, technology components, and interfaces
- Use of making as a research method
- Computer science education
- Participatory and democratic design

Suggested Sessions

Monday

14:00 – 15:20(P) Hackerspaces, Making, and Breaking (718AB)

Tuesday

9:00 – 10:20 alt.chi: Ways of Creating in HCI (717AB)

14:00 – 15:20(C) Make This! Introduction to Electronics Prototyping using Arduino (802AB)

14:00 – 15:00(P) DIY & Hacking (718AB)

16:00 – 17:20(C) Make This! Introduction to Electronics Prototyping using Arduino (802AB)

Wednesday

11:00 – 12:20 Panel: Making Cultures: Empowerment, Participation, and Democracy - or Not (716A)

Thursday

11:00 – 12:20(P) 3D Printing and Fabrication (718AB)

Art and Interaction

The Arts and Interaction Spotlight brings together researchers, practitioners, and artists whose work is informed by the digital arts. We recognize that many of these individuals are hybrids between HCI and other disciplines, which include digital arts, design, computer science, performance, music, education, arts administration, and science museum exhibition development. The digital arts intersect with traditional CHI topics such as screen-based interaction, embodied interaction, virtual and augmented environments, games, and data visualization.

The digital arts have been consistently represented in the CHI program for the past decade. Many of these activities are integrated within a larger international and interdisciplinary digital arts movement. The goals of the Art and Interaction Spotlight include supporting this work within CHI, building connections between this work and work in other subdomains of CHI, and networking to communities and resources currently outside of the CHI community. The hope is that through this exposure, CHI researchers will gain alternative insights into the interactive process. By participating in academic conferences such as CHI, digital artists gain access to an audience familiar with their technologies. Through CHI, artists can learn of technological advances and engage in discourse about these technologies. By providing a platform for digital arts at CHI, we can facilitate interdisciplinary collaboration between artists and technologists, and additional insights can be gained in turn. A new goal for CHI 2014 will be the development of an Arts Gallery and associated arts catalogue from CHI 2015 onwards.

Suggested Sessions

Monday

11:00 – 12:20(P) Visualization and Aesthetics (701A)

11:00 – 12:20(P) Audio Interaction (801A)

14:00 – 15:20 SIG: Art and Interaction: Cataloging The Digital Arts (715A)

16:00 – 17:20(P) Research through Design (717AB)

Tuesday

9:00 – 10:20 (P) Enabling Interactive Performances (716A)

9:00 – 10:20 alt.chi: Ways of Creating in HCI (717AB)

11:00 – 12:20(P) Crowds and Creativity (701BA)

11:00 – 12:20(P) Music, Dance, and Television (716A)

14:00 – 15:20(P) DIY and Hacking (718AB)

16:00 – 17:20(P) Critical Design (717AB)

16:00 – 17:20(P) Narratives and Storytelling (714AB)

Wednesday

9:00 – 10:20 (P) Issues That Matter (801B)

11:00 – 12:20 Panel: Making Cultures: Empowerment, Participation, and Democracy or Not? (716A)

14:00 – 15:20(P) Sensory Experiences: Smell and Taste (Exhibit Hall G)

16:00 – 17:20(P) Urban Communities and Social Media (801B)

Thursday

9:00 – 10:20 (P) Whole Body Sensing and Interaction (Exhibit Hall G)

9:00 – 10:20 alt.chi: Intimate Interfaces (717AB)

11:00 – 12:20 Panel: Lost and Found in Translation (716B)

14:00 – 15:20(P) Computer Mediated Intimacy and Romance (701A)

14:00 – 15:20(P) Research and Deployment in the Wild (801A)

■ LIFETIME RESEARCH AWARD

The SIGCHI Lifetime Research Award is presented to individuals for outstanding contributions to the study of human-computer interaction. This award recognizes the very best, most fundamental and influential research contributions. It is awarded for a lifetime of innovation and leadership.

Steve Whittaker is Professor in Psychology at University of California at Santa Cruz. His research examines the design and evaluation of technologies to support human memory, productivity, socialising and well-being. His work uses insights from the social sciences to evaluate existing technologies and generate new designs that address important human problems. He has previously worked at Hewlett Packard, Bell Labs, AT&T, and IBM. In 2008 he was elected the Association of Computational Machinery (ACM) Computer Human Interaction Academy for sustained research contributions. He is Editor of Human Computer Interaction. Right now he is working on online communities and digital tools to support human memory that have mental and physical health benefits.

■ LIFETIME PRACTICE AWARD

The SIGCHI Lifetime Practice Award is presented to individuals for outstanding contributions to the practice and understanding of human-computer interaction. This award recognizes the very best and most influential applications of human-computer interaction. It is awarded for a lifetime of innovation and leadership.

Gillian Crampton Smith studied Philosophy and Art History, then followed her long-standing interest in typography. In 1981 an issue of the typographic magazine *Upper & Lower Case*, on computers in graphic design, inspired her to buy a computer and write a program to do magazine layouts on screen - very early desktop publishing. Convinced of the potential contribution of artist-designers to the design of human-computer interaction, in 1984 she started a graduate program for practicing graphic designers at St Martin's School of Art in London. In 1990 she moved to the Royal College of Art, Britain's graduate school of art and design, where she became professor and, with a generous grant from the Palo Alto company, Interval Research, founded the Computer Related Design Research Studio. This studio collaborated with many high-tech companies, developing the role of the art and design disciplines in shaping how people interact with electronic tools, products and media. She spent several summers in Silicon Valley collaborating with Apple, IDEO and Interval. In 2000 she became the first Director of Interaction Design Institute Ivrea, a teaching and research institute funded by Telecom Italia and Olivetti. Despite its short life, Interaction-Ivrea remains, through its alumni, a worldwide influence. In 2005 she moved to Iuav University of Venice where, with Philip Tabor, she developed the Interaction Design program within its Masters in Design. A Senior Fellow of the Royal College of Art, she has served on England's Arts and Humanities Research Council, the start-up program of the UK National Endowment for Science Technology and the Arts, and the advisory boards of Copenhagen Institute of Interaction Design, Fabbrica, and MIT's SENSEable City Laboratory.

■ LIFETIME SERVICE AWARD

The SIGCHI Lifetime Service Award goes to individuals who have contributed to the growth of SIGCHI in a variety of capacities. This award is for extended services to the community at large over a number of years.

Wendy Mackay is currently Research Director, Classe Exceptionnelle, at Inria in France where she heads the In[Situ] research group in Human-Computer Interaction, which includes 7 faculty and 20 students and research staff from Inria, CNRS and Université Paris-Sud. She is a member of the CHI Academy and a recipient of a prestigious European

Research Council Advanced grant. She recently served as Vice President of Research for the Computer Science Department at Université Paris-Sud, France and spent two years as Visiting Professor at Stanford University. She received her Ph.D. from M.I.T. and has managed software development groups at Digital Equipment Corporation and research groups at Digital, MIT, Xerox, CENA and Aarhus University. She has been actively involved in SIGCHI since 1983 and has participated in every CHI conference since then. She was elected Chair of ACM/SIGCHI, has served on most other SIGCHI executive positions, co-founded the first SIGCHI local SIG, Greater Boston SIGCHI, and has also served on the ACM Publications Board, ACM SIGBoard and CACM Web Editorial Board. She has published over 150 peer-reviewed research articles in the area of human-computer interaction and has served as program chair or on the program committees of ACM CHI, ACM UIST, ACM CSCW, ACM DIS and ACM Multimedia, among others. She was co-editor in chief of *IJHCS* and served on the editorial boards of *ACM/TOCHI* and *RIHM*. Most recently, she served as general chair of CHI 2013 in Paris, with almost 3500 attendees. Her current research interests include participatory design, creativity, co-adaptive instruments, mixed reality and interactive paper, and multidisciplinary research methods.

Tom Hewett is Professor Emeritus of Psychology and Computer Science at Drexel University. Tom's SIGCHI service activities began with a proposal to the SIGCHI Executive Committee that they fund the creation and work of a Curriculum Development Group to develop the first SIGCHI recommended sample Curriculum for Human Computer Interaction. The final report, with its infamous "lime green" cover, became an official ACM document. After twice serving as SIGCHI Executive Committee Vice Chair for Operations (1989-93), Tom was CHI '94 General Co-Chair. As part of four CHI Conference Committees from CHI '91 to CHI 2006, Tom was Tutorials Chair or Co-Chair. In addition, he has been on the organizing committee of four SIGCHI sponsored Creativity and Cognition conferences, serving as papers program Chair or Co-Chair for three of those conferences. Most recently Tom was papers program chair for the 9th Creativity and Cognition Conference, Sydney, June, 2013.

■ SOCIAL IMPACT AWARD

This award is given to individuals who promote the application of human-computer interaction research to pressing social needs.

Richard E. Ladner is a Professor in the Department of Computer Science and Engineering at the University of Washington with adjunct appointments in the Departments of Electrical Engineering and Linguistics. His current research is in the area of accessible computing which is an important subarea of human-computer interaction (HCI). He entered this research area relatively late in his career after working in theoretical computer science for more than 30 years. His MobileAccessibility project is exploring mobile applications to improve the lives of blind, low-vision, and deaf-blind people. He is the creator of the ASL-STEM Forum which is an on-line community for uploading and discussing sign language for terms in science, technology, engineering, and mathematics. He is the Principal Investigator for the NSF-funded AccessComputing Alliance that has the goal of increasing participation of students with disabilities in computing fields. From 2007 - 2013, he directed the Summer Academy for Advancing Deaf and Hard of Hearing in Computing, a nine week program for students transitioning from high school to college. He served on the NSF Committee on Equal Opportunities in Science and Engineering (CEOSE) from 2006 to 2012. He is a recipient of the 2004 Presidential Award for Excellence in Science, Mathematics and Engineering Mentoring (PAESMEM) and the 2008 Computing Research Association's A. Nico Habermann Award. He is a winner of a 2008 Purpose Prize. He was the Outstanding Service Award winner at the University of Washington in 2009. He is a member of the Board of Trustees of Gallaudet University, a liberal arts university that primarily serves deaf students.

■ CHI ACADEMY

The CHI Academy is an honorary group of individuals who have made substantial contributions to the field of human-computer interaction. These are the principal leaders of the field, whose efforts have shaped the disciplines and/or industry, and led the research and/or innovation in human-computer interaction.

John C. Tang is a Senior Researcher at Microsoft Research where he designs and studies new tools to support connecting people over distance. His research has focused on supporting remote collaboration, using a range of technologies (video, instant messaging, rhythmic patterns) in diverse contexts (distributed work teams, long-distance social connections). He not only researches distributed collaboration, but also lives it through working with teams at other sites in the U.S. and around the world. John's research approach combines understanding users' needs through social science methods with designing and prototyping new technologies and learning from how they are used. John's career in industry has included previous positions at IBM Research Almaden, Sun Microsystems, and Xerox PARC. He has been active in the CHI and CSCW research communities through research papers, patents, and service on conference committees, including co-chairing CSCW 2011 in Hangzhou, China. John received his Ph.D. from the Design Division at Stanford University.

Jeff A. Johnson is Principal Consultant at UI Wizards, Inc., a product usability consultancy. He also is a principal at Wiser Usability, Inc., a consultancy focused on usability and accessibility for adults 50+. After earning B.A. and Ph.D. degrees from Yale and Stanford Universities, he worked at Cromemco, Xerox, US West, Hewlett-Packard Labs, and Sun Microsystems. In 1990, he co-chaired the first Participatory Design conference, PDC'90. Since 2004 he has served on the SIGCHI U.S. Public Policy Committee. He has taught at Stanford and Mills College, and in 2006 and 2013 taught HCI as an Erskine Fellow at the University of Canterbury in New Zealand. He has authored many articles and chapters on HCI, as well as the books *GUI Bloopers*, *Web Bloopers*, *GUI Bloopers 2.0*, *Designing with the Mind in Mind*, and (with Austin Henderson) *Conceptual Models: Core to Good Design*. A second edition of *Designing with the Mind in Mind* was published in early 2014.

Susan Dray has worked to advance human-centered design since 1979, initially in a human factors research group at Honeywell, and later championing usability of corporate systems at American Express. Since founding her consulting firm in 1993, she has provided user experience research for a long list of clients to help them create innovative products and services that are useful, usable, and desirable. Through her publications, teaching, mentoring, and many speaking engagements, Susan has contributed significantly to the evolution of UX research practice, especially in field research, naturalistic usability evaluation, and international usability and user research. Extensive experience doing research in developing countries led to her involvement in forming a professional community focused on user-centered design for development (UCD4D), applying UCD to technological aspects of economic development. She is currently pursuing this interest as a Fulbright Scholar on the faculty at the Technological University of Panama. Susan is a Fellow of the Human Factors and Ergonomics Society, recipient of the SIGCHI Lifetime Service Award and an ACM Distinguished Engineer. She is a long-time Column/Forum editor for *Interactions* and served as Director of Publications on the Board of the User Experience Professionals Association. Susan holds a doctorate in Psychology from UCLA.

Jodi L. Forlizzi is an Associate Professor in the Human-Computer Interaction Institute and the School of Design at Carnegie Mellon University. She was the first design professor hired into the HCI and the School of Computer Science at CMU. Jodi has advanced design research in HCI, illustrating to the CHI community that design research, while different than scientific research or research on human behavior, is a critical part of our community. Jodi's early work explored experience design, and understanding how to best design all aspects of product

behavior — functional, aesthetic, emotional, and social. Jodi has also conducted research in human-robot interaction, big data and what it means for design, how technology services can better adapt and be personalized to people's needs, and how design research can help to address societal problems, such as our aging population and today's healthcare needs. Jodi has authored or co-authored over 130 papers and book chapters.

Keith Edwards is a Professor of Interactive Computing in the College of Computing at Georgia Tech. His research focuses largely on bringing human concerns to bear on the creation of core computing infrastructure, for example, by exploring human-centered approaches to networking and computer security. Lately his research has expanded into a number of explorations of the social impacts of computing technology, such as understanding how technology can support the work of non-profits and NGOs, or help build stronger communities. Prior to joining Georgia Tech, he was a Principal Scientist at Xerox PARC and managed PARC's Ubiquitous Computing group. He is an ACM Distinguished Scientist, a member of Microsoft's Trustworthy Computing Academic Advisory Board, and has served as the Technical Program Chair for CHI 2010, the Program Chair for UIST 2002, and the General Chair for UIST 2000. While he is a technologist at heart, he enjoys working with designers, social scientists, and others from diverse backgrounds.

Ken Hinckley is a Principal Researcher at Microsoft Research, where he has spent the last 17 years investigating novel input devices, device form-factors, and modalities of interaction. He feels fortunate to have had the opportunity to collaborate with many CHI Academy members while working there, including noted trouble-makers such as Bill Buxton, Patrick Baudisch, and Eric Horvitz—as well as George Robertson, whom he owes a debt of gratitude for hiring him fresh out of grad school. Ken is perhaps best known for his work on sensing techniques, cross-device interaction, and pen computing. He has published over 75 academic papers and is a named inventor on upwards of 150 patents. Ken holds a Ph.D. in Computer Science from the University of Virginia, where he studied with Randy Pausch. He has also published fiction in professional markets including *Nature* and *Fiction River*, and prides himself on still being able to hit 30-foot jump shots at age 44. Not too shabby.

Richard H. R. Harper is Principal Researcher at Microsoft Research in Cambridge and co-manages the Socio-Digital Systems group. Richard is a sociologist concerned with how to design for 'being human' in an age when human nature is often caricatured or rendered in oversimplifying ways. His book, *Texture: Human expression in the age of communications overload* (MIT Press) was awarded the Society of Internet Researcher's 'Book of the Year (2011)'. Amongst his prior books was the IEEE award winning *The Myth of the Paperless Office* (MIT Press, 2002, with Abi Sellen), and *Inside the IMF: an ethnography of documents, technology and organisational action* (Academic Press, 1997). His latest collection, *Trust, Computing and Society*, will be published by CUP in April this year. He is currently working on a monograph (with Dave Randall and Wes Sharrock) called *Choice: The science of reason in the 21st Century*, (Polity Press).

Gary Marsden was professor of computer science at the University of Cape Town, pioneer and passionate advocate of HCI for development and community builder. He became internationally known for his work in mobile interface design, design, and ICT for development (ICT4D)—for which he was a recipient of the ACM SIGCHI's Social Impact Award in 2007. He went to great lengths to show how mobile technologies were revolutionizing how developing countries were advancing apace. In doing so, he raised the profile of what developing world actually meant. In just a few years, he had managed to put HCI in South Africa and South Africa in HCI. As well as a being a renowned researcher, he received many teaching awards, the last one a prestigious award from his university that only a few ever receive. Gary died suddenly of a heart attack on December 27, 2013, at the age of 42 and is survived by his wife Gil and his two children, Holly and Jake.

■ PAST HONOREES

SIGCHI Lifetime Research Award

- 2013 George G. Robertson
- 2012 Dan Olsen
- 2011 Terry Winograd
- 2010 Lucy Suchman

SIGCHI Lifetime Practice Award

- 2013 Jakob Nielsen
- 2012 Joy Mountford
- 2011 Larry Tesler
- 2010 Karen Holtzblatt

SIGCHI Lifetime Achievement Award

- 2009 Sara Kiesler
- 2008 Bill Buxton
- 2007 James D. Foley
- 2006 Gary M. Olson, Judith S. Olson
- 2005 Tom Landauer
- 2004 Thomas P. Moran
- 2003 John M. Carroll
- 2002 Donald A. Norman
- 2001 Ben Shneiderman
- 2000 Stuart K. Card
- 1998 Douglas Engelbart

SIGCHI Lifetime Service Award

- 2013 Joseph A. Konstan
- 2012 Mike Atwood, Kevin Schofield
- 2011 Arnie Lund, Jim Miller
- 2010 Mary Czerwinski
- 2009 Clare-Marie Karat, Steven Pemberton
- 2008 John Karat, Marian Williams
- 2007 Richard I. Anderson
- 2006 Susan M. Dray
- 2005 Sara Bly, John 'Scooter' Morris, Don Patterson, Gary Perlman, Marilyn Mantei Tremaine
- 2004 Robin Jeffries, Gene Lynch
- 2003 Lorraine Borman
- 2002 Dan R. Olsen Jr.
- 2001 Austin Henderson

SIGCHI Social Impact Award

- 2013 Sara J. Czaja
- 2012 Batya Friedman
- 2011 Alan Newell, Clayton Lewis
- 2010 Allison Druin, Ben Bederson
- 2009 Helen Petrie
- 2008 Vicki Hanson
- 2007 Gregory Abowd, Gary Marsden
- 2006 Ted Henter
- 2005 Gregg Vanderheiden

CHI Academy Members

- Class of 2013 Patrick Baudisch, Victoria Bellotti, Clarisse Sieckenius de Souza, Alan Dix, Rebecca E. Grinter, Eric Horvitz, Bonnie Nardi, Thomas S. Tullis
- Class of 2012 Ben Bederson, Steve Benford, Hugh Dubberly, Carl Gutwin, Joy Mountford, Alan Newell, Yvonne Rogers

- Class of 2011 Ravin Balakrishnan, Steven Feiner, Joseph Konstan, James Landay, Jenny Preece, Abigail (Abi) Sellen, Dennis Wixon
- Class of 2010 Susanne Bødker, Mary Czerwinski, Austin Henderson, David Kieras, Arnie Lund, Larry Tesler, Shumin Zhai
- Class of 2009 Mark Ackerman, Bill Gaver, Clayton Lewis, Wendy E. Mackay, Aaron Marcus, Elizabeth Mynatt, Tom Rodden
- Class of 2008 Gregory Abowd, Paul Dourish, Wendy Kellogg, Randy Pausch, Mary Beth Rosson, Steve Whittaker
- Class of 2007 Joëlle Coutaz, Karen Holtzblatt, Gerhard Fischer, Robert J. K. Jacob, Jun Rekimoto, Chris Schmandt
- Class of 2006 Scott Hudson, Hiroshi Ishii, Michel Beaudouin-Lafon, Jakob Nielsen, Peter Pirolli, George Robertson
- Class of 2005 Ron Baecker, Susan Dumais, John Gould, Saul Greenberg, Bonnie E. John, Andrew Monk
- Class of 2004 George Furnas, Jonathan Grudin, Brad Myers, William Newman, Dan R. Olsen Jr., Brian Shackel, Terry Winograd
- Class of 2003 Thomas Green, James D. Hollan, Robert E. Kraut, Gary M. Olson, Peter G. Polson
- Class of 2002 William A. S. Buxton, John M. Carroll, Douglas C. Engelbart, Sara Kiesler, Thomas K. Landauer, Lucy A. Suchman
- Class of 2001 Stuart K. Card, James D. Foley, Morten Kyng, Thomas P. Moran, Judith S. Olson, Ben Shneiderman

■ ACM/SIGCHI BEST OF CHI AWARDS

The SIGCHI "Best of CHI" awards honor exceptional papers published at the CHI conference. The top 5% of submissions are chosen by the associate chairs to receive an award. Among these, the associate chairs and a separate Best Papers Committee select the very best 1% of submissions to receive a Best Paper award.

The CHI Associate Chairs nominated 5% of the Paper and Notes submissions. 84 papers and notes received Honorable Mention, designated by a medallion logo.

The separate Best Papers committee selected the top 1% of total submissions. 21 Papers and Notes received a Best Paper award, designated by a trophy logo.

Daniel Wigdor (*Chair*), Karyn Moffat (*Chair*), Duncan Brumby, John Canny, Tiago Guerreiro, Steve Harrison, Otmar Hilliges, Lilly Irani, Michal Jacovi, Judy Kay, Kris Luyten, David McGookin, Antti Oulasvirta and Lana Yarosh.

■ PEOPLE'S CHOICE BEST TALK AWARD

The People's Choice Best Talk Awards are meant to celebrate the very best of in-conference presentations. Did a presenter go the extra mile to make their talk genuinely interesting and informative? Did a speaker make you stop and think about something new? Did a presentation make an otherwise dull topic come alive? Nominate the speaker for a People's Choice Best Talk Award! It takes only a moment, and helps to reward those who spend the extra time to make help make the conference truly memorable and extraordinary.

You may cast as many votes as you wish, provided they don't occupy the same time slot (overlapping sessions are ok). Please, do not wait until the end of the conference to choose a single 'best'. Think of your votes as nominations for awards made to the best that the conference has to offer. Votes are cast using the CHI 2014 mobile application or through the voting site: <http://chi2014.acm.org/vote>. Your Voter ID is on the back of your name badge. It only takes a few seconds – vote now! The winners of the People's Choice Best Talk Awards will be announced at the CHI 2014 closing plenary!

■ KEYNOTES

CHI 2014 will open and close with plenaries that will each feature keynotes from distinguished speakers.

The Opening Plenary introduces ACM/SIGCHI and the CHI 2014 Conference, announces the 2014 SIGCHI award winners and offers suggestions for navigating through the CHI 2014 technical program. Awards for Best Papers and Notes and Honorable Mentions are indicated in the Session-at-a-Glance pages.

The Opening Keynote speaker is Booker Prize winning author Margaret Atwood. Write your questions for the keynote speakers on cards distributed by the Student Volunteers.

The Closing Plenary is the last event of CHI 2014. We announce the award winners for the Student Design Competition, the Student Game Competition and the Student Research Competition. The Golden Mouse award is announced on Tuesday evening at the Video Showcase and the Closing Plenary. We will also announce the winners of the inaugural People's Choice Best Talk Awards.

The Closing Keynote is by leading UX designer, Scott Jenson. CHI 2014 ends with the hand-off to the CHI 2015 committee, who will introduce next year's conference taking place in Seoul, Korea.

Opening Keynote: Robotics in My Work and Life Margaret Atwood

Monday 28 April, 9:00

Exhibit Hall G

Biography

Margaret Atwood is a giant of modern literature who refuses to rest on her laurels. She has anticipated, satirized, and even changed the popular

pre-conceptions of our time, and is the rare writer whose work is adored by the public, acclaimed by the critics, and read on university campuses. On stage, Atwood is both serious minded and wickedly funny.

A winner of many international literary awards, including the prestigious Booker Prize, Margaret Atwood is the author of more than thirty volumes of poetry, children's literature, fiction, and non-

fiction. She is perhaps best known for her novels, which include *The Edible Woman*, *The Handmaid's Tale*, *The Robber Bride*, *Alias Grace*, *The Blind Assassin*, *Oryx and Crake*, and *The Year of the Flood*. Her non-fiction book *Payback: Debt and the Shadow Side of Wealth*, part of the Massey Lecture series, was recently made into a documentary. Her new book, *Madaddam* (the third novel in the *Oryx and Crake* trilogy), has received rave reviews: "An extraordinary achievement" (*The Independent*); "A fitting and joyous conclusion" (*The New York Times*).

Atwood's work has been published in more than forty languages, including Farsi, Japanese, Turkish, Finnish, Korean, Icelandic and Estonian. In 2004, she co-invented the LongPen, a remote signing device that allows someone to write in ink anywhere in the world via tablet PC and the internet. She is also a popular personality on Twitter, with over 300,000 followers.

Atwood was born in 1939 in Ottawa and grew up in northern Ontario, Quebec, and Toronto. She received her undergraduate degree from Victoria College at the University of Toronto and her master's degree from Radcliffe College.

Closing Keynote: The Physical Web

Scott Jenson, Google, Inc.

Thursday 1 May, 16:00

Exhibit Hall G

Abstract

Too often when we discuss "interaction" we think of it as a desktop vs tablet vs mobile issue. However, with the plummeting cost of both processing and connectivity, our understanding of a 'smart device' is rapidly changing. The challenge is that this new, amazing category of devices will blind side us, requiring entirely new ways of interacting. This talk will discuss the exploding new area of smart devices, how the Internet of things is a UX disaster, and how we are on the verge of an entirely new way of interacting with devices.

Biography

Scott Jenson has been at the forefront of user interface design for over 25 years. He was the first member of the User Interface group at Apple in the late 80s, working on System 7, the Apple Human Interface Guidelines and was on the original Newton team. Following that he was Director of Product Design for Symbian, managed the mobile UX group at Google and was Creative Director at frog design. As a battle scarred veteran of the software industry, Scott has shipped a consumer spreadsheet, been a part of over 10 different OS releases, 4 commercial web site revisions, designed 3 different mobile phone UIs, did the UX for the Google Mobile Maps, and has over 20 patents.

■ PLENARIES: PROVOKE! WISDOM! IMPACT!

New for CHI 2014, plenary talks first thing each morning on Tuesday, Wednesday and Thursday. Come along, join the crowd and be energised by our speakers who will each bringing their experience of the Big Picture to inspire us. The talks will be short - twenty minutes - and then the rest of the day's program will begin.

Plenary: Big Data for Social Good

Nathan Eagle, Jana Mobile, Inc.

Tuesday 29 April, 8:30 – 8:50

Exhibit Hall G

Abstract

Petabytes of data about human movements, transactions, and communication patterns are continuously being generated by everyday technologies such as mobile phones and credit cards. This unprecedented volume of information facilitates a novel set of research questions applicable to a wide range of development issues. In a collaboration involving 237 mobile operators across 102 countries, Jana's mobile technology platform can instantly poll and compensate 3.48 billion active mobile subscriptions. This talk will discuss how insights gained from living in Kenya became the genesis of a technology

company currently working with global clients in over 50 countries, including P&G, Google, Unilever, Danone, General Mills, Nestle, Johnson & Johnson, Microsoft, the World Bank, and the United Nations. After providing an overview of the mobile and social media landscapes in emerging markets, it will conclude by emphasizing the value of consumer data in underserved and understudied regions of the world.

Biography

Nathan Eagle is the co-founder and CEO of Jana, a company that provides consumers in emerging markets with free mobile phone airtime to incentivize surveys and purchasing. In addition to being CEO of Jana, Eagle holds an Adjunct Assistant Professor appointment at Harvard University.

His MIT PhD was declared one of the "10 Technologies Most Likely to Change the Way We Live," and he's been named one of the world's top mobile application developers and been elected to the TR35, a group of Top Innovators Under 35. Often sought after for his expert commentary, Nathan is regularly featured in such publications as the BBC, New York Times, Wall Street Journal, BusinessWeek and CNN.

Plenary: A CHI Story – Past, Present, and the Next Chapters

Scooter Morris, University of California, San Francisco

Wednesday 30 April, 8:30 – 8:50

Exhibit Hall G

Abstract

I became part of the CHI community in 1985, when I signed up to be the first AV Chair for the CHI conference. For the CHI 2014 conference...I'm still the AV Chair (we call it "technology liaison" now). Along the way, I've co-chaired a CHI conference, served on the SIGCHI Conference Management Committee for many years, and I'm now the Vice President for Conferences for SIGCHI. What is it about CHI that would induce a bioinformatician and hard-core hacker to become passionate about HCI and devote a significant amount of time and energy to support the field of HCI through service to the CHI conference? In this brief talk, we'll look at the CHI conference through the eyes of a volunteer who has spent time in the lowest levels of conference operations, chaired the conference, and now is responsible for overseeing all of the SIGCHI conferences. I'll try to address some or all of the following questions:

Where did we come from? What is CHI trying to achieve and have we been successful? If we have been successful, what are the key ingredients to that success? Where are going and how are we going to get there without losing what we currently have? And finally, why should you care? Oh, and along the way, it will probably become clear why I care...

Biography

John "Scooter" Morris is the Executive Director of the Resource for Biocomputing, Visualization, and Informatics at the University of California, San Francisco. Before finding his home in academia, he was a Distinguished Systems Architect at Genentech, Inc., where for 19 years, he participated in the joys and trials of life in industry. He received his Ph.D. in Medical Information Science from UCSF in 1990, and has bachelor's degrees in Physics, Biology, and Computer Science from UC Irvine. Scooter is a member of the Cytoscape core development team (an open source system for the visualization and analysis of biological networks), and author of several Cytoscape plugins and core features. In his "spare time" he is the Vice President for Conferences of the ACM Special Interest Group for Computers and Human Interaction (SIGCHI), a long-time CHI conference volunteer, past CHI conference co-chair, and recipient of the SIGCHI Lifetime Service Award. He is also known to voluntarily jump off perfectly good boats near Alcatraz Island for a brisk swim to San Francisco, swim across Lake Tahoe, and generally do silly things in cold water, but that's a different story.

Plenary: Reasons to be Cheerful, Part 4

Elizabeth F. Churchill, eBay Research Labs

Thursday 1 May, 8:30 – 8:50

Exhibit Hall G

Abstract

Reasons to be Cheerful, Part 3 was a song released by the UK's Ian Dury and the Blockheads in 1979. The song simply enumerates a series of reasons for being cheerful: Summer, Buddy Holly.... 18-wheeler Scammels, Domenecker camels.... The list includes sex, generosity and politeness, yellow socks, breakfast cereal, John Coltrane.... and more. In 1979 when the song was released HCI was still in its infancy, starting its 'first wave'. Much focus was on efficiency and on communication as command. Satisfaction was noted, but not central. Frustration was acknowledged but not deeply theorized. Now, in 2014, in the third or perhaps even fourth wave of HCI, we talk about engagement, connection, emotion, enjoyment, delight and joy.... Efficiency is still on the table but not dominant. In this talk, I reflect on cheer, on joy and the human capacity for optimism. I will update the Blockheads' list, to include some reasons I believe we should be cheerful about the emerging landscape of mediated interaction and social connection. My list will offer examples from my own collaborative work in the design and development of engaging Internet experiences.

Biography

Dr. Elizabeth F. Churchill is director of human computer interaction at eBay Research Labs, where she is focusing on human centered commerce. Originally a psychologist by training, she has focused on understanding people's social and collaborative interactions in their everyday digital and physical contexts. Dr. Churchill has over 100 peer-reviewed research publications, over 40 patents filed or in process, five edited books, and has been a regular columnist for ACM Interactions. Her most recent book, co-authored with Frank Ritter and Gordon Baxter, is entitled Foundations for Designing User-Centered Systems. She is the current Executive Vice President of ACM SIGCHI, a Distinguished Scientist of the ACM, a Distinguished Visiting Scholar at Stanford University's Media X, and serves on the advisory board for the Mobile Life Research Center in Kista, Sweden. Dr. Churchill has recently been advising on the creation of a new initiative in Human Data Interaction with scholars in the United Kingdom. Before joining eBay, Dr. Churchill was a principal research scientist at Yahoo! Research, where she founded the Internet Experiences Group. She has also worked at PARC's Computing Science Lab. Prior to that, she formed and led the Social Computing Group at Fuji Xerox's FX Palo Alto Laboratory. Dr. Churchill has a PhD in Cognitive Science from the University of Cambridge in Cambridge, United Kingdom.

701B Papers: Crowds and Creativity

CHAIR: LILLY IRANI

Searching for Analogical Ideas with Crowds
Lixiu Yu, Aniket Kittur, Robert E. Kraut

skWiki: A Multimedia Sketching System for Collaborative Creativity
Zhenpeng Zhao, Sriiram Karthik Badam, Senthil Chandrasegaran, Deok Gun Park, Niklas L. Elmqvist, Lorraine Kisselburgh, Karthik Ramani

Distributed Analogical Idea Generation: Inventing with Crowds
Lixiu Yu, Aniket Kittur, Robert E. Kraut

Frenzy: Collaborative Data Organization for Creating Conference Sessions
Lydia B. Chilton, Juho Kim, Paul André, Felicia Cordeiro, James A. Landay, Daniel S. Weld, Steven P. Dow, Robert C. Miller, Haoqi Zhang

709 Course: C06

Improving the User Interface for People with Disabilities
Terrill Thompson

711 Course: C08

Multimodal Detection of Affective States: A Roadmap through Diverse Technologies
Javier Gonzalez-Sanchez, Maria Elena Chavez-Echeagaray, Robert Atkinson, Winslow Burleson

713AB Course: CHIInd-C

Reflections on Design
Don Norman

714AB Papers: Interacting with the Web

CHAIR: JENNIFER GOLBECK

End-Users Publishing Structured Information on the Web: An Observational Study of What, Why, and How
Edward O. Benson, David R. Karger

Predicting Whether Users View Dynamic Content on the World Wide Web
Caroline Jay, Andy Brown, Simon Harper

Designing Usable Web Forms – Empirical Evaluation of Web Form Improvement Guidelines
Mirjam Seckler, Silvia Heinz, Javier A. Bargas-Avila, Klaus Opwis, Alexandre N. Tuch

Choice Overload in Search Engine Use?
Pawitra Chiravirakul, Stephen J. Payne

715A Special Interest Group

Games and Entertainment Community SIG: Reaching beyond CHI
Lennart Nacke, Pejman Mirza-Babaei, Magy Seif El-Nasr, Heather Desurvire, Regina Bernhaupt

716A Papers: Music, Dance, and Television

CHAIR: MARK A. BLYTHE

Coming in from the Margins: Amateur Musicians in the Online Age
Michaela Hoare, Steve Benford, Rachel Jones, Natasa Milic-Frayling

Watching the Footwork: Second Screen Interaction at a Dance and Music Performance
Louise Barkhuus, Arvid Engström, Goranka Zoric

Streaming on Twitch: Fostering Participatory Communities of Play within Live Mixed Media
William A. Hamilton, Oliver Garretson, Andruid Kerne

Long Tail TV Revisited: From Ordinary Camera Phone Use to Pro-Am Video Production
Oskar Juhlin, Arvid Engström, Elin Önnnevall

716B Papers: Social Media and Health

CHAIR: M.C. SCHRAEFEL

Estimating County Health Statistics with Twitter
Aron Culotta

Unraveling Abstinence and Relapse: Smoking Cessation Reflected in Social Media
Elizabeth L. Murnane, Scott Counts

Weaving Clinical Expertise in Online Health Communities
Jina Huh, Wanda Pratt

Seeking and Sharing Health Information Online: Comparing Search Engines and Social Media
Munmun De Choudhury, Meredith R. Morris, Ryan W. White

717AB alt.chi: Limits and Futures

CHAIR: MORGAN AMES

Never Mind the Bollocks, I Wanna Be AnarCHI:
A Manifesto for Punk HCI
Conor Linehan, Ben Kirman

None of a CHInd: Relationship Counselling for HCI and
Speech Technology
Matthew P. Aylett, Per O. Kristensson, Steve Whittaker, Yolanda Vazquez-Alvarez

CHI 2039: Speculative Research Visions
Eric P. Baumer, June Ahn, Mei Bie, Elizabeth M. Bonsignore, Ahmet Börütcene, Oğuz Turan Buruk, Tamara Clegg, Allison Druin, Florian Echter, Dan Gruen, Mona Leigh Guha, Chelsea Hordatt, Antonio Krüger, shachar maidenbaum, Meethu Malu, Brenna McNally, Michael Muller, Leyla Norooz, Juliet Norton, Oguzhan Ozcan, Donald J. Patterson, Andreas Riener, Steven I. Ross, Karen Rust, Johannes Schöning, M. S. Silberman, Bill Tomlinson, Jason Yip

The Minimal Effective Dose of Reminder Technology
Maria K. Wolters

HALL G Papers: On and Above the Surface

CHAIR: NADIR WEIBEL

RetroDepth: 3D Silhouette Sensing for High-Precision Input
On and Above Physical Surfaces
David Kim, Shahram Izadi, Jakub Dostal, Christoph Rhemann, Cem Keskin, Christopher Zach, Jamie Shotton, Timothy Large, Steven Bathiche, Matthias Niessner, D. Alex Butler, Sean R. Fanello, Vivek Pradeep

SurfaceLink: Using Inertial and Acoustic Sensing to Enable
Multi-Device Interaction on a Surface
Mayank Goel, Brendan Lee, Md. Tanvir Islam Aumi, Shwetak N. Patel, Gaetano Borriello, Stacie Hibino, Bo Begole

Comparing Flat and Spherical Displays in a Trust Scenario in
Avatar-Mediated Interaction
Ye Pan, William Steptoe, Anthony Steed

PrintSense: A Versatile Sensing Technique to Support
Multimodal Flexible Surface Interaction
Nan-Wei Gong, Jürgen Steimle, Simon Olberding, Steve Hodges, Nicholas E. Gillian, Yoshihiro Kawahara, Joseph A. Paradiso

Let's Kick It: How to Stop Wasting the Bottom Third of Your
Large Screen Display
Ricardo Jota, Pedro Lopes, Daniel J. Wigdor, Joaquim A. Jorge

718AB Papers: Interactive Whiteboards and Public Displays

CHAIR: ANDREAS BUTZ

Communiplay: A Field Study of a Public Display Mediaspace
Jörg Müller, Dieter Eberle, Konrad Tollmar

P-LAYERS – A Layered Framework Addressing the
Multi-faceted Issues Facing Community-supporting Public
Display Deployments
Nemanja Memarovic, Marc Langheinrich, Keith W. Cheverst, Nick Taylor, Florian Alt

Posting for Community and Culture: Considerations for the
Design of Interactive Digital Bulletin Boards
Claude Fortin, Carman Neustaedter, Kate Hennessy

I Can Wait a Minute: Uncovering the Optimal Delay Time for
Pre-Moderated User-Generated Content on Public Displays
Miriam Greis, Florian Alt, Niels Henze, Nemanja Memarovic

801A Papers: Human-Robot Interaction

CHAIR: WENDY JU

Design Patterns for Exploring and Prototyping
Human-Robot Interactions
Allison Sauppé, Bilge Mutlu

Improving Social Presence in Human-Agent Interaction
André T. Pereira, Rui Prada, Ana Paiva

Robot Gestures Make Difficult Tasks Easier: The Impact of
Gestures on Perceived Workload and Task Performance
Manja Lohse, Reinier Rothuis, Jorge Gallego-Perez, Daphne E. Karreman, Vanessa Evers

Measuring Operator Anticipatory Inputs in Response to
Time-delay for Teleoperated Human-robot Interfaces
Jonathan Bidwell, Alexandra Holloway, Scott Davidoff

Stay on the Boundary: Artifact Analysis Exploring
Researcher and User Framing of Robot Design
HEE RIN LEE, Selma Sabanovic, Erik Stolterman

801B Papers: Emergency Response

CHAIR: LORRIE F. CRANOR

Help Beacons: Design and Evaluation of an Ad-Hoc
Lightweight S.O.S. System for Smartphones
Amro Al-Akkad, Leonardo Ramirez, Alexander Boden, Dave Randall, Andreas Zimmermann

Upvoting Hurricane Sandy: Event-Based News Production
Processes on a Social News Site
Alex Leavitt, Joshua A. Clark

Online Public Communications by Police & Fire Services
during the 2012 Hurricane Sandy
Amanda L. L. Hughes, Lise A. A. St. Denis, Leysia Palen, Kenneth M. M. Anderson

EmergencyMessenger: A Text Based Communication
Concept for Indoor Firefighting
Matthias Betz, Volker Wulf

802AB Course: C07

Card Sorting for Navigation Design
William Hudson

12:20 – 14:00
Lunch Break

Restaurants, bars
& cafés available
nearby

701A Papers: Sensemaking and Information in Use

CHAIR: JEFFREY P. BIGHAM

Odin: Contextual Document Opinions on the Go
Joshua M. Hailpern, Bernardo A. Huberman

Monadic Exploration: Seeing the Whole through Its Parts
Marian Dörk, Rob Comber, Martyn Dade-Robertson

Photographing Information Needs: The Role of Photos in Experience Sampling Method-Style Research
Zhen Yue, Eden Litt, Carrie J. Cai, Jeff Stern, Kathy K. Baxter, Zhiwei Guan, Nikhil Sharma, Guangqiang (George) Zhang

Design Insights for the Next Wave Ontology Authoring Tools
Markel Vigo, Caroline Jay, Robert Stevens

The Role of Interactive Biclusters in Sensemaking
Maoyuan Sun, Lauren Bradel, Chris L. North, Naren Ramakrishnan

701B Lifetime Research Award: Steve Whittaker

CHAIR: JUDITH OLSON

Technology and Memory: From Lifelogging to Strategic Reminiscence

709 Course: C09

Conceptual Models: Core to Good Design
Jeff Johnson

711 Course: C11

Online A/B Tests & Experiments: A Practical But Scientifically Informed Introduction
Joseph Williams, Betsy Williams

713AB Course: C12

Mobile HCI
Niels Henze, Enrico Rukzio

714AB Papers: Presentation Technologies

CHAIR: SHENG DONG ZHAO

SmartVoice: A Presentation Support System for Overcoming the Language Barrier
Xiang Li, Jun Rekimoto

PitchPerfect: Integrated Rehearsal Environment for Structured Presentation Preparation
Ha Trinh, Koji Yatani, Darren Edge

DemoWiz: Re-Performing Software Demonstrations for a Live Presentation
Pei-Yu Chi, Bongshin Lee, Steven M. Drucker

TurningPoint: Narrative-Driven Presentation Planning
Larissa Pschetz, Koji Yatani, Darren Edge

715A Special Interest Group

Interaction Science SIG: Overcoming Challenges
Andrew Howes, Benjamin Cowan, Christian Janssen, Anna Cox, Paul Cairns, Anthony Hornof, Stephen Payne, Peter Pirolli

716A Panel

Opportunities and Risks of Discovering Personality Traits from Social Media
Michelle Zhou, Jeffrey Nichols, Tom Dignan, Steve Lohr, Jennifer Golbeck, James Pennebaker

716B Papers: Personal Health and Wellbeing

CHAIR: JINA HUH

Supporting Treatment of People Living with HIV / AIDS in Resource Limited Settings with IVRs

Anirudha N. Joshi, Mandar Rane, Debjani Roy, Nagraj Emmadi, Padma Srinivasan, N. Kumarasamy, Sanjay Pujari, Davidson Solomon, Rashmi Rodrigues, DG Saple, Kamalika Sen, Els Veldeman, Romain Rutten

Reflection through Design: Immigrant Women's Self-Reflection on Managing Health and Wellness
Deana S. Brown, Victoria Ayo, Rebecca E. Grinter

DDF Seeks Same: Sexual Health-Related Language in Online Personal Ads for Men who Have Sex with Men
Oliver L. Haimson, Jed R. Brubaker, Gillian R. Hayes

Support Matching and Satisfaction in an Online Breast Cancer Support Community

Tatiana A. Vlahovic, Yi-Chia Wang, Robert E. Kraut, John M. Levine

717AB Papers: Design Theory

CHAIR: STEVE HARRISON

Between Theory and Practice: Bridging Concepts in HCI Research

Peter Dalsgaard, Christian Dindler

Evolution of Design Competence in UX Practice
Colin M. Gray

Causal Interactions
Adam Darlow, Gideon Goldin, Steven Sloman

Personas is Applicable – A Study on the Use of Personas In Denmark
Lene Nielsen, Kira Storgaard Hansen

HALL G Papers: Novel Keyboards

CHAIR: KENT LYONS

GestKeyboard: Enabling Gesture-Based Interaction on Ordinary Physical Keyboard

Haimo Zhang, Yang Li

Gesture Script: Recognizing Gestures and Their Structure Using Rendering Scripts and Interactively Trained Parts

Hao Lü, James A. Fogarty, Yang Li

Type-Hover-Swipe in 96 Bytes: A Motion Sensing Mechanical Keyboard

Stuart A. Taylor, Cem Keskin, Otnar Hilliges, Shahram Izadi, John Helmes

B#: Chord-based Correction for Multitouch Braille Input

Hugo Nicolau, Kyle Montague, Tiago Guerreiro, João Guerreiro, Vicki L. Hanson

Representatively Memorable: Sampling the Right Phrase Set to Get the Text Entry Experiment Right

Luis A. Leiva, Germán Sanchis-Trilles

718AB Papers: DIY and Hacking

CHAIR: KASPER HORNBAEK

Sketching in Circuits: Designing and Building Electronics on Paper

Jie Qi, Leah Buechley

Do-It-Yourself Cellphones: An Investigation into the Possibilities and Limits of High-Tech DIY

David A. Mellis, Leah Buechley

3D Printed Interactive Speakers

Yoshio Ishiguro, Ivan Poupyrev

Circuit Stickers: Peel-and-Stick Construction of Interactive Electronic Prototypes

Steve Hodges, Nicolas Villar, Nicholas Chen, Tushar Chugh, Jie Qi, Diana Nowacka, Yoshihiro Kawahara

801A Papers: User Models and Prediction

CHAIR: DUNCAN P. BRUMBY

Modeling the Perception of User Performance

Max Nicosia, Antti Oulasvirta, Per Ola Kristensson

Edit Distance Modulo Bisimulation: A Quantitative Measure to Study Evolution of User Models

Himanshu Zade, Santosh Arvind Adimoolam, Sai Gollapudi, Anind K. Dey, Venkatesh Choppella

The Law of Unintended Consequences: The Case of External Subgoal Support

J. G. Trafton, Raj M. Ratwani

Causality – A Conceptual Model of Interaction History

Mathieu Nancel, Andy Cockburn

801B Papers: Engage and Educate Children

CHAIR: JULIE A. KIENTZ

Conversing with Children: Cartoon and Video People Elicit Similar Conversational Behaviors

Jennifer Hyde, Sara Kiesler, Jessica K. Hodgins, Elizabeth J. Carter

Involving Children in Content Control: A Collaborative and Education-Oriented Content Filtering Approach

Yasmeen Hashish, Andrea Bunt, James E. Young

What Did Spot Hide?: A Question-Answering Game for Preschool Children

Anuj Tewari, John Canny

Rafigh: A Living Media Interface for Speech Intervention

Foad Hamidi, Melanie Baljko

A Comparative Study about Children's and Adults' Perception of Targeted Web Search Engines

Tatiana Gossen, Juliane Höbel, Andreas Nürnberger

802AB Course: C10

Computer Vision in Interaction and UX

Jim Parker

701A Papers: Studying Visualization

CHAIR: PIERRE DRAGICEVIC

Structuring the Space: A Study on Enriching Node-Link Diagrams with Visual References

Basak E. Alper, Nathalie Henry Riche, Tobias Hollerer

Highlighting Interventions and User Differences: Informing Adaptive Information Visualization Support

Giuseppe Carenini, Cristina Conati, Enamul Hoque, Ben Steichen, Dereck J. Toker, James T. Enns

Evaluating a Tool for Improving Accessibility to Charts and Graphs

Leonardo Ferres, Gitte Lindgaard, Livia Sumegi, Bruce H. Tsuji

Understand Users' Comprehension and Preferences for Composing Information Visualizations

*Huahai Yang, Yunyao Li, Michelle Zhou***701B Papers: Exploring Exergames**

CHAIR: DARREN EDGE

Exertion in the Small: Improving Differentiation and Expressiveness in Sports Games with Physical Controls

Mike Sheinin, Carl Gutwin

"Healthifying" Exergames: Improving Health Outcomes through Intentional Priming

Frank X. Chen, Abby C. King, Eric B. Hekler

Human Factors of Speed-based Exergame Controllers

Taiwoo Park, Uichin Lee, Scott MacKenzie, Miri Moon, Inseok Hwang, Junehwa Song

Establishing Design Guidelines in Interactive Exercise Gaming: Preliminary Data from Two Posing Studies

*Monica Zaczynski, Anthony D. Whitehead***709 Course: C09**

Conceptual Models: Core to Good Design

*Jeff Johnson***711 Course: C11**

Online A/B Tests & Experiments: A Practical but Scientifically Informed Introduction

*Joseph Williams, Betsy Williams***713AB Course: C12**

Mobile HCI

*Niels Henze, Enrico Rukzio***714AB Papers: Narratives and Storytelling**

CHAIR: AISLING KELLIHER

The Department of Hidden Stories: Playful Digital Storytelling for Children in a Public Library

Gavin Wood, John Vines, Madeline Balaam, Nick Taylor, Thomas Smith, Clara Crivellaro, Juliana Mensah, Helen Limon, John Challis, Linda Anderson, Adam Clarke, Peter C. Wright

Sharing Stories "in the Wild": A Mobile Storytelling Case Study Using StoryKit

Elizabeth M. Bonsignore, Alexander J. Quinn, Allison Druin, Benjamin B. Bederson

Visualizing Interactive Narratives: Employing a Branching Comic to Tell a Story and Show its Readings

Daniel Andrews, Chris Baber

FOCUS: Enhancing Children's Engagement in Reading by Using Contextual BCI Training Sessions

Jin Huang, Chun Yu, Yuntao Wang, Yuhang Zhao, Siqi Liu, Chou Mo, Jie Liu, Lie Zhang, Yuanchun Shi

Sensing a Live Audience

*Chen Wang, Erik N. Geelhoed, Phil P. Stenton, Pablo Cesar***715A Special Interest Group**

Jogging with Technology: Interaction Design Supporting Sport Activities

*Florian Mueller, Joe Marshall, Rohit Khot, Stina Nylander, Jakob Tholander***716B Papers: Designing for Older Adults & Demographic Change**

CHAIR: VICKI L. HANSON

Interface Design for Older Adults with Varying Cultural Attitudes toward Uncertainty

Shathel Haddad, Joanna McGrenere, Claudia Jacova

Age Differences in Credibility Judgments of Online Health Information

Q. Vera Liao, Wai-Tat Fu

Social Dependency and Mobile Autonomy – Supporting Older Adults' Mobility with Ridesharing ICT

Johanna Meurer, Martin Stein, David W. Randall, Markus Rohde, Volker Wulf

From Checking On to Checking In: Designing for Low Socio-Economic Status Older Adults

Ingrid Arreola, Zan Morris, Matthew Francisco, Kay Connelly, Kelly Caine, Ginger White

Invisible Connections: Investigating Older People's Emotions and Social Relations Around Objects

Kate L. Vaisutis, Margot Brereton, Toni Robertson, Frank Vetere, Jeannette Durick, Bjorn Nansen, Laurie Buys

17:30 – 19:30 Job Fair & Recruiting Board
 17:30 – 19:00 Video Showcase & Golden Mouse Award

Exhibit Hall E
 Room 718AB

717AB Papers: Critical Design

CHAIR: ANDREA G. PARKER

Always Somewhere, Never There: Using Critical Design to Understand Database Interactions

Melanie Feinberg, Daniel Carter, Julia Bullard

Reading Critical Designs: Supporting Reasoned Interpretations of Critical Design

Jeffrey Bardzell, Shaowen Bardzell, Erik Stolterman

Designing for Slowness, Anticipation and Re-visitation: A Long Term Field Study of the Photobox

William T. Odom, Abigail J. Sellen, Richard Banks, David S. Kirk, Tim Regan, Mark Selby, Jodi L. Forlizzi, John Zimmerman

Generating Implications for Design through Design Research

*Corina Sas, Steve Whittaker, Steven P. Dow, Jodi L. Forlizzi, John Zimmerman***HALL G Papers: Understanding and Modeling Touch**

CHAIR: DANIEL VOGEL

Investigating the Effects of Encumbrance on One- and Two-Handed Interactions with Mobile Devices

Alexander Ng, Stephen A. Brewster, John H. Williamson

Modeling the Functional Area of the Thumb on Mobile Touchscreen Surfaces

Joanna Bergstrom-Lehtovirta, Antti Oulasvirta

Coordination of Tilt and Touch in One- and Two-Handed Use

Theophanis Tsandilas, Caroline Appert, Anastasia Bezerianos, David Bonnet

28 Frames Later: Predicting Screen Touches from Back-of-Device Grip Changes

Mohammad Faizuddin Mohd Noor, Andrew Ramsay, Stephen Hughes, Simon Rogers, John Williamson, Roderick Murray-Smith

Probabilistic Palm Rejection Using Spatiotemporal Touch Features and Iterative Classification

Julia Schwarz, Robert Xiao, Jennifer Mankoff, Scott E. Hudson, Chris Harrison

Orientation Matters: Efficiency of Translation-Rotation Multitouch tasks

*Quan Nguyen, Michael Kipp***718AB Papers: 3D Interaction: Modeling and Prototyping**

CHAIR: WOLFGANG STUERZLINGER

MotionMontage: A System to Annotate and Combine Motion Takes for 3D Animations

Ankit Gupta, Maneesh Agrawala, Brian Curless, Michael Cohen

History Assisted View Authoring for 3D Models

Hsiang-Ting Chen, Tovi Grossman, Li-Yi Wei, Ryan M. Schmidt, Björn Hartmann, George Fitzmaurice, Maneesh Agrawala

FrameBox and MirrorBox: Tools and Guidelines to Support Designers in Prototyping Interfaces for 3D Displays

Nora Broy, Stefan Schneegass, Florian Alt, Albrecht Schmidt

Direct Drawing on 3D Shapes with Automated Camera Control

Michael Ortega, Thomas Vincent

Interactively Stylizing Camera Motion

*Neel S. Joshi, Dan Morris, Michael F. Cohen***801A Papers: The Eyes Have It**

CHAIR: JÜRGEN STEIMLE

Stimulating a Blink: Reduction of Eye Fatigue with Visual Stimulus

Tarik Cnouvezanin, Yang Wang, Kwan-Liu Ma

Smart Photo Selection: Interpret Gaze as Personal Interest

Tina C. Walber, Ansgar Scherp, Steffen Staab

Pupil Responses during Discrete Goal-directed Movements

Xianta Jiang, M. Stella Atkins, Geoffrey C. Tien, Roman Bednarik, Bin Zheng

Collocating Interface Objects: Zooming into Maps

*Jon May, Tim Gamble***801B Papers: Learning and Education**

CHAIR: DEBORAH TATAR

Showing Face in Video Instruction: Effects on Information Retention, Visual Attention, and Affect

René F. Kizilcec, Kathryn Papadopoulos, Lalida Sritanyaratana

Supporting Learners in Collecting and Exploring Data from Immersive Simulations in Collective Inquiry

Michelle Lui, Alex C. Kuhn, Alisa Acosta, Chris Quintana, James D. Slotta

Learning to See the Body: Supporting Instructional Practices in Laparoscopic Surgical Procedures

Helena M. Mentis, Amine Chellali, Steven D. Schwartzberg

Information-Building Applications: Designing for Data Exploration and Analysis by Elementary School Students

*Tia R. Shelley, Leilah B. Lyons, Tom Moher, Chandan Dasgupta, Brenda Lopez Silva, Alexandra Silva***802AB Course: C10**

Provoke! Wisdom! Impact! Plenary – A CHI Story - Past, Present, and the Next Chapters

Scooter Morris, University of California, San Francisco

701A Papers: Telepresence and Connecting over Video

CHAIR: KORI M. INKPEN

Remote Handshaking: Touch Enhances Video-Mediated Social Telepresence

Hideyuki Nakanishi, Kazuaki Tanaka, Yuya Wada

Bodies in Motion: Mobility, Presence, and Task Awareness in Telepresence

Irene Rae, Bilge Mutlu, Leila A. Takayama

Exploring Video Streaming in Public Settings: Shared Geocaching Over Distance Using Mobile Video Chat

Jason Procyk, Carman Neustaetter, Carolyn Pang, Anthony Tang, Tejinder K. Judge

A Gaze-preserving Situated Multiview Telepresence System

Ye Pan, Anthony Steed

OneSpace: Shared Visual Scenes for Active Freeplay

Maayan Cohen, Kody R. Dillman, Haley MacLeod, Seth Hunter, Anthony Tang

701B Papers: Exergame Design

CHAIR: SEAN MUNSON

i-dentity: Innominate Movement Representation as Engaging Game Element

Jayden Garner, Gavin Wood, Sebastiaan Pijnappel, Martin Murer, Florian Mueller

Movement-Based Game Guidelines

Florian Mueller, Katherine Isbister

Effects of Balancing for Physical Abilities on Player Performance, Experience and Self-Esteem in Exergames

Kathrin M. Gerling, Matthew Miller, Regan L. Mandryk, Max V. Birk, Jan D. Smeddinck

Supporting the Creative Game Design Process with Exertion Cards

Florian Mueller, Martin R. Gibbs, Frank Vetere, Darren Edge

709 Course: C15

Rapid Design Labs—A Tool to Turbocharge Design-Led Innovation

Jim Nieters, Carola Fellenz Thompson

711 Course: C13

Agile User Experience and UCD

William Hudson

713AB Course: CHIInd-D

How Social Media Design Shapes Society

Judith Donath

714AB Papers: Designing and Modeling GUIs

CHAIR: MICHAEL NEBELING

WADE: Simplified GUI Add-on Development for Third-party Software

Xiaojun Meng, Shengdong Zhao, Yongfeng Huang, Zhongyuan Zhang, James Eagan, Ramanathan Subramanian

Pixel-Based Methods for Widget State and Style in a Runtime Implementation of Sliding Widgets

Morgan E. Dixon, Gierad Laput, James A. Fogarty

The Usability of CommandMaps in Realistic Tasks

Joey Scarr, Andy Cockburn, Carl Gutwin, Andrea Bunt, Jared E. Cechanowicz

Novice Use of a Predictive Human Performance Modeling Tool to Produce UI Recommendations

Kyung Wha Hong, Robert St. Amant

On the Selection of 2D Objects Using External Labeling

Jan Balata, Ladislav Cmolik, Zdenek Mikovec

716A Special Interest Group

Child Computer Interaction SIG: Towards Sustainable Thinking and Being

Janet Read, Juan Pablo Hourcade, Panos Markopoulos, Ole Iversen

716B Papers: Health and Everyday Life

CHAIR: MARIA K. WOLTERS

Real-time Feedback for Improving Medication Taking

Matthew L. Lee, Anind K. Dey

Don't Forget Your Pill! Designing Effective Medication Reminder Apps That Support Users' Daily Routines

Katarzyna Stawarz, Anna L. Cox, Ann E. Blandford

@BabySteps: Design and Evaluation of a System for using Twitter for Tracking Children's Developmental Milestones

Hyewon Suh, John R. Porter, Alexis Hiniker, Julie A. Kientz

DoDo Game, a Color Vision Deficiency Screening Test for Young Children

Linh Chi Nguyen, Ellen Yi-Luen Do, Audrey Chia, Yuan Wang, Henry Been-Lirn Duh

The Influence of Emotion on Number Entry Errors

Paul Cairns, Pratyush Pandab, Christopher D. Power

717AB alt.chi: Navel Gazing

CHAIR: LILLY IRANI

Reflections on a Synergistic Format for Disseminating Research Through Design

Jayne Wallace, Joyce Yee, Abigail Durrant

Quantification in Alt.Chi Open Review: Liking and Ticking on a Likert Scale

Răzvan Rughiniș, Cosima Rughiniș, Alina Petra Marinescu Nenciu

QnDReview: Read 100 CHI Papers in 7 Hours

Ji Soo Yi

Hot Topics in CHI: Trend Maps for Visualising Research

Stefano Padilla, Thomas S. Methven, David W. Corne, Mike J. Chantler

HALL G Papers: Text Entry and Evaluation

CHAIR: ANTTI OULASVIRTA

Both Complete and Correct? Multi-Objective Optimization of Touchscreen Keyboard

XiaoJun Bi, Tom Y. Ouyang, Shumin Zhai

Disambiguation of Imprecise Input with One-dimensional Rotational Text Entry

Will Walmsley, W. Xavier Snelgrove, Khai N. Truong

Complementing Text Entry Evaluations with a Composition Task

Keith Vertanen, Per Ola Kristensson

Uncertain Text Entry on Mobile Devices

Daryl Weir, Henning Pohl, Simon Rogers, Keith Vertanen, Per Ola Kristensson

718AB Papers: Emotions and Mobiles

CHAIR: ANTONIO KRUEGER

Mobile Attachment - Causes and Consequences for Emotional Bonding with Mobile Phones

Alexander Meschtscherjakov, David Wilfinger, Manfred Tscheligi

Hooked on Smartphones: An Exploratory Study on Smartphone Overuse among College Students

Uichin Lee, Joonwon Lee, Minsam Ko, Changhun Lee, Yuhwan Kim, Subin Yang, Koji Yatani, Gahgene Gweon, Kyong-Mee Chung, Junehwa Song

Influence of Personality on Satisfaction with Mobile Phone Services

Rodrigo de Oliveira, Mauro Cherubini, Nuria Oliver

Broken Display = Broken Interface? The Impact of Display Damage on Smartphone Interaction

Florian Schaub, Julian Seifert, Frank D. Honold, Michael Müller, Enrico Rukzio, Michael Weber

801A Papers: Privacy

CHAIR: SAMEER PATIL

Leakiness and Creepiness in App Space: Perceptions of Privacy and Mobile App Use

Irina A. Shklovski, Scott D. Mainwaring, Halla H. Skúladóttir, Höskuldur Borgthorsson

Personalisation and Privacy in Future Pervasive Display Networks

Nigel Davies, Marc Langheinrich, Sarah Clinch, Ivan Elhart, Adrian Friday, Thomas Kubitz, Bholanathsingh Surajbali

A Field Trial of Privacy Nudges for Facebook

Yang Wang, Pedro G. Leon, Alessandro Acquisti, Lorrie F. Cranor, Alain Forget, Norman Sadeh

In Situ with Bystanders of Augmented Reality Glasses: Perspectives on Recording and Privacy-Mediating Technologies

Tamara Denning, Zakariya Dehlawi, Tadayoshi Kohno

801B Papers: Issues That Matter

CHAIR: ROB COMBER

Listening to the Forest and its Curators: Lessons Learnt from a Bioacoustic Smartphone Application Deployment

Stuart Moran, Nadia Pantidi, Tom Rodden, Alan Chamberlain, Chloe Griffiths, Davide Zilli, Geoff Merrett, Alex Rogers

Making Public Things: How HCI Design Can Express Matters of Concern

Carl DiSalvo, Jonathan Lukens, Thomas J. Lodato, Tom Jenkins, Tanyoung Kim

A Sustainable Design Fiction: Green Practices

Ron Wakkary, Audrey Desjardins, Sabrina Hauser, Leah A. Maestri

Just Awful Enough – The Functional Dysfunction of the Something Awful Forums

 Assistive Device for People with Parkinson's

*Roisin C. McNaney, John Vines, Daniel Roggen, Madeline Balaam,
 Pengfei Zhang, Ivan Paliakov, Patrick Olivier*

Non-Intrusive Tongue Machine Interface

Qiao Zhang, Shyamnath Gollakota, Ben Taskar, Raj P. Rao

717AB Special: Student Research Competition

CHAIR: CELINE LATULIPE, FLOYD MULLER

The CHI 2014 Student Research Competition (SRC) is a branch of the ACM Student Research Competition. It is a forum for undergraduate and graduate students to showcase their research, exchange ideas, and improve their communication skills.

HALL G Papers: Shape-Changing Interfaces

CHAIR: ABHIJIT KARNIK

Causing Commotion with a Shape-changing Bench - Experiencing Shape-Changing Interfaces in Use

Erik Grönvall, Sofie Kinch, Marianne Graves Petersen, Majken Kirkegaard Rasmussen

Paddle: Highly Deformable Mobile Devices with Physical Controls

Raf Ramakers, Johannes Schöning, Kris Luyten

Is my Phone Alive? A Large-Scale Study of Shape Change in Handheld Devices Using Videos

Esben W. Pedersen, Sriram Subramanian, Kasper Hornbæk

Evaluating the Effectiveness of Physical Shape-Change for In-pocket Mobile Device Notifications

Panteleimon Dimitriadis, Jason Alexander

Changibles: Analyzing and Designing Shape Changing Constructive Assembly

Anne Roudaut, Rebecca Reed, Tianbo Hao, Sriram Subramanian

718AB Papers: Touch Input

CHAIR: DANIEL J. WIGDOR

Expanding Touch Input Vocabulary by Using Consecutive Distant Taps

Seongkook Heo, Jiseong Gu, Geehyuk Lee

LinearDragger: A Linear Selector for Target Acquisition on Touch Screens

Oscar Kin-Chung Au, Xiaojun Su, Rynson W. Lau

Faster Command Selection on Tablets with FastTap

Carl Gutwin, Andy Cockburn, Joey Scarr, Sylvain Malacria, Scott C. Olson

Crossing-Based Selection with Direct Touch Input

Yueying Luo, Daniel Vogel

801A Papers: Risks and Security

CHAIR: ALEXANDER DE LUCA

Easy Does It: More Usable CAPTCHAs

Elie Bursztein, Angelique Moscicki, Celine Fabry, Steven Bethard, John C. Mitchell, Dan Jurafsky

Using Personal Examples to Improve Risk Communication for Security and Privacy Decisions

Marian Harbach, Markus Hettig, Susanne Weber, Matthew Smith

"My Religious Aunt Asked Why I Was Trying to Sell Her Viagra": Experiences with Account Hijacking

Richard Shay, Iulia Ion, Robert W. Reeder, Sunny Consolvo

Experimenting at Scale with Google Chrome's SSL Warning

Adrienne P. Felt, Robert W. Reeder, Hazim Almuhammedi, Sunny Consolvo

Betrayed By Updates: How Negative Experiences Affect Future Security

Kami E. Vaniea, Emilee Rader, Rick Wash

801B Papers: CHI for Social Development

CHAIR: BAN AL-ANI

Understanding Sustained Community Engagement:

A Case Study in Heritage Preservation in Rural Argentina

Mara Balestrini, Jon Bird, Paul Marshall, Alberto Zaro, Yvonne Rogers

Human Values in Curating a Human Rights Media Archive

Abigail C. Durrant, David S. Kirk, Stuart Reeves

Protibadi: A Platform for Fighting Sexual Harassment in Urban Bangladesh

Syed Ishtiaque Ahmed, Steven J. Jackson, Nova Ahmed, Hasan Shahid Ferdous, Md. Rashidujaman Rifat, A.S.M Rizvi, Shamir Ahmed, Rifat Sabbir Mansur

How Technology Supports Family Communication in Rural, Suburban, and Urban Kenya

Erick Oduor, Carman Neustaetter, Tejinder K. Judge, Kate Hennessy, Carolyn Pang, Serena Hillman

802AB Course: C14

HCI Meets Data Mining: Principles and Tools for Big Data Analytics

Duen Horng (Polo) Chau

12:20 – 14:00
Lunch Break

Restaurants, bars
& cafés available
nearby

701A Papers: Question and Answer Systems

CHAIR: JEFFREY NICHOLS

Towards Crowd-based Customer Service: A Mixed-Initiative Tool for Managing Q&A Sites

Tiziano Piccardi, Gregorio Convertino, Massimo Zancanaro, Ji Wang, Cedric Archambeau

Estimating the Social Costs of Friendsourcing

Jeffrey M. Rzeszutarski, Meredith R. Morris

Expert Voices in Echo Chambers: Effects of Source Expertise Indicators on Exposure to Diverse Opinions

Q. Vera Liao, Wai-Tat Fu

Is Anyone Out There? Unpacking Q&A Hashtags on Twitter

Jeffrey M. Rzeszutarski, Emma S. Spiro, Jorge N. Matias, Andrés Monroy-Hernández, Meredith R. Morris

What If We Ask A Different Question?: Social Inferences Create Product Ratings Faster

*Eric Gilbert***701B Special: Lifetime Practice Award: Gillian Crampton Smith**

CHAIR: DON NORMAN

Design: No Longer an Optional Extra

709 Course: C16

Introduction to Designing and Building Musical Interfaces

*Michael Lyons, Axel Mulder, Sidney Fels***711 Course: C18**

Including Children in Technology Design Processes: Techniques and Practices

*Allison Druin, Jerry Fails, Mona Leigh Guha***713AB Course: C19**

Interaction Design for Online Video and Television

*David Geerts, Pablo Cesar***714AB Papers: Cross-Device Interaction**

CHAIR: FABIO PATERNO

Smarties: An Input System for Wall Display Development

Olivier Chapuis, Anastasia Bezerianos, Stelios Frantzeskakis

Conductor: Enabling and Understanding Cross-Device Interaction

Peter Hamilton, Daniel J. Wigdor

Panelrama: Enabling Easy Specification of Cross-Device Web Applications

Jishuo Yang, Daniel J. Wigdor

Interactive Development of Cross-Device User Interfaces

*Michael Nebeling, Theano Mintsi, Maria Husmann, Moira Norrie***715A Special Interest Group**

Community Centered Collaborative HCI Design / Research in Developing Countries

*Anicia Peters, Heike Winschiers-Theophilus, Nicola Bidwell, Arun Kumar, Daniel Ochieng, Fatoumata Camara, Susan Dray***716A Panel**

CROWDFUNDING: An Emerging Field of Research

*Elizabeth Gerber, Michael Muller, Rick Wash, Lilly Irani, Amanda Williams, Elizabeth Churchill***716B Papers: Exergaming for Health and Fitness**

CHAIR: DAN MORRIS

Motivating People with Chronic Pain to do Physical Activity: Opportunities for Technology Design

Aneesha Singh, Annina Klapper, Jinni Jia, Antonio Rei Fidalgo, Ana Tajadura-Jiménez, Natalie Kanakam, Nadia B. Bianchi-Berthouze, Amanda Williams

Investigating the Long-Term Use of Exergames in the Home with Elderly Fallers

Stephen Uzor, Lynne Baillie

StepStream: A School-based Pervasive Social Fitness System for Everyday Adolescent Health

Andrew D. Miller, Elizabeth D. Mynatt

Social Fabric Fitness: The Design and Evaluation of Wearable E-Textile Displays to Support Group Running

*Matthew Mauriello, Michael Gubbels, Jon E. Froehlich***717AB Special: Student Design Competition**

CHAIR: THECLA SCHIPHORST; YOUNG-KYUNG LIM

The CHI 2014 Student Design Competition (SDC) challenges students to design an object, interface, system, or service related to bodydata: the qualities of the quantified self.

HALL G Papers: Sensory Experiences: Smell and Taste

CHAIR: JETTIE HOONHOUT

Opportunities for Odor: Experiences with Smell and Implications for Technology

Marianna Obrist, Alexandre N. Tuch, Kasper Hornbaek

Temporal, Affective, and Embodied Characteristics of Taste Experiences: A Framework for Design

Marianna Obrist, Rob Comber, Sriram Subramanian, Betina Piqueras-Fiszman, Carlos Velasco, Charles Spence

SensaBubble: A Chrono-Sensory Mid-Air Display of Sight and Smell

Sue Ann Seah, Diego Martinez Plasencia, Peter D. Bennett, Abhijit Karnik, Vlad S. Otrocol, Jarrod Knibbe, Andy Cockburn, Sriram Subramanian

Food Messaging: Using Edible Medium for Social Messaging

Jun Wei, Xiaojuan Ma, Shengdong Zhao

718AB Papers: Multitouch Interaction

CHAIR: SEBASTIAN BORING

Multi-finger Chords for Hand-held Tablets: Recognizable and Memorable

Julie Wagner, Eric Lecolinet, Ted Selker

Prospective Motor Control on Tabletops: Planning Grasp for Multitouch Interaction

Halla B. Olafsdottir, Theophanis Tsandilas, Caroline Appert

Quantitative Measurement of Virtual vs. Physical Object Embodiment through Kinesthetic Figural After Effects

Ayman Alzayat, Mark Hancock, Miguel Nacenta

TouchTools: Leveraging Familiarity and Skill with Physical Tools to Augment Touch Interaction

Chris Harrison, Robert Xiao, Julia Schwarz, Scott E. Hudson

801A Papers: Authentication and Passwords

CHAIR: SERGE EGELMAN

Passhint: Memorable and Secure Authentication

Soumyadeb Chowdhury, Ron Poet, Lewis Mackenzie

Can Long Passwords be Secure and Usable?

Richard Shay, Saranga Komanduri, Adam L. Durity, Phillip (Seyoung) Huh, Michelle L. Mazurek, Sean M. Segreti, Blase Ur, Lujo Bauer, Nicolas Christin, Lorrie F. Cranor

Now You See Me, Now You Don't - Protecting Smartphone Authentication from Shoulder Surfers

Alexander De Luca, Marian Harbach, Emanuel von Zeschwitz, Max-Emanuel Maurer, Bernhard E. Slawik, Heinrich Hussmann, Matthew Smith

The Presentation Effect on Graphical Passwords

Julie Thorpe, Muath Al-Badawi, Brent MacRae, Amirali Salehi-Abari

An Implicit Author Verification System for Text Messages Based on Gesture Typing Biometrics

Ulrich Burgbacher, Klaus H. Hinrichs

801B Papers: Policies and Practice: Doing the Right Thing

CHAIR: VOLKER WULF

Collapse Informatics and Practice: Theory, Method, and Design

Bill Tomlinson, Eli Blevis, Bonnie Nardi, Donald J. Patterson, M. Six Silberman, Yue Pan

HCI as a Means to Prosociality in the Economy

John Harvey, David Golightly, Andrew Smith

Towards a Closer Dialogue between Policy and Practice: Responsible Design in HCI

Barbara Grimpe, Mark Hartswood, Marina Jirotko

Towards Community-Centered Support for Peer-to-Peer Service Exchange: Rethinking the Timebanking Metaphor

Victoria M. Bellotti, Sara Cambridge, Karen Hoy, Patrick C. Shih, Lisa R. Handalian, Kyungsik Han, John M. Carroll

802AB Course: C17

Make This! Introduction to Electronics Prototyping Using Arduino

David Sirkin, Wendy Ju

701A Papers: Journalism and Social News

CHAIR: COYE CHESHIRE

Designing for Dabblers and Deterring Drop-Outs in Citizen Science

Alexandra Eveleigh, Charlene I. Jennett, Ann E. Blandford, Philip Brohan, Anna L. Cox

Utilising Insight Journalism for Community Technology Design

Nick Taylor, David M. Frohlich, Paul Egglestone, Justin Marshall, Jon Rogers, Alicia Blum-Ross, John Mills, Mike Shorter, Patrick Olivier

NewsViews: An Automated Pipeline for Creating Custom Geovisualizations for News

Tong Gao, Jessica R. Hullman, Eytan Adar, Brent Hecht, Nicholas Diakopoulos

Finding "Real People": Trust and Diversity in the Interface Between Professional and Citizen Journalists

*Andrew T. Garbett, Rob Comber, Paul Egglestone, Maxine Glancy, Patrick Olivier***701B Papers: Interruptions and Distractions**

CHAIR: JASON ALEXANDER

Bored Mondays and Focused Afternoons: The Rhythm of Attention and Online Activity in the Workplace

Gloria Mark, Shamsi T. Iqbal, Mary P. Czerwinski, Paul R. Johns

CRISP - An Interruption Management Algorithm based on Collaborative Filtering

Tammar Shrot, Avi Rosenfeld, Jennifer Golbeck, Sarit Kraus

Interrupted by a Phone Call: Exploring Designs for Lowering the Impact of Call Notifications for Smartphone Users

Matthias Böhmer, Christian Lander, Sven Gehring, Duncan P. Brumby, Antonio Krüger

Large-Scale Assessment of Mobile Notifications

*Alireza Sahami Shirazi, Niels Henze, Tilman Dingler, Martin Pielot, Dominik Weber, Albrecht Schmidt***709 Course: C16**

Introduction to Designing and Building Musical Interfaces

*Michael Lyons, Axel Mulder, Sidney Fels***711 Course: C18**

Including Children in Technology Design Processes: Techniques and Practices

*Allison Druin, Jerry Fails, Mona Leigh Guha***713AB Course: C19**

Interaction Design for Online Video and Television

*David Geerts, Pablo Cesar***714AB Papers: Decisions, Recommendations, and Machine Learning**

CHAIR: JON E. FROELICH

Customization Bias in Decision Support Systems

Jacob Solomon

Structured Labeling for Facilitating Concept Evolution in Machine Learning

Todd Kulesza, Saleema Amershi, Rich Caruana, Danyel Fisher, Denis Charles

Choice-Based Preference Elicitation for Collaborative Filtering Recommender Systems

Benedikt Loepp, Tim Hussein, Juergen Ziegler

Finding Dependencies Between Actions Using the Crowd

Walter S. Lasecki, Leon Weingard, George Ferguson, Jeffrey P. Bigham

Scalable Multi-label Annotation

*Jia Deng, Olga Russakovsky, Jonathan Krause, Michael S. Bernstein, Alex Berg, Li Fei-Fei***715A Special Interest Group**

Interactions Magazine

*Ron Wakkary, Erik Stolterman***716A Panel**

The Meaning of Design in Healthcare:

Industry, Academia, Visual Design, Clinician, Patient and HF Consultant Perspectives

Svetlana Taneva, Waxberg Sara, Goss Julian, Rossos Peter, Nicholas Emily, Cafazzo Joseph

716B Papers: Accessibility

CHAIR: HIRONOBUTAKAGI

**Wearables and Chairables: Inclusive Design of Mobile Input and Output Techniques for Power Wheelchair Users***Patrick A. Carrington, Amy Hurst, Shaun K. Kane***The Last Meter: Blind Visual Guidance to a Target***Roberto Manduchi, James M. Coughlan***Current and Future Mobile and Wearable Device Use by People With Visual Impairments***Hanlu Ye, Meethu Malu, Uran Oh, Leah Findlater***Visually Impaired Users on an Online Social Network***Shaomei Wu, Lada A. Adamic***717AB Special: Student Game Competition**

CHAIR: SETH COOPER, ALESSANDRO CANOSSA

The CHI 2014 Student Game Competition (SGC) provides an opportunity for students from a variety of backgrounds (HCI, computer science, game design, fine arts) to participate in CHI and demonstrate their game design and development skills in an international competition.

HALL G Papers: Tangible Interactions and Technologies

CHAIR: ERINT. SOLOVEY

Let's Jam the Reactable: Peer Learning during Musical Improvisation with a Tabletop Tangible Interface*Anna Xambó, Eva Hornecker, Paul Marshall, Sergi Jordà, Chris Dobbyn, Robin Laney***Kickables: Tangibles for Feet***Dominik Schmidt, Raf Ramakers, Esben W. Pedersen, Johannes Jasper, Sven Köhler, Aileen Pohl, Hannes Rantzsch, Andreas Rau, Patrick Schmidt, Christoph Sterz, Yanina Yurchenko, Patrick Baudisch***GaussBricks: Magnetic Building Blocks for Constructive Tangible Interactions on Portable Displays***Rong-Hao Liang, Liwei Chan, Hung-Yu Tseng, Han-Chih Kuo, Da-Yuan Huang, De-Nian Yang, Bing-Yu Chen***Designing Tangible Video Games: Lessons Learned from the Sifteo Cubes***Clément Pillias, Raphaël Robert-Bouchard, Guillaume Levieux***A Low-cost Transparent Electric Field Sensor for 3D Interaction on Mobile Devices***Mathieu Le Goc, Stuart A. Taylor, Shahram Izadi, Cem Keskin***718AB Papers: Head-Worn Displays**

CHAIR: BRIAN P. BAILEY

The Personal Cockpit: A Spatial Interface for Effective Task Switching on Head-Worn Displays*Barrett M. Ens, Rory Finnegan, Pourang P. Irani***Exploring the Use of Hand-To-Face Input for Interacting with Head-Worn Displays***Marcos Serrano, Barrett M. Ens, Pourang P. Irani***Permulin: Mixed-Focus Collaboration on Multi-View Tabletops***Roman Lissermann, Jochen Huber, Martin Schmitz, Jürgen Steimle, Max Mühlhäuser***In-Your-Face, Yet Unseen? Improving Head-Stabilized Warnings to Reduce Reaction Time***Felix Lauber, Andreas Butz***801A Papers: Applications of Body Sensing**

CHAIR: SUSAN R. FUSSELL

Kinect-taped Communication: Using Motion Sensing to Study Gesture Use and Similarity in Face-to-Face and Computer-Mediated Brainstorming*Hao-Chuan Wang, Chien-Tung Lai***Is Motion Capture-Based Biomechanical Simulation Valid for HCI Studies? Study and Implications***Myroslav Bachynskyi, Antti Oulasvirta, Gregorio Palmas, Tino Weinkauf***RecoFit: Using a Wearable Sensor to Find, Recognize, and Count Repetitive Exercises***Dan Morris, T. Scott S. Saponas, Andrew Guillory, Ilya Kelnar***Improving Automatic Speech Recognition Through Head Pose Driven Visual Grounding***Soroush Vosoughi***801B Papers: Urban Communities and Social Media**

CHAIR: N. SADAT SHAMI

Tensions in Scaling-up Community Social Media: A Multi-Neighborhood Study of Nextdoor*Christina A. Masden, Catherine Grevet, Rebecca E. Grinter, Eric Gilbert, W. Keith Edwards***Curated City: Capturing Individual City Guides Through Social Curation***Justin B. Granshaw, Kurt Luther, Patrick Gage Kelley, Norman Sadeh***ZWERM: a Modular Component Network Approach for an Urban Participation Game***Thomas Laureyssens, Tanguy Coenen, Laurence Claeys, Peter Mechant, Johan Criel, Andrew Vande Moere***Studying Digital Graffiti as a Location-Based Social Network***David K. McGookin, Stephen A. Brewster, Georgi Christov***802AB Course: C17****Make This! Introduction to Electronics Prototyping Using Arduino***David Sirkin, Wendy Ju*

Provoke! Wisdom! Impact! Plenary – Reasons to be Cheerful, Part 4

Elizabeth F. Churchill, eBay Research Labs

701A Papers: Social Media Usage

CHAIR: DAVID GEERTS

Social Epistemic Cognition in Online Interactions

Rosanna Yuen-Yan Y. Chan, Silu Li, Diane Hui

Share yourView: Impact of Co-Navigation Support and Status Composition in Collaborative Online Shopping

Yanzhen Yue, Xiaojuan Ma, Zhenhui Jiang

Nutriflect: Reflecting Collective Shopping Behavior and Nutrition

Wolfgang H. Reitberger, Wolfgang Spreicer, Geraldine Fitzpatrick

Didn't You See My Message? Predicting Attentiveness to Mobile Instant Messages

*Martin Pielot, Rodrigo de Oliveira, Haewoon Kwak, Nuria M. Oliver***701B Papers: Games and Education**

CHAIR: JODI L. FORLIZZI

Using Extracted Features to Inform Alignment-Driven Design Ideas in an Educational Game

Erik Harpstead, Christopher J. MacLellan, Vincent Alevan, Brad A. Myers

Brain Points: A Growth Mindset Incentive Structure Boosts Persistence in an Educational Game

Eleanor O'Rourke, Kyla Haimovitz, Christy Ballweber, Carol Dweck, Zoran Popovic

Towards Automatic Experimentation of Educational Knowledge

Yun-En Liu, Travis Mandel, Emma Brunskill, Zoran Popovic

Spending Real Money: Purchasing Patterns of Virtual Goods in an Online Social Game

*Donghee Yvette Wohn***711 Course: C21-I**

Speech-based Interaction: Myths, Challenges, and Opportunities

*Cosmin Munteanu, Gerald Penn***713AB Course: C22-I**

The Glass Class: Designing Wearable Interfaces

*Mark Billinghurst, Hayes Raffle***715A Special Interest Group**

Managing UX Teams

*Janice Rohn, Carola Thompson***714AB Papers: Learning and Games**

CHAIR: AMY OGAN

CADament: A Gamified Multiplayer Software Tutorial System

Wei Li, Tovi Grossman, George Fitzmaurice

Combining Crowdsourcing and Learning to Improve Engagement and Performance

Mira Dontcheva, Robert R. Morris, Joel R. Brandt, Elizabeth M. Gerber

A Game-Based Learning Approach to Road Safety: The Code of Everand

Ian Dunwell, Sara de Freitas, Panagiotis Petridis, Maurice Hendrix, Sylvester Arnab, Petros Lameris, Craig Stewart

L.IVE: An Integrated Interactive Video-based Learning Environment

*Toni-Jan Keith P. Monserrat, Yawen Li, Shengdong Zhao, Xiang Cao***716A Case Studies: Realities of Fieldwork**

CHAIR: MICHAEL ARENT

Challenges at the Bottom of the Pyramid: An Ethnographic Study of South African Mobile Users

Susan Dray

Quick and Participatory: Adopting Users' Designs to Improve a Mobile App

Kate Sangwon Lee, Sun Lee, Hyojung Kim

User-Centered Design for More Efficient Drill Rig Control System

Katri Koli, Tuula Kärkkäinen, Jaakko Lehtikainen, Tuomo Pirinen, Sami Hanski, Juha Lassila, Mikko Loimusaalo

Questions & Answers and Discussion for All Case Studies

716B Papers: Persuasive Technologies and Applications

CHAIR: ERIN CHERRY

Persuasive Technology for Overcoming Food Cravings and Improving Snack Choices

Anne Hsu, Jing Yang, Yigit Han Yilmaz, Md Sanaul Haque, Cengiz Can, Ann E. Blandford

The Effects of Embodied Persuasive Games on Player Attitudes Toward People Using Wheelchairs

Kathrin M. Gerling, Regan L. Mandryk, Max V. Birk, Matthew Miller, Rita Orji

Spent: Changing Students' Affective Learning Toward Homelessness Through Persuasive Video Game Play

Dana N. Ruggiero

Incentives to Participate in Online Research:

An Experimental Examination of "Surprise" Incentives

Andrew T. Fiore, Coye Cheshire, Lindsay Shaw Taylor, G.A. Mendelsohn

717AB alt.chi: Intimate Interfaces

CHAIR: CONOR LINEHAN

Fifty Shades of CHI: The Perverse and Humiliating Human-Computer Relationship

Laura Buttrick, Conor Linehan, Ben Kirman, Dan O'Hara

Brave New Interactions: Performance-Enhancing Drugs for Human-Computer Interaction

Henning Pohl

A Three-dimensional Mirror Augmented by Medical Imaging: Questioning Self-portraying at the Limit of Intimacy

Tom Giraud, Matthieu Courgeon, Marion Tardieu, Alexandra Roatis, Xavier Maitre

Concordance: Design Ideal for Facilitating Situated Negotiations in Out-of-clinic Healthcare

Naveen L. Bagalkot, Erik Grönvall, Tomas Sokoler

HALL G Papers: Whole Body Sensing and Interaction

CHAIR: OTMAR HILLIGES

Combining Body Pose, Gaze, and Gesture to Determine Intention to Interact in Vision-Based Interfaces

Julia Schwarz, Charles C. Marais, Tommer Leyvand, Scott E. Hudson, Jennifer Mankoff

Wave to Me: User Identification Using Body Lengths and Natural Gestures

Eiji Hayashi, Manuel Maas, Jason I. Hong

Haptic Turk: A Motion Platform Based on People

Lung-Pan Cheng, Patrick Lühne, Pedro Lopes, Christoph Sterz, Patrick Baudisch

Audience Experience in Social Videogaming: Effects of Turn Expectation and Game Physicality

John Downs, Frank Vetere, Steve Howard, Steve Loughnan, Wally Smith

718AB Papers: Novel Mobile Displays and Devices

CHAIR: CLIFTON L. FORLINES

Exploiting Thermal Reflection for Interactive Systems

Alireza Sahami Shirazi, Yomna Abdelrahman, Stefan Schneegass, Mohammadreza Khalilbeigi, Niels Henze, Albrecht Schmidt

MisTable: Reach-through Personal Screens for Tabletops

Diego Martinez Plasencia, Edward Joyce, Sriam Subramanian

What is a Device Bend Gesture Really Good for?

Teemu T. Ahmaniemi, Johan Kildal, Merja Haveri

SurfacePhone: A Mobile Projection Device for Single- and Multiuser Everywhere Tabletop Interaction

Christian Winkler, Markus Löchtefeld, David Dobbelstein, Antonio Krüger, Enrico Rukzio

801A Papers: HCI Paradigms: Past, Present and Future

CHAIR: JEFFREY BARDZELL

Is Once Enough? On the Extent and Content of Replications in Human-Computer Interaction

Kasper Hornbæk, Søren S. Sander, Javier A. Bargas-Avila, Jakob Grue Simonsen

Binding the Material and the Discursive with a Relational Approach of Affordances

Huatong Sun, William F. Hart-Davidson

The Turn to Practice in HCI: Towards a Research Agenda

Kari Kuutti, Liam J. Bannon

CHI 1994-2013: Mapping Two Decades of Intellectual Progress through Co-word Analysis

Yong Liu, Jorge A. Goncalves, Denzil S. Ferreira, Bei Xiao, Simo J. Hosio, Vassilis Kostakos

801B Papers: PolitiCHI

CHAIR: DARREN GERGLE

"Narco" Emotions: Affect and Desensitization in Social Media during the Mexican Drug War

Munmun De Choudhury, Andres Monroy-Hernandez, Gloria Mark

A Pool of Dreams: Facebook, Politics and the Emergence of a Social Movement

Clara Crivellaro, Rob Comber, John Bowers, Peter C. Wright, Patrick Olivier

Shared Values/Conflicting Logics: Working Around E-Government Systems

Amy Vaida, Lynn S. Dombrowski, Gillian R. Hayes, Melissa Mazmanian

Rethinking Plan A for Sustainable HCI

Bran Knowles, Lynne Blair, Paul Coulton, Mark Lochrie

802AB Course: C20-I

Hands-on Sketching Course

Stephanie Foehrenbach

10:20 – 11:00
Coffee Break

THURSDAY

701A Papers: Location-Based Services and Navigation

CHAIR: MARK PERRY

HaptiMoto: Turn-by-Turn Haptic Route Guidance Interface for Motorcyclists

Manoj Prasad, Paul Taele, Daniel Goldberg, Tracy A. Hammond

Experimental Evaluation of User Interfaces for Visual Indoor Navigation

Andreas Möller, Matthias Kranz, Stefan Diewald, Luis Roalter, Robert Huitl, Tobias Stockinger, Marion Koelle, Patrick A. Lindemann

Digitally Driven: How Location Based Services Impact the Work Practices of London Bus Drivers

Gary Pritchard, John Vines, Pam Briggs, Lisa Thomas, Patrick Olivier

Smart Flashlight: Map Navigation Using a Bike-Mounted Projector

Alexandru Dancu, Zlatko Franjic, Morten Fjeld

Partially Intelligent Automobiles and Driving Experience at the Moment of System Transition

*Key Jung Lee, Yeon Kyoung Joo, Clifford Nass***701B Papers: Crowdsourcing**

CHAIR: STEVEN P. DOW

Slide to X: Unlocking the Potential of Smartphone Unlocking

Khai N. Truong, Thariq Shihpar, Daniel J. Wigdor

Twitch Crowdsourcing: Crowd Contributions in Short Bursts of Time

Rajan Vaish, Keith Wyngarden, Jingshu Chen, Brandon Cheung, Michael S. Bernstein

Crowdsourcing the Future: Predictions Made with a Social Network

Clifton L. Forlines, Sarah Miller, Leslie Guelcher, Robert Bruzzi

Cognitively Inspired Task Design to Improve User Performance on Crowdsourcing Platforms

*Harini Alagarai Sampath, Rajeev Rajeshuni, Bipin Indurkha***711 Course: C21-2**

Speech-based Interaction: Myths, Challenges, and Opportunities

*Cosmin Munteanu, Gerald Penn***713AB Course: C22-2**

The Glass Class: Designing Wearable Interfaces

*Mark Billinghurst, Hayes Raffle***714AB Papers: Desktop Search and History**

CHAIR: HUAHAIYANG

Searching for Myself: Motivations and Strategies for Self-Search

Catherine C. Marshall, Siân E. Lindley

Finder Highlights: Field Evaluation and Design of an Augmented File Browser

Stephen Fitchett, Andy Cockburn, Carl Gutwin

PIM and Personality: What do our Personal File Systems Say About Us?

Charlotte Massey, Sean TenBrook, Chaconne Tatum, Steve Whittaker

Show Me the Invisible: Visualizing Hidden Content

*Thomas Geymayer, Markus Steinberger, Alexander Lex, Marc Streit, Dieter Schmalstieg***715A Special Interest Group**

Effectively Communicating User Research in Order to Drive Design and Product Decisions

*Karen Holtzblatt, Shoshana Holtzblatt***716A Case Studies: Cross-Perspective Collaboration**

CHAIR: CONNOR UPTON

HCI Interventions with Nonprofit Organizations: Tactics for Effective Collaboration

Vicki Moulder, Lorna Boschman, Ron Wakkary, William Odom, Stacey Kuznetsov

Redefinition of Requirements in the Design and Development of the Project Mapocci: From Digital Art to HCI Research

Lilia Villafuerte, Laura Malinverni

An Extended Case Study Methodology for Investigating Influence of Cultural, Organizational, and Automation Factors on Human-Automation Trust

Kolina Koltai, Nhut Ho, Gina Masequesmay, David Niedober, Mark Skoog, Walter Johnson, Artemio Cacanindin, Joseph Lyons

Questions & Answers and Discussion for All Case Studies

716B Papers: Lost and Found in Translation

CHAIR: TIAGO GUERREIRO

"Maybe It Was a Joke" - Emotion Detection in Text-Only Communication by Non-Native English Speakers

Ari M. Hautasaari, Naomi Yamashita, Ge Gao

TransPhoner: Automated Mnemonic Keyword Generation

Manolis Savva, Angel X. Chang, Christopher D. Manning, Pat Hanrahan

AudioCanvas: Internet-Free Interactive Audio Photos

Simon Robinson, Jennifer S. Pearson, Matt Jones

The Impact of Visual Contextualization on UI Localization

Luis A. Leiva, Vicent Alabau

Improving Machine Translation by Showing Two Outputs

Bin Xu, Ge Gao, Susan R. Fussell, Dan Cosley

717AB Papers: Participatory Design

CHAIR: MONA LEIGH GUHA

Diversity for Design: A Framework for Involving Neurodiverse Children in the Technology Design Process
Laura J. Benton, Asimina Vasalou, Rilla Khaled, Hilary Johnson, Daniel Gooch

- 🏆 Canine-Centered Interface Design: Supporting the Work of Diabetes Alert Dogs
Charlotte L. Robinson, Clara Mancini, Janet van der Linden, Claire Guest, Robert Harris

- 🏆 Co-constructing Child Personas for Health-Promoting Services with Vulnerable Children
Pontus Wärnestål, Petra Svedberg, Jens Nygren

Balancing Design Tensions: Iterative Display Design to Support Ad Hoc and Multidisciplinary Medical Teamwork
Diana S. Kusunoki, Aleksandra Sarcevic, Nadir Weibel, Ivan Marsic, Zhan Zhang, Genevieve Tuveson, Randall S. Burd

HALL G Papers: Brain Computer Interfaces

CHAIR: LYNNE BAILLIE

Error Related Negativity in Observing Interactive Tasks
Chi Thanh T. Vi, Izdihar Jamil, David Coyle, Sriram Subramanian

- 🏆 Dynamic Difficulty Using Brain Metrics of Workload
Daniel A. Afergan, Evan M. Peck, Erin T. Solovey, Andrew Jenkins, Samuel W. Hincks, Eli T. Brown, Remco Chang, Robert J. Jacob

Measuring the Effect of Think Aloud Protocols on Workload using fNIRS
Matthew F. Pike, Horia A. Maior, Martin Porcheron, Sarah C. Sharples, Max L. Wilson

- 🏆 An EEG-based Approach for Evaluating Audio Notifications under Ambient Sounds
Yi-Chieh Lee, Wen-Chieh Lin, Jung-Tai King, Li-Wei Ko, Yu-Ting Huang, Fu-Yin Cherng

718AB Papers: 3D Printing and Fabrication

CHAIR: ALEX OLWAL

- 🏆 faBrickation: Fast 3D printing of Functional Objects by Integrating Construction Kit Building Blocks
Stefanie Mueller, Tobias Mohr, Kerstin Guenther, Johannes Frohnhofer, Patrick Baudisch

Understanding Physical Activity through 3D Printed Material Artifacts
Rohit A. Khot, Larissa Hjorth, Florian ' Mueller

Supporting The Design and Fabrication of Physical Visualizations
Saiganesh Swaminathan, Conglei Shi, Yvonne Jansen, Pierre Dragicevic, Lora A. Oehlberg, Jean-Daniel Fekete

- 🏆 MixFab: A Mixed-Reality Environment for Personal Fabrication
Christian Weichel, Manfred Lau, David Kim, Nicolas Villar, Hans W. Gellersen

801A Papers: Modeling Users and Interaction

CHAIR: NIKLAS L. ELMQVIST

- 🏆 Model of Visual Search and Selection Time in Linear Menus
Gilles Bailly, Antti Oulasvirta, Duncan P. Brumby, Andrew Howes

- 🏆 Towards Accurate and Practical Predictive Models of Active-Vision-Based Visual Search
David E. Kieras, Anthony J. Hornof

- 🏆 Understanding Multitasking Through Parallelized Strategy Exploration and Individualized Cognitive Modeling
Yunfeng Zhang, Anthony J. Hornof

- 🏆 How Does Knowing What You Are Looking For Change Visual Search Behavior?
Duncan P. Brumby, Anna L. Cox, Jacqueline Chung, Byron Fernandes

Automated Nonlinear Regression Modeling for HCI
Antti Oulasvirta

801B Papers: Engaging Older Adults Through Technology

CHAIR: JOANNA MCGRENERE

Understanding Digital and Material Social Communications for Older Adults
Alexis Hope, Ted Schwaba, Anne Marie Piper

- 🏆 Never Too Old: Engaging Retired People Inventing the Future With MaKey MaKey
Yvonne Rogers, Jeni Paay, Margot Brereton, Kate L. Vaisutis, Gary Marsden, Frank Vetere

What's on Your Mind? Investigating Recommendations for Inclusive Social Networking and Older Adults
Chris Norval, John L. Arnott, Vicki L. Hanson

Being Senior and ICT: A Study of Seniors Using ICT in China
Yuling Sun, Xianghua Ding, Silvia Lindtner, Tun Lu, Ning Gu

802AB Course: C20-2

Hands-on Sketching Course
Stephanie Foehrenbach

12:20 – 14:00
Lunch Break

*Restaurants, bars
 & cafés available
 nearby*

THURSDAY

701A Papers: Computer Mediated Intimacy and Romance

CHAIR: JOHN THOMAS

The Lonely Raccoon at the Ball: Designing for Intimacy, Sociability, and Selfhood

Jeffrey Bardzell, Shaowen Bardzell, Guo Zhang, Tyler Pace

Room for Interpretation: The Role of Self-Esteem and CMC in Romantic Couple Conflict

Lauren E. Scissors, Michael E. Roloff, Darren Gergle

Exploring Affective Communication Through Variable-Friction Surface Haptics

Joseph M. Mullenbach, Craig Shultz, J. Edward Colgate, Anne Marie Piper

Wrigglo: Shape-Changing Peripheral for Interpersonal Mobile Communication

Joohee Park, Young-Woo Park, Tek-jin Nam

701B Papers: Network of Care

CHAIR: PATRICK OLIVIER

WORKSHOPS

CHI 2014 workshops take place at the Convention Center levels 700 and 800 except the workshop W01 which will take place at the University of Toronto. Workshops are accessible only to pre-registered attendees.

2-Day Workshops: Saturday 26 – Sunday 27 April Room

- W01 Critical Making Hackathon: Situated Hacking, Surveillance and Big Data – K. Tanenbaum, J. Tanenbaum, A. Williams, M. Ratto, G. Resch, A. G. Bari
This workshop will be held at the Critical Making Lab which is located in the Semaphore Research Cluster at the University of Toronto, 7th floor of Robarts Library, 130 St. George Street, on the St. George (downtown) campus. Please take the P4 elevator on the 2nd floor of Robarts – this is the only elevator that goes to the 7th floor.
- W02 Curating the Digital: Spaces for Art and Interaction – 701B
D. England, J. Spence, C. Latulipe, E. Edmonds, L. Candy, T. Schiphorst, N. Bryan-Kinns, K. Woolford
- W03 Game Jam [4 Research] – M. Deen, R. Cercos, A. Chatman, 801A
A. Naseem, R. Bernhaupt, A. Fowler, B. Schouten, F. Mueller
- W04 Interaction and Architectural Space – N. Dalton, 801B
K. Green, R. Dalton, A. Mathew, C. Hoelscher, M. Wiberg, H. Schnädelbach, T. Varoudis
- ### I-Day Workshop: Saturday 26 April Room
- W06 Autonomy in Technology Design – R. Calvo, D. Peters, 714B
D. Johnson, Y. Rogers
- W07 "Touch me" Workshop on Tactile User Experience 717A
Evaluation Methods – M. Tscheligi, K. Isbister, K. Höök, M. Obrist, M. Busch, C. Hochleitner
- W08 Alternate Endings: Using Fiction to Explore Design 716A
Futures – C. Linehan, B. Kirman, S. Reeves, M. Blythe, J. Tanenbaum, A. Desjardins, R. Wakkary
- W09 Participatory Design with People Living with 717B
Cognitive or Sensory Impairments – K. Slegers, P. Duysburgh, N. Hendriks
- W10 Perspectives on Gender and Product Design – 718A
S. Dray, D. Busse, A. Brock, A. Peters, S. Bardzell, A. Druin, M. Burnett, E. Churchill, G. Williams, K. Holtzblatt, D. Murray
- W12 Gesture-based Interaction Design: Communication 802AB
and Cognition – M. L. Maher, T. Clausner, B. Tversky, D. Kirsh, J. Kay, A. Danielescu, K. Grace
- W13 Refusing, Limiting, Departing: Why We Should Study 714A
Technology Non-use – E. Baumer, M. Ames, J. Brubaker, J. Burrell, P. Dourish
- W14 Socially Engaged Arts Practice in HCI – R. Clarke, 715A
J. Briggs, A. Light, S. Heitlinger, C. Crivellaro
- W15 Designing Speech and Language Interactions – 715B
C. Munteanu, M. Jones, S. Whittaker, S. Oviatt, M. Aylett, G. Penn, S. Brewster, N. d'Alessandro
- W16 Understanding Teen UX: Building a Bridge to the 713A
Future – D. Fitton, B. Bell, J. Read, O. Iversen, L. Little, M. Horton
- W17 Designing Technology for Major Life Events – 713B
M. Massimi, S. Yarosh, M. Smith, J. Kaye
- W18 HCI Research in Healthcare: Evidence to Practice – 707
K. Sellen, D. Furniss, Y. Chen, S. Taneva, A. A. O'Kane, A. Blandford
- W19 Workshop on Inconspicuous Interaction – 709
D. Marques, L. Carriço, T. Guerreiro, A. De Luca, P. Maes, I. Oakley, E. von Zezschwitz, I. Muslukhov

I-Day Workshop: Sunday 27 April

- | | | Room |
|-----|---|------|
| W20 | Beyond Quantified Self: Data for Wellbeing – J. Meyer, S. Simske, K. Siek, C. Gurrin, H. Hermens | 716B |
| W21 | Peripheral Interaction: Shaping the Research and Design Space – S. Bakker, D. Hausen, T. Selker, E. van den Hoven, A. Butz, B. Eggen | 718A |
| W22 | Workshop on Assistive Augmentation – J. Huber, J. Rekimoto, M. Inami, R. Shilkrot, P. Maes, W. Meng, G. Pullin, S. Nanayakkara | 714A |
| W23 | Personalizing Behavior Change Technologies – G. Hsieh, S. Munson, M. Kaptein, H. Oinas-Kukkonen, O. Nov | 714B |
| W24 | #CHIMoney: Financial Interactions, Digital Cash, Capital Exchange and Mobile Money – J. Ferreira, J. Vertesi, J. Kaye, B. Brown, M. Perry | 717A |
| W25 | HCI and Sports – S. Nylander, J. Tholander, F. Mueller, J. Marshall | 717B |
| W26 | Supporting Children with Complex Communication Needs – J. P. Hourcade, F. Garzotto, A. Rozga, M. Tentori, P. Markopoulos, N. Pares, J. Good, H. Pain, M. Alper | 802A |
| W27 | Biological Rhythms and Technology – M. Matthews, E. Carroll, S. Abdullah, J. Snyder, M. Kay, T. Choudhury, G. Gay, J. Kientz | 707 |
| W28 | Values & Design in HCI Education – J. A. Koepfler, C. L. Stark, P. Dourish, P. Sengers, K. Shilton | 715A |
| W29 | Learning Innovation at Scale – J. Williams, R. Kizilcec, S. Klemmer, D. Russell | 709 |
| W30 | Developing a Living HCI Curriculum to Support a Global Community – E. Churchill, J. Preece, A. Bowser | 716A |
| W31 | Enabling Empathy in Health and Care: Design Methods and Challenges – A. Thieme, J. Vines, J. Wallace, R. Clarke, P. Slovák, J. McCarthy, M. Massimi, A. G. Parker | 715B |
| W32 | What Have We Learned? A SIGCHI HCI & Sustainability Community Workshop – M. Six Silberman, E. Blevis, E. Huang, B. Nardi, L. Nathan, D. Busse, C. Prei, S. Mann | 713A |
| W33 | Player Experience: Mixed Methods and Reporting Results – V. Zammitt, P. Mirza-Babaei, I. Livingston, M. Kobayashi, L. Nacke | 713B |

■ DOCTORAL CONSORTIUM

Selected doctoral students present and explore their research topics with senior researchers and other students in a two-day interdisciplinary workshop. Doctoral Consortium posters are displayed in Exhibit Hall E and brief descriptions appear in the CHI 2014 Extended Abstracts.

Saturday – Sunday

Doctoral Consortium (Room 711)

Tuesday

10:20 – 11:00 Meet the poster authors (Exhibit Hall E)

Tuesday – Thursday

Posters on display during opening hours (Exhibit Hall E)

Doctoral Consortium Faculty

Bill Buxton	Microsoft Research
Adrian Cheok	City University London, UK
Kristina Höök	Stockholm University & KTH, Sweden
Katherine Isbister (Co-Chair)	New York University, USA
Clifford Nass (In Memory)	Stanford University, USA
Yvonne Rogers	University College London, UK
Manfred Tscheligi (Co-Chair)	University of Salzburg, Austria

Participants

A Beep, a Flash, a Rumble? Evaluating Multimodal Displays for Drivers

I. Politis

Making Bare Hand Input More Accurate

C. Wacharamanotham

Digital Naturalism: Designing Holistic Ethological Interaction

A. Quitmeyer

Supporting Teaching and Learning of Situational Empathy by Technology

P. Slovák

Investigating the Adoption of Local Online Communities

C. López

Happy is Pink: Designing for Intuitive Use with Color-to-Abstract Mappings

D. Löffler

The Development of Novel Eyes-Free Exercise Technologies Using Participatory Design

K. Rector

Persistent Workplace Plug-load Energy Savings and Awareness through Energy Dashboards: Eco-feedback, Control, and Automation

R. Yun

User Experience and the Human Spirit

E. A. Buie

Intelligent Sketching Interfaces for Richer Mid-Air Drawing Interactions

P. Taele

The Afterlife of Digital Identity

J. R. Brubaker

Human Interaction with Assistive Free-Flyers

D. J. Szafir

Theory-driven Design for Healthy Eating

J. Hou

Fashion Thinking and Sustainable HCI

Y. Pan

EngageME: A Tool to Simplify the Conveyance of Complicated Data

S. S. S. Darnell

■ STUDENT RESEARCH COMPETITION

The Student Research Competition (SRC) is a forum for undergraduate and graduate students to showcase their research, exchange ideas, and improve their communication skills while competing for prizes. Sponsored by Microsoft Research, the SRC is a branch of the ACM SRC. Winners are announced at the Closing Plenary.

Monday

16:00 – 17:20 Judging (jury & competitors only) (Room 715B)

Tuesday

15:20 – 16:00 Posters highlighted during the afternoon break (Exhibit Hall E)

Wednesday

11:00 – 12:20 Posters presentations open to all conference attendees (Room 717AB)

Jury

Melanie Feinberg	Uni. of Texas at Austin, USA
Mary Czerwinski	Microsoft Research, USA
Edward Lank	University of Waterloo, Canada

Finalists

A Mobile Point-of-Care Diagnostic System for Low-Resource Settings

Nicola Lee Dell

Cassandra: A Crowdsourced Testbed for Content Assessment of Potential Social Media Posts

Himel Dev

Okinawa in Japanese and English Wikipedia

Scott A. Hale

Designing Ballot Interfaces for Voters with Vision Disabilities

Seunghyun Lee

Shoulder Surfing Susceptibility of Bend Passwords

Sana Maqsood

Low-Income Parents' Perceptions of Technology: Value-based Design Insights

David Munoz

Virtual Inclusion Via Telepresence Robots In The Classroom

Veronica Ahumada Newhart

Flying Display: A Movable Display Pairing Projector and Screen in the Air

Hiroki Nozaki

Exploring Tapping with Thumb Input for Flexible Tablets

Md Riyadh

The Perceptual Benefits of a Tangible Interface Decrease with Users' Expertise

Bertrand Schneider

Autonomy-based Rehabilitation Design: Balancing Capability and Complexity

Kyoungwon Seo

Digital Classroom Magazines: Design Considerations for Young Learners

Jeff Stern

The Agony of Passwords: Can We Learn from User Coping Strategies?

Elizabeth Stobert

VisiStat: Visualization-driven, Interactive Statistical Analysis

Krishna Subramanian

Learnersourcing Subgoal Labels for How-to Videos

Sarah A. Weir

■ STUDENT DESIGN COMPETITION

This is the 12th year of the CHI Student Design Competition (SDC). This year's conference theme "One of a CHInd" focuses our SDC design challenge on the one of a kind diversity that is made up of the individual selves that create our community. The growing design domain of the Quantified Self has been made possible through the integration of low-cost sensing technologies with proliferating applications available through mobile and internet technologies. There is a context of sensory-rich data from biometric, health, neo-analog, DIY culture and geophysical sensing that expands our ability to augment or shift our perspectives and our knowledge. Self-tracking, self-management and self-awareness are activities that promote agency and transformation of our own growing accumulation of bodydata. How can we transform this overwhelming incoming bodydata into self-knowledge?

Monday

11:00 – 12:20 Judging (jury & competitors only) (Room 715B)

Tuesday

15:20 – 16:00 Meet the poster authors (Exhibit Hall E)

Wednesday

14:00 – 15:20 Finalist presentations (Room 717AB)

Tuesday-Thursday

Posters on display during opening hours (Exhibit Hall E)

Jury

Mark Blythe	Northumbria University, UK
Aisling Kelliher	Carnegie Mellon University, USA
Tek-Jin Nam	KAIST, South Korea
Ilona Posner	User Experience Consultant, Canada

Finalists

Oris: Enhance Social Self-Awareness for Visually Impaired People
Xuan Luo, Yu Xu, Clark Mullen

MAES:TRO: A Practice System to Track, Record, and Observe for Novice Orchestral Conductors
Ekaterina Ivanova, Lulu Wang, Yihe Fu, Jeffrey Gadzala

KNEE: An Everyday Wearable Goniometer for Monitoring Physical Therapy Adherence
David Munoz, Andy Pruett, Graceline Williams

Sisyphorest: Maintenance Goal Support by Responding to Trends
William Saunders, Filip Krynicki, Valerie Sugarman

Beam: A Mobile Application to Improve Happiness and Mental Health
Joyce Sakata, Mengdi Zhang, Shi Pu, Jianqi Xing, Kritika Versha

NeckGraffe: A Postural Awareness System
Rushil Khurana, Elena Marinelli, Tulika Saraf, Li Shan

InnoMotion – A Web-Based Rehabilitation System Helping Patients Recover and Gain Self-Awareness of their Body Away from the Clinic
Luxi Chen, Ni Yan, Miranda Kiang, Anna S. Muth, Kruthi Sabnis Krishna

Fitnmo – Exercise Motivation App For Google Glass
Edward Nguyen, Tanmay Modak, Elton Dias, Yang Yu, Liang Huang

Bloom: Fostering Healthy and Peaceful Pregnancies with Personal Analytics
Max S. Wenger, Jarad Bell, Peter McEvoy, Asuka Cherie Yamaguchi, Auriana Shokrpour

DAYA: A System for Monitoring and Enhancing Children's Oral Hygiene
Kejia Shao, Jiye Huang, Huaying Song, Runze Li, Jinxi Wu

Nuwa: Enhancing The Pregnancy Experience for Expectant Parents
Yuan Gao, Xinying Li, Yu-Hsuan Lin, Xin Liu, Lin Pang

Baby Lucent: Pitfalls of Applying Quantified Self to Baby Products
Kevin Gaunt, Júlia Nacsá, Marcel Penz

■ STUDENT GAME COMPETITION

The Games and Entertainment Special Community created this competition to showcase student work in areas of game design and development that connect strongly to the CHI community of research and practice. Students submitted games as well as extended abstracts clarifying innovative aspects of their work. The jury selected three finalist games in each category—Games for a Purpose, Innovative Interface and Innovative Game Design—and the winner in each category will be announced at the awards session on Wednesday afternoon.

CHI attendees can play the games on Wednesday morning in Exhibit Hall E. The SGC winners are announced at the Closing Plenary.

Games for a Purpose: Games submitted to this category are designed not just to entertain, but also to accomplish some end goal. Examples include games for health, learning games, journalistic games.

Innovative Interface: Games submitted to this category push the boundaries of current interface practice. Examples include the use of gesture, multi-touch, or haptics; voice input; use of sensors such as breathing or heart rate; and augmented reality games for mobile platforms.

Innovative Game Design: Games submitted to this category push the boundaries of current game mechanics and/or design. Examples include games that add novel mechanics that have not been used before, add new visual or audio themes/dynamics, explore new mixes of mechanics, story and character elements, automated techniques for adaptive designs, or explore new forms of interaction that are thought provoking.

Wednesday

10:00 – 14:00 Demonstrations by the finalists (Exhibit Hall E)

16:00 – 17:20 Presentations and awards (Room 717AB)

Jury

Seth Cooper	University of Washington, USA
Alessandro Canossa	Northeastern University, USA

Finalists

Disguise: A Game that Evaluates Visualization Algorithms
Nafees U. Ahmed

Find the Jackalop: A Game Enhancing Young Children's Spatial Thinking
George Kalmpourtzis

Chorlody: A Music Learning Game
Yang Liu, Ni Yan, Dili Hu

Mute Robot – Cooperative Gameplay through Body Language Communication
Chun-Yen Hsu, Ying-Chao Tung, Wei-Han Wang, Han-Yu Wang

i-identity: Concealing Movement Representation Associations in Games
Jayden Garner, Gavin Wood

Drunken Ed: A Balance Game for Public Large Screen Displays
Alexander Biskupski, Andreas R. Fender, Tiare M. Feuchtnner, Marcel Karsten, Jonas D. Willaredt

Foot Motion Sensing: Augmented Game Interface Based on Foot Interaction for Smartphone
Zhihan Lu

Volcano Salvation: Interaction through Gesture and Head Tracking
Sheila Christian, Júlio Alves, André Ferreira, Dinarte Jesus, Rúben Freitas, Nelson Vieira

■ COURSES

Courses allow CHI attendees to extend their knowledge beyond their current community and their current areas of expertise. Courses are taught in one to three 80-minute units.

This year, CHI is pleased to offer six “One of a CHInd Courses”. These are special invited courses that will be given by distinguished members of the HCI community.

Pre-registration is required. The Course Notes you receive at registration serve as your entry ticket. You may register for courses that have not yet been filled at the Registration Desk in the lobby area on the ground level.

Monday Courses, 28 April**Room**

CHInd-A	Sampling & Synthesis: The Two Sides of Experience Sketching – <i>W. Buxton</i> 1-session: 11:00 – 12:20	713AB
C01	Designing Unbiased Surveys for HCI Research – <i>H. Müller, A. Sedley, E. Ferrall-Nunge</i> 1-session: 11:00 – 12:20	711
C02	Introduction to Human-Computer Interaction – <i>Jonathan Lazar, Simone Barbosa</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	713AB
C03	Methods of Design Synthesis—Moving from Data to Innovation – <i>J. Kolko</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	802AB
C04	HTML5 Game Development – <i>J. Parker</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	709
C05	Empirical Research Methods for Human-Computer Interaction – <i>S. MacKenzie, S. Castellucci</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	711

Tuesday Courses, 29 April**Room**

CHInd-F	What HCI Can Do for Citizen Science – <i>J. J. Preece</i> 1-session: 9:00 – 10:20	713AB
CHInd-C	Reflections on Design – <i>D. Norman</i> 1-session: 11:00 – 12:20	713AB
C06	Improving the User Interface for People with Disabilities – <i>T. Thompson</i> 2-sessions: 9:00 – 10:20 and 11:00 – 12:20	709
C07	Card Sorting for Navigation Design – <i>W. Hudson</i> 2-sessions: 9:00 – 10:20 and 11:00 – 12:20	802AB
C08	Multimodal Detection of Affective States: A Roadmap Through Diverse Technologies – <i>J. Gonzalez-Sanchez, M. E. Chavez-Echeagaray, R. Atkinson, W. Burleson</i> 2-sessions: 9:00 – 10:20 and 11:00 – 12:20	711
C09	Conceptual Models: Core to Good Design – <i>J. Johnson</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	709
C10	Computer Vision in interaction and UX – <i>J. Parker</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	802AB
C11	Online A/B Tests & Experiments: A Practical but Scientifically Informed Introduction – <i>J. Williams, B. Williams</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	711
C12	Mobile HCI – <i>N. Henze, E. Rukzio</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	713AB

Wednesday Courses, 30 April**Room**

CHInd-D	How Social Media Design Reshapes Society – <i>J. Donath</i> 1-session: 9:00 – 10:20	713AB
CHInd-E	Designing for Seniors – <i>R. Baecker</i> 1-session: 11:00 – 12:20	713AB
C13	Agile User Experience and UCD – <i>W. Hudson</i> 2-sessions: 9:00 – 10:20 and 11:00 – 12:20	711
C14	HCI Meets Data Mining: Principles and Tools for Big Data Analytics – <i>D. H. (Polo) Chau</i> 2-sessions: 9:00 – 10:20 and 11:00 – 12:20	802AB
C15	Rapid Design Labs—A Tool to Turbocharge Design-Led Innovation – <i>J. Nieters, C. F. Thompson</i> 2-sessions: 9:00 – 10:20 and 11:00 – 12:20	709
C16	Introduction to Designing and Building Musical Interfaces – <i>M. Lyons, A. Mulder, S. Fels</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	709
C17	Make This! Introduction to Electronics Prototyping Using Arduino – <i>D. Sirkin, W. Ju</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	802AB
C18	Including Children in Technology Design Processes: Techniques and Practices – <i>A. Druin, J. Fails, M. L. Guha</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	711
C19	Interaction Design for Online Video and Television – <i>D. Geerts, P. Cesar</i> 2-sessions: 14:00 – 15:20 and 16:00 – 17:20	713AB

Thursday Courses, 1 May**Room**

CHInd-G	Uncovering the Ordinary, Inspiring the Extraordinary: A Conversation with Susan Dray – <i>S. Dray, E. F. Churchill</i> 1-session: 14:00 – 15:20	713AB
C20	Hands-on Sketching Course – <i>S. Fahrenbach</i> 2-sessions: 9:00 – 10:20 and 11:00 – 12:20	802AB
C21	Speech-based Interaction: Myths, Challenges, and Opportunities – <i>C. Munteanu, G. Penn</i> 2-sessions: 9:00 – 10:20 and 11:00 – 12:20	711
C22	The Glass Class: Designing Wearable Interfaces – <i>M. Billingham, H. Raffle</i> 2-sessions: 9:00 – 10:20 and 11:00 – 12:20	713AB
C23	A Crash Course in Modern Geography for HCI Researchers and Practitioners – <i>B. Hecht, D. Shamma</i> 1-session: 14:00 – 15:20	802AB
C24	How You Could Benefit from Using ISO Standards – <i>N. Bevan</i> 1-session: 14:00 – 15:20	709
C25	Evaluating Children's Interactive Products – <i>J. Read, P. Markopoulos</i> 1-session: 14:00 – 15:20	711

■ VIDEO SHOWCASE

Video Showcase features engaging videos that offer a variety of perspectives on human-computer interaction, including novel interfaces, reflective pieces and future envisionments. Come and enjoy the videos on Tuesday (17:30) followed by the Golden Mouse award ceremony.

Tuesday

17:30 – 19:00 Video Showcase (718AB)

Videos

The Secret Life of Computers

Jonathan Aceituno, Ludovic Potier

Medi, Human Robot Interaction in Pediatric Health

Setareh Aghel Manesh, Tanya Beran, Ehud Sharlin, Saul Greenberg

Electronic Kit with No Current Flow that Uses Projection Mapping

Yoh Akiyama, Homei Miyashita

How I Found My Research Question

Halimat I. Alabi

Is Anyone Looking? Mediating Shoulder Surfing on Public Displays (The Video)

Frederik Brudy, David Ledo, Saul Greenberg

Paper Generators – Harvesting Energy from Touching, Rubbing and Sliding

Joanna Maria Dauner, Mustafa Emre Karagozler, Ivan Poupyrev

Plenopticon: Video Playback for Dynamically Adaptive Depth-of-Field

David Philip Green, Thomas Smith, Guy Schofield

Learning with CyberPLAYce, a Cyber-Physical Learning Environment for Elementary Students Promoting Computational Expression

Arash Soleimani, Kyle Smith, Jiawei Zeng, Keith E. Green, Danielle Herro, Jessie Santiago, Surya Sharma, Manas Tonapi, Arnith Vijaykumar, Ian Walker, Christina Gardner-McCune

TouchSense: Expanding Touch Input Vocabulary Using Different Areas of Users' Finger Pads

Da-Yuan Huang, Ming-Chang Tsai, Ying-Chao Tung, Min-Lun Tsai, Yen-Ting Yeh, Liwei Chan, Mike Y. Chen

Augmented Climbing: Testing Prototypes in Wizard of Oz Experiment

Raine Kajastila, Perttu Hämäläinen

Draco: Living Illustrations

Rubaiat Habib Kazi, Fanny Chevalier, Tovi Grossman, Shengdong Zhao, George Fitzmaurice

SweatAtoms: Understanding Physical Activity through Material Artifacts

Rohit Ashok Khot, Jeewon Lee, Larissa Hjorth, Florian 'Floyd' Mueller

HandyScope: A Remote Control Technique using Pull-out Gesture

Takuro Kuribara, Takuto Yoshikawa, Buntarou Shizuki, Jiro Tanaka

Ziklo: Bicycle Navigation Through Tactile Feedback

Brianna Jean Huxtable, Carlo Ka-Ho Lai, Johnson Wen Jun Zhu, Paulina Mun-Yee Lam, Yeseul Tracy Choi, Carman Neustaedter, Greg J. Corness

Loopo: A Tangible Programming Game For Kids

Paulina Mun-Yee Lam, Carlo Ka-Ho Lai, Yeseul Tracy Choi, Brianna Jean Huxtable, Jan Rainier Castro, Andrew Hawryshkewich, Carman Neustaedter

GaussBricks: Magnetic Building Blocks for Constructive Tangible Interactions on Portable Displays

Rong-Hao Liang, Liwei Chan, Hung-Yu Tseng, Han-Chih Kuo, Da-Yuan Huang, De-Nian Yang, Bing-Yu Chen

ShoeSoleSense: Demonstrating A Wearable Foot Interface For Locomotion In Virtual Environments

Denys Matthies, Franz Müller, Christoph Anthes, Dieter Kranzlmüller

LIVE: An Integrated Interactive Video-based Learning Environment

Toni-Jan Keith Palma Monserrat, Shengdong Zhao, Yawen Li, Xiang Cao

faBrickation: Fast 3D printing of Functional Objects by Integrating Construction Kit Building Blocks

Stefanie Mueller, Tobias Mohr, Kerstin Guenther, Johannes Frohnhofer, Patrick Baudisch

Wrigglo: Shape-Changing Peripheral for Interpersonal Mobile Communication

Joohee Park, Young-Woo Park, Tek-Jin Nam

Paddle: Highly Deformable Mobile Devices with Physical Controls

Raf Ramakers, Johannes Schöning, Kris Luyten

A Wearable Text-Reading Device for the Visually-Impaired

Roy Shilkrot, Jochen Huber, Connie Liu, Pattie Maes, Suranga Chandima Nanayakkara

GestKeyboard: Enabling Gesture-Based Interaction on Ordinary Physical Keyboard

Haimo Zhang, Yang Li

WORKS IN PROGRESS

Authors are scheduled to stand by their posters during “meet the author” sessions indicated below. Please visit both rotations to see all of the exciting work being done and discuss new ideas with Poster authors.

First Rotation: Tuesday all day

Authors present their posters during the morning and afternoon breaks.

The following poster collections are on display:

Children and Teens	10101 – 10108
Accessibility	10201 – 10212
Augmented Reality	10301 – 10309
Search and InfoViz	10401 – 10410
Making	10501 – 10510
Gaming	10601 – 10614
Gesture and Eye-Based Interactions	10701 – 10715
Healthcare	10801 – 10814
Notifications, Awareness and Distractions	10901 – 10916
Interaction Techniques	11001 – 11016

Second Rotation: Wednesday all day

Authors present their posters during the morning and afternoon breaks.

The following poster collections are on display:

E-Commerce	20101 – 20107
Communities	20201 – 20212
Displays	20301 – 20309
Social Computing	20401 – 20411
Ubicomp, Robots, and Wearables	20501 – 20511
Learning	20601 – 20614
Mobile Interactions	20701 – 20712
Lifestyle	20801 – 20813
Trust, Privacy, and Emotions	20901 – 20913
Users and UI Design	21001 – 21015

FIRST ROTATION – TUESDAY 29 APRIL

CHILDREN AND TEENS

10101 – 10108

Narrative-Based Elicitation: Orchestrating Contributions from Experts and Children

J. Mora Guirad

Find the Jackalop: A Game Enhancing Young Children's Spatial Thinking

G. Kalmpourtzis

SpeakUp in the Classroom: Anonymous Temporary Social Media for Better Interactions

S. Govaerts

How Do Children Adapt Strategies when Drawing on a Tablet?

M. Shukri, S. Rohkmah

Scaffolding Design Sessions with Teenagers: The PDA Approach

D. Fitton

“Smiles, Kids, Happy Songs!”: How to Collect Metaphors with Older Adults

S. Panëls

CopyMe: A Portable Real-Time Feedback Expression Recognition Game for Children

C. T. Tan

A Robot with Style, because you are Worth it!

W. Johal

ACCESSIBILITY

10201 – 10212

Designing Games for the Rehabilitation of Functional Vision for Children with Cerebral Visual Impairment

C. Linehan

Supporting Autism Therapists: Co-designing Interventions

C. Duarte

Designing a Multimodal Email Support Tool for Persons with Aphasia

A. Al Mahmud

Use Octopus Launcher Like Your Hands: Joystick-based Smartphone Control Solution for Motor Impaired People in Electric Wheelchairs

H. Ahn

Blind in a Virtual World: Vision-deprived Virtual Navigation Patterns Using Depth Cues and The Effect of Extended Sensory Range

S. Maidenbaum

Design of an Accessible and Portable System for Soccer Players with Visual Impairments

K. McMullen

Design for One: A Game Controller for a Quadriplegic Gamer

H. Lin

Technology to Support Emergent Literacy Skills in Young Children with Visual Impairments

A. Stangl

Making Electronics More Accessible to People with Learning Disabilities

N. Hollinworth

HoverZoom: Making On-screen Keyboards More Accessible

F. Pollmann

Welcoming Gesture Recognition into Autism Therapy

C. Duarte

HamsaTouch: Tactile Vision Substitution with Smartphone and Electro-Tactile Display

H. Kajimoto

AUGMENTED REALITY

10301 – 10309

Augmented Climbing: Interacting With Projected Graphics on a Climbing Wall

R. Kajastila

An Augmented Workplace for Enabling User-Defined Tangibles

M. Funk

Shvil: Collaborative Augmented Reality Land Navigation

N. Li

Really, It's for Your Own Good... Making Augmented Reality Navigation Tools Harder to Use

J. Wen

Enhancing Augmented Reality For Use In Product Design

T. Purdy

Generic Method for Crafting Deformable Interfaces to Physically Augment Smartphones

C. Watanabe

CAPTIVE: A Cube with Augmented Physical Tools

A. Chakraborty

Using 3D Hand Gestures and Touch Input for Wearable AR Interaction

H. Bai

Rubikon: A Highly Reconfigurable Device for Advanced Interaction

A. Roudaut

SEARCH AND INFOVIZ**10401 – 10410**

Babywijzer: An Application to Support Women During their Pregnancy

A. Al Mahmud

Lightweight Support for Collaborative Web Browsing Through SpreadVector

T. Gross

Linking External and Internal Search: Investigating the Site Searching Patterns of Referred Searchers

B. Jansen

What People Inquire about Locations? A Study on the Taxonomy of Location-based Questions in Campus

L. Chen

Should I Stay or Should I Go: Two Features to Help People Stop an Exploratory Search Wisely

Y. Jia

Unified Visualization of Quantitative and Qualitative Playtesting Data

P. Mirza-Babaei

Visualizing Vocal Expression

M. Pietrowicz

GLOs: Graph-Level Operations for Exploratory Network Visualization

C. Stolper

Beyond Physical Bar Charts – An Exploration of Designing Physical Visualizations

S. Stusak

Annotation of Graphical Elements in Visualizations for an Efficient Analysis of Visual Tasks

M. Raschke

MAKING**10501 – 10510**

Design Gender in Input Fields

N. Marsden

From DIY Tutorials to DIY Recipes

M. Dalton

Towards an Integrated Methodological Framework for Understanding Embodiment in HCI

A. Xambó

Programming in the Pond: A Tabletop Computer Programming Exhibit

D. Weintrop

The Timeline as a Programming Interface

B. Cardoso

Exploring the Need for Visualizations in System Administration Tools

J. Mahendiran

Making 3D Printed Objects Interactive Using Wireless Accelerometers

J. Hook

NatCut: An Interactive Tangible Editor for Physical Object Fabrication

S. Schneegass

A Half-Implant Device on Fingernails

K. Iwasaki

CapStudio: An Interactive Screencast for Visual Application Development

K. Fukahori

MAKING**10601 – 10614**

Gamification of Collaborative Idea Generation and Convergence

A. Moradian

RoVatar: Semi-autonomous Robot Boxing Game by Miniature Avatars

B. Yoo

What Nouns and Adjectives in Online Game Reviews Can Tell Us About Player Experience?

X. Fang

Is 60 FPS Better than 30? The Impact of Frame Rate and Latency on Moving Target Selection

R. Teather

Civic Engagement Meets Pervasive Gaming: Towards Long-term Mobile Participation

M. Baldauf

The Effect of Multiplayer Dynamic Difficulty Adjustment on the Player Experience of Video Games

A. Baldwin

Performance of Modern Gaming Input Devices in First-Person Shooter Target Acquisition

R. Teather

Geo-Sociograms: A Method to Analyze Movement Patterns and Characterize Tasks in Location-Based Multiplayer Games

G. Herkenrath

Playful Science: Deriving Computer Games from Complex Systems

R. Kirkham

Investigating Players' Responses to Wayfinding Cues in 3D Video Games

D. Moura

Common Playability Problems in Social Network Games

J. Paavilainen

A Brief Technical Note on Haptic Jellyfish with Falcon and OpenGL

S. Mokhov

QuoDocs: Improving Developer Engagement in Software Documentation through Gamification

R. Sukale

Improving Guide Dog Team Play with Accessible Dog Toys

S. Hauser

GESTURES AND EYE-BASED INTERACTIONS**10701 – 10715**

Multimodal Target Prediction Model

P. Biswas

Suit Up!: Enabling Eyes-Free Interactions on Jacket Buttons

K. Todi

EyeDE: Gaze-enhanced Software Development Environments

F. Raab

Eye Contact over Video

J. Kjeldskov

Multilevel Auditory Displays for Mobile Eyes-Free Location-Based Interaction

Y. Vazquez-Alvarez

Design and Evaluation of a Dwell-free Eye Typing Technique

T. Chakraborty

Dynamic Edge: Finding Eyes-Free Controls on Orientation-Agnostic Devices

J. Kildal

AirAuth: Towards Attack-Resilient Biometric Authentication Using In-Air Gestures

S. Kratz

Robot Conferencing: Physically Embodied Motions Enhance Social Telepresence
K. Tanaka

Glasses with Haptic Feedback of Gaze Gestures
J. Rantala

Error Behaviours in an Unreliable In-air Gesture Recognizer
A. Arif

U-Remo: Projection-assisted Gesture Control for Home Electronics
A. Kadamura

Personal Space: User Defined Gesture Space for GUI Interaction
A. Jude

Using Audio Cues to Support Motion Gesture Interaction on Mobile Devices
S. Morrison-Smith

Trampoline: A Double-sided Elastic Touch Device for Repoussé and Chasing Techniques
G. Lee

HEALTHCARE

10801 – 10814

Evaluating a Clinical Decision Support Interface for End-of-Life Nurse Care
A. Febretti

Comparing Direct and Indirect Interaction in Stroke Rehabilitation
M. Khademi

Point-of-Care Testing for Diabetes Patients: Investigating Diabetes Management by Older Adults
A. Al Mahmud

Physio@Home: Design Explorations to Support Movement Guidance
R. Tang

Supporting Longitudinal Change in Many Health Behaviors
J. Ren

Free-Hand Interaction with Leap Motion Controller for Stroke Rehabilitation
M. Khademi

Afraid to Ask: Proactive Assistance with Healthcare Documents Using Eye Tracking
S. Zhou

Designing Engaging Camera Based Mobile Games for Implicit Heart Rate Monitoring
J. Wang

SensoryPaint: A Natural User Interface Supporting Sensory Integration in Children with Neurodevelopmental Disorders
K. Ringland

Lessons from ICT Design of a Healthcare Worker-Centered System for a Chronic Mental Care Hospital
S. Fels

Automated Virtual Observation Therapy
Y-L. Theng

HeartiSense: A Novel Approach to Enable Effective Basic Life Support Training without an Instructor
W. Kim

VizCom: A Novel Workflow Model for ICU Clinical Decision Support
A. Faiola

The Application of Eye Movement Biometrics in the Automated Detection of Mild Traumatic Brain Injury
C. Holland

NOTIFICATIONS, AWARENESS AND DISTRACTIONS

10901 – 10916

Attention in Mobile Interactions: Gaze Recovery for Large Scale Studies
L. Paletta

Attention Approximation of Mobile Users towards their Environment
J. Schrammel

Studying How Character of Conversation Affects Personal Receptivity to Mobile Notifications
F. Schulze

Understanding Notification Stress of Smartphone Messenger App
S. Yoon

Supporting the Mobile Notification Process through Tactile Cues Selected using a Paired Comparison Task
R. Kuber

Designing a Visual Cue Invocation Scheme to Aid Monitoring Behavior on a Digital Map Display
F. Fortmann

Spatial Perception Orientation Task (SPOT): Developing an Accessible Tool for Measuring Spatial Working Memory
D. Blasko

Supporting Non-Verbal Visual Communication in Online Group Art Therapy
B. Jones

SomaTech: An Exploratory Interface for Altering Movement Habits
Q. Wang

Leveraging the Design of Child Restraint Systems to Reduce Driver Distraction
O. Mubin

Quantifying Driver Frustration to Improve Road Safety
R. Taib

Exploring Virtual Depth for Automotive Instrument Cluster Concepts
N. Broy

Beyond Eye Tracking Analogies: Cursor Trajectories as Subtle Cues to Detect Distracting UI Elements
J. Hurtienne

Understanding In-Car Smartphone Usage Pattern with an Un-obfuscated Observation
C. Oh

Resumption Lag at Interruptible Timing might not be short in Actual Environment
T. Tanaka

Working With The Television On: An Investigation into Media Multitasking
D. Brumby

INTERACTION TECHNIQUES

11001 – 11016

Output to Input: Concepts for Physical Data Representations and Tactile User Interfaces
S. Szigeti

Interaction Techniques for Co-located Collaborative TV
K. Buchner

ExtendedThumb: A Motion-Based Virtual Thumb for Improving One-Handed Target Acquisition on Touch-Screen Mobile Devices
J. Lai

Chiron: Interpreting Signals from Capacitive Patterns and Inertial Sensors for intuitive Shape Modeling.

A. Verma

Origami Tessellation Display: Interaction Techniques Using Origami-based Deformable Surfaces

Y. Kinoshita

Classifying Physical Strategies in Tangible Tasks: A Video-Coding Framework For Epistemic Actions

A. Esteves

LightBundle: Grasping Light through Plant-Inspired Interactions

H.-L. Kao

How is Your Laugh Today?

M. Mancini

Place-onas: Shared Resource for Designing Body Tracking Applications

C. Morrison

Understanding Expert-Novice Differences in Geometry Problem-Solving Tasks: A Sensor-based Approach

S. Kim

An Interaction Model for Touch-Aware Tangibles on Interactive Surfaces

S. Voelker

SPad: A Bimanual Interaction Technique for Productivity Applications on Multi-Touch Tablets

C. Foucault

Whirlstools: Kinetic Furniture with Adaptive Affordance

Y. Takeuchi

Extending Interaction for Smart Watches: Enabling Bimanual Around Device Control

J. Knibbe

Empa Talk: A Physiological Data Incorporated Human-Computer Interactions

S. J. Kim

Perceived Distance from Hitting with a Stick Is Altered by Overlapping Vibration to Holding Hand

R. Okazaki

■ SECOND ROTATION – WEDNESDAY 30 APRIL

E-COMMERCE 2010I – 20107

Mobile Payment Systems in North America: User Challenges & Successes

S. Hillman

A Methodological Inquiry into Predictors of Consumer Satisfaction

S. Cavrak

Towards a Novel Digital Household Account Book

F. Kerber

“What do you think of the return of dungarees?”: Social Media Interactions between Retail Locations and their Customers

J. Mahoney

BARTER – Promoting Local Spending Behavior

B. Knowles

Exploring the Opportunities of Mobile Technology Use in Nonprofit Organizations

■ INTERACTIVITY

Interactivity offers hands-on demonstrations that let you see, hear and touch interactive visions of the future. They take the form of prototypes, demonstrations, artworks, design experiences and inspirational technologies. Interactivity offers an alternative to CHI's traditional text format to disseminate advances in the field. Interactivity promotes and provokes discussion about the role of technology by actively engaging attendees one-on-one.

Interactivity demonstrations are available from the Monday evening Conference Reception through the Thursday morning break. Presenters will be stationed at their exhibits throughout the Monday evening session and during coffee breaks all day Tuesday, Wednesday and on Thursday morning.

This year, Interactivity will also include flexible demonstration spaces. These spaces will be used by authors of accepted papers and notes to give a short demonstration of their work during one of the breaks. A schedule of these research demonstrations will be posted in the Interactivity area.

Monday

17:30 – 19:30 Grand opening

Tuesday – Wednesday

10:20 – 11:00 Presenters available during the morning break

15:20 – 16:00 Presenters available during the afternoon break

Thursday

10:20 – 11:00 Presenters available during the morning break

11:30 Interactivity closes

- int01 The CBC Newsworld Holodeck – *M. Ladly, G. Penn, C. P. C. Chen, P. Chintraruck, M. Ghaderi, B. A. Ludlow, J. Peter, R. Tanyag, P. Zhou, S. Kazemian*
- int02 Interaction Opportunities Around Helmet Design – *W. Walmink, A. D. Chatham, F. Mueller*
- int03 zPots: A Virtual Pottery Experience With Spatial Interactions Using the Leap Motion Device – *Vinayak, K. Ramani, K. Lee Jr., R. Jasti*
- int04 i-identity: Innominate Representation as Engaging Movement Game Element – *J. Garner, G. Wood, S. Pijnappel, M. Murer, F. Mueller*
- int05 Text Blaster: A Multi-Player Touchscreen Typing Game – *K. Vertanen, J. Emge, H. Memmi, P. O. Kristensson*
- int06 The Muses of Poetry – *D. Arellano, V. Helzle*
- int07 Exploring the Design Space of Ambient Light Displays – *A. Löcken, H. Müller, W. Heuten, S. Cj Boll*
- int08 Scopophobic Kitties in Wonderland: Stories Behind the Scene of a Gaze Contingent Environment – *M. Chen, K-Y. Wu, Y-C. Huang*
- int09 SonicExploratorium: An Interactive Exhibit of Sonic Discovery – *B. Gonzalez, A. T. Adams, C. E. Latulipe*
- int10 Scale: Human Interactions with Broken and Discarded Technologies – *L. Kang, T. Park, S. Jackson*
- int11 Using Mobile Tools in Immersive Environments to Support Science Inquiry – *M. Lui, A. C. Kuhn, A. Acosta, M. Nino-Soto, C. Quintana, J. D. Slotta*

- int14 Game of Tones: Learning to Play Songs on a Piano Using Projected Instructions and Games – *L. Raymaekers, J. Vermeulen, K. Luyten, K. Corinix*
- int15 Haptic Turk: A Motion Platform Based on People – *L-P. Cheng, P. Lühne, P. Lopes, C. Sterz, P. Baudisch*
- int16 The New pCubee: Multi-touch Perspective-corrected Cubic Display – *Y. Tang, I. Stavness, S. S. Fels*
- int17 Adapting Games From Literature: Edgar Allen Poe Embodied in Players – *L. Grace*
- int18 Rainbowfish: Visual Feedback on Gesture-Recognizing Surfaces – *T. Grosse-Puppenthal, S. Beck, D. Wilbers*
- int19 HeartiSense: A Novel Approach to Enable Effective Basic Life Support Training without an Instructor – *Y. Kwon, S. Lee, J. Jeong, W. Kim*
- int20 TransWall: A Transparent Double-sided Touch Display Facilitating Co-located Face-to-face Interactions – *H. Heo, H. K. Park, S. Kim, J. Chung, G. Lee, W. Lee*
- int21 Computational Creativity for Culinary Recipes – *F. Pinel, L. R. Varshney*
- int22 Swing Sound – Experiencing the Golf Swing through Sound – *S. Nylander, A. Kent, J. Tholander*
- int23 COMP*PASS: A Compass-based Drawing Interface – *K. Nakagaki, Y. Kakehi*
- int24 Muzlog: Instant Music Transcribing System for Acoustic Guitarists – *H-J. Kim, Tj. Nam*
- int25 IntentRadar: Search User Interface that Anticipates User's Search Intents – *T. Ruotsala, J. Peltonen, M. J. A. Eugster, D. Glowacka, A. Reijonen, G. Jacucci, P. Myllymäki, S. Kaski*

- int26 The Talking Plants: an Interactive System for Grassroots Urban Food-Growing Communities – *S. Heitlinger, N. Bryan-Kinns, J. K. Jefferies*
- int28 Object and Arm Shadows: Visual Feedback for Cross Device Transfer – *G. Besacier, J. Tournet, N. Goyal, F. Cento, S. D. Scott*
- int29 TastyBeats: Making Mocktails with Heartbeats – *R.A. Khot, J. Lee, H. Munz, D. Aggarwal, F. Mueller*
- int30 Step Kinnection: A Hybrid Clinical Test for Fall Risk Assessment in Older Adults – *J. A. Garcia, Y. Pisan, C. T. Tan, K. F. Navarro*
- int31 PaperDude: A Virtual Reality Cycling Exergame – *J. Bolton, M. Lambert, D. Lirette, B. Unsworth*
- int32 Bidirectional Feedback in Motor Imagery BCIs: Learn to Control a Drone within 5 Minutes – *N. Kos'myna, F. Tarpin-Bernard, B. Rivet*
- int33 How Far is UP? Encouraging Social Interaction Through Children's Book App Design – *B. Sargeant, F. Mueller*
- int34 LinearDragger: a Linear Selector for One-finger Target Acquisition – *O. K-C. Au, X. Su, R. Lau*
- int35 BeFaced: a Casual Game to Crowdsource Facial Expressions in the Wild – *C. T. Tan, H. Sapkota, D. Rosser*
- int36 Billboard: Interacting with Personal Public Displays – *L. Kleinman, A. Carney, A. Ma*
- int37 AirAuth: A Biometric Authentication System using In-Air Hand Gestures – *S. Kratz, M. T. I. Aumi*
- int38 CopyMe: an Emotional Development Game for Children – *N. Harrold, C. T. Tan, D. Rosser, T. W. Leong*
- int39: Interacting with the Kiwi Move: A Platform for Motion-based Applications – *A. Beattie, D. Chen, J. Chibuk, O. Mayrand, Z. Patel*
- int40 Glance: Enabling Rapid Interactions with Data Using the Crowd – *W. S. Lasecki, M. Gordon, S. P. Dow, J. P. Bigham*
- int41 Move Your Phone: Spatial Input-based Document Zoom & Pan on Mobile Displays Revisited – *M. Spindler, M. Schuessler, M. Martsch, R. Dachsel*
- int42 FishTank Fitts: A Desktop VR Testbed for Evaluating 3D Pointing Techniques – *R. J. Teather, W. Stuerzlinger, A. Pavlovych*
- int43 Plant Guild Composer: An Interactive Online System to Support Back Yard Food Production – *J. Norton, S. Nayeabaziz, S. Burke, B. J. Pan, B. Tomlinson*
- int44 faBrickation: Fast 3D printing of Functional Objects by Integrating Construction Kit Building Blocks – *S. Mueller, T. Mohr, K. Guenther, J. Frohnhofen, P. Baudisch*
- int45 Engaging with Virtual Characters Using a Pictorial Interaction Language – *B. Endrass, L. Hall, C. Hume, S. Tazzyman, E. Andre, R. Aylett*
- int46 PaperFold: A Shape Changing Mobile Device with Multiple Reconfigurable Electrophoretic Magnetic Display Tiles – *A. Gomes, R. Vertegaal*
- int47 "Did you pack your keys?" Smart Objects and Forgetfulness – *C. Farion, M. Purver*
- int48 Creating Physical Visualizations With MakerVis – *S. Swaminathan, C. Shi, Y. Jansen, P. Dragicevic, L. A. Oehlberg, J-D. Fekete*
- int49 MetaTravels and MetaLonsdale: iPad Apps for Percussive Improvisation – *C. Martin, H. J. Gardner, B. Swift*
- int50 Interactive Experiences Designed for Agricultural Communities – *R. C. L. Suen, K. T. T. Chang, M. P-H. Wan, Y. C. Ng, B. C. Y. Tan*
- int51 BackPat: Improving One-Handed Touchscreen Operation by Patting the Back of the Device – *K. Seipp, K. Devlin*
- int52 InGrid: Interactive Grid Table – *M. Ziat, J. Fridstrom, K. Kilpela, J. Fancher, J. J. Clark*
- int53 OJAS – Open Source Bi-Directional Inductive Power Link – *J. Mikkonen, R. Gowrishankar, M. Oksanen, H. Raittinen, A. Kolinummi*
- int54 TwitterRadio: Translating Tweets into Music – *F. Morreale, A. Miniukovich, A. De Angeli*
- int55 HamsaTouch: Feel the World through Your Palm – *H. Kajimoto, M. Suzuki, Y. Kanno*
- int56 Imaginary Reality Basketball: A Ball Game Without a Ball – *P. Baudisch, H. Pohl, S. Reinicke, E. Wittmers, P. Lühne, M. Knaust, S. Köhler, P. Schmidt, C. Holz*
- int57 Draco: Bringing Life to Illustrations – *R. H. Kazi, F. Chevalier, T. Grossman, S. Zhao, G. Fitzmaurice*
- int58 RunRight – Real-Time Visual and Audio Feedback on Running – *S. Nylander, M. Jacobsson, J. Tholander*
- int59 GaussBricks: Magnetic Building Blocks for Constructive Tangible Interactions on Portable Displays – *R-H. Liang, L. Chan, H-Y. Tseng, H-C. Kuo, D-Y. Huang, D-N. Yang, B-Y. Chen*
- int60 Cushionware: A Practical Sitting Posture-based Interaction System – *G. Liang, J. Cao, X. Liu, X. Han*
- int61 Mechanical Force Redistribution Floor Tiles – *A. M. Grau, C. Hendee, A. S. Karkar, H. Su, M. Cole, K. Perlin*
- int62 Wrigglo: Shape-Changing Peripheral for Interpersonal Mobile Communication – *J. Park, Y-W. Park, Tj. Nam*
- int63 Interacting with The Vocal Chorder – Re-empowering the Opera Diva – *C. E. T. Unander-Scharin, Å. Unander-Scharin, K. Höök, L. Elblaus*

■ EXHIBITORS ALPHABETICALLY

See the map on page 69 for the location of each booth

Akendi**Booth 9**

Akendi creates meaningful experiences through intentionally directed efforts in user-centred strategy, research, design and testing. Working with digital and physical products, website and software for any device, we optimize the experience you deliver. Akendi also offers courses and certifications in UX that provide in-depth theory mixed with practical application exercises.

Bloomberg LP Champion Sponsor**Booths 6 & 7**

Bloomberg connects influential decision makers to a dynamic network of information, people and ideas. Our strength – quickly and accurately delivering data, news and analytics through innovative technology – is at the core of everything we do. With over 15,000 employees in 192 locations, we deliver business and financial information, news and insight around the world.

CHI 2014 Information**Booth 28a**

Student Volunteers staff the Information Desk when the Commons (exhibit hall) is open. They are happy to help answer your questions or find someone who can. At other times, stop by the Registration Desk for information. The Information Desk will also help deliver resumes submitted in response to job postings from registered recruiters.

CHI 2015**Booth 28**

2015 will be the first year that CHI is hosted in Asia - a tremendous opportunity to showcase Asian thought leaders and cutting edge technologies. Visit our booth to meet conference organizers and hear about innovations we'll see in 2015. The conference theme is "Crossings": crossing borders, crossing disciplines, crossing people and technology, crossing art and science, ... crossing me and you.

Elsevier / Morgan Kaufmann**Booth 26**

Elsevier and Morgan Kaufmann will be presenting key titles across Human-Computer Interaction. Please stop by and visit the booth, meet the publishers and editors in person, and take the opportunity to ask any questions and learn more about our author services and content innovation. www.elsevier.com/computerscience and www.store.elsevier.com/Morgan-Kaufmann

EyeGaze – LC Technologies**Booth 25**

LC Technologies is passionate about changing lives with cutting-edge eye tracking solutions. Since 1986 our goal has been to create an unobtrusive human-computer interface, revolutionizing the way we interact with computers/devices. Now used in 44 countries, our eye-tracking systems are seamless extensions of the human experience, providing highly accurate eye movement and gaze point measurements.

EyeTracking, Inc.**Booth 18**

EyeTracking, Inc. is the leading provider of eye tracking services, software and expertise. For over a decade we have been at the forefront of innovation in virtually every area of visual behavior and cognitive workload research. Visit our booth to learn about our software: EyeWorks for eye tracking, Quad Server for physiological sensor integration, Workload RT for cognitive workload measurement.

Facebook Contributing Sponsor**Booth 36**

Founded in 2004, Facebook's mission is to give people the power to share and make the world more open and connected. People use Facebook to stay connected with friends and family, to discover what's going on in the world, and to share and express what matters to them.

Google Champion Sponsor**Booths 14 & 15**

Google's mission is to organize the world's information, making it universally accessible and useful. Every day, we bring our spirit of innovation and entrepreneurship to work. Come by our booth, meet our engineers and researchers, demo some new products and learn about some of the great opportunities we have at Google.

GRAND NCE Champion Sponsor**Booths 16 & 17**

GRAND is a research network and commercialization engine whose goal is to address complex issues in digital media and transform multidisciplinary research into user-centred solutions. GRAND explores the use and application of digital media in a variety of settings including entertainment, healthcare, education, environmental sustainability, and public policy.

Microsoft Champion Sponsor**Booths 3, 4 & 5**

At Microsoft, we have a passion for HCI. Our Design and Research professions impact the interactions of millions of users around the globe. At Microsoft, you would collaborate with brilliant people on projects with the potential to change the world. Come by our booth to play, pick up free swag, enter to win Microsoft prizes, and chat about the great opportunities for shaping HCI at Microsoft.

MillionShort**Booth 37**

MillionShort is an exciting new web search engine that allows the user to remove a section of the top websites from their search results to provide a deeper, more exploratory search. Whether you're removing the top million, 100k, 10k, 1k, or 100 sites, MillionShort allows you to see what you can find when you delve underneath an entire slice of the web.

Morgan & Claypool Publishers**Booth 13**

Morgan & Claypool is publisher of the Synthesis Digital Library, including the HCI series edited by Jack Carroll; the assistive technologies series, edited by Ron Baecker; and the series on information science, edited by Gary Marchionini. Please visit our booth for free eBooks and discounted print copies.

MultiTouch**Booth 24**

The MultiTaction interactive displays feature the World's first and only 55" Ultra-Thin Bezel LCD with built-in touch and unlimited touch points. MultiTaction displays can be stacked together to create massive multi-user interactive surfaces supporting simultaneous touch, IR pen, Enriched Reality, and user identification. For more information, please visit www.multitaction.com.

now publishers**Booth 2**

now publishers publishes high quality reference, research and review journals in business and technology. The Foundations and Trends journals publish state-of-the-art review articles written by leading researchers in the field with the references linked to the original articles and allows for updating by the author and community.

Oxford University Press**Booth 19**

Oxford University Press is pleased to publish Interacting with Computers on behalf of BCS, The Chartered Institute for IT and Interaction, a specialist group from BCS. Visit the Oxford University Press stand for free journal copies and discounted books! For more information visit www.iwc.oxfordjournals.org and look at our related books at www.oup.com.

■ EXHIBITORS ALPHABETICALLY (CONTINUED)

Samsung Research America **Booth 23**
 Samsung's philosophy is based on perpetual innovation and good corporate citizenship. Our practices have proven successful – we are one of the fastest growing companies in America, and an acknowledged leader in the digital convergence revolution. Samsung Research America and Samsung User Experience Center America welcomes you to CHI 2014!

SAP **Booth 38**
 As market leader in enterprise application software, SAP helps companies of all sizes and industries run better. We have more than 251,000 customers in over 188 countries and employ 66,000 people at locations in more than 130 countries. Our UX professionals are working on some of today's hottest applications, stop by our booth and see how SAP is changing the way our customers do business.

SensoMotoric Instruments, Inc. **Booth 39**
 SMI is a leading provider of eye and gaze tracking systems to a global market. Our advanced analysis software provides visualizations that simplify the interpretation of eye tracking data. Let us show you how to add an eye tracker to your existing set of tools: smivision.com/egts.

Springer **Booths 11 & 12**
 Explore the full range of print and electronic publications in HCI (including the HCI series) at our booth. Get 20% discount on our (e)books, discover our Open Access portfolio (including Journal on Interaction Science, Journal of Trust Management), and don't miss the chance to discuss your book proposal in person with Beverley Ford & Helen Desmond.

Sulon Technologies **Booth 27**
 Sulon Technologies engineers, designs and distributes The Cortex, the first-ever fully immersive spatial gaming platform that delivers a contextually aware augmented virtual reality experience. The Cortex is a wireless wear-and-play device that leverages existing mobile devices. It transforms any physical space into a dynamic holodeck-like experience that can be walked through and interacted with.

The MIT Press **Booth 40**
 The MIT Press publishes extensively in Human-Computer Interaction.

Tobii Technology **Booth 8**
 Tobii Technology is the global leader in eye tracking and gaze interaction. Tobii offers cutting-edge and award-winning products and services that are revolutionizing research, institutions and industries worldwide. Founded in 2001 and based in Sweden, Tobii has a global presence with international offices and a worldwide network of customers and partners.

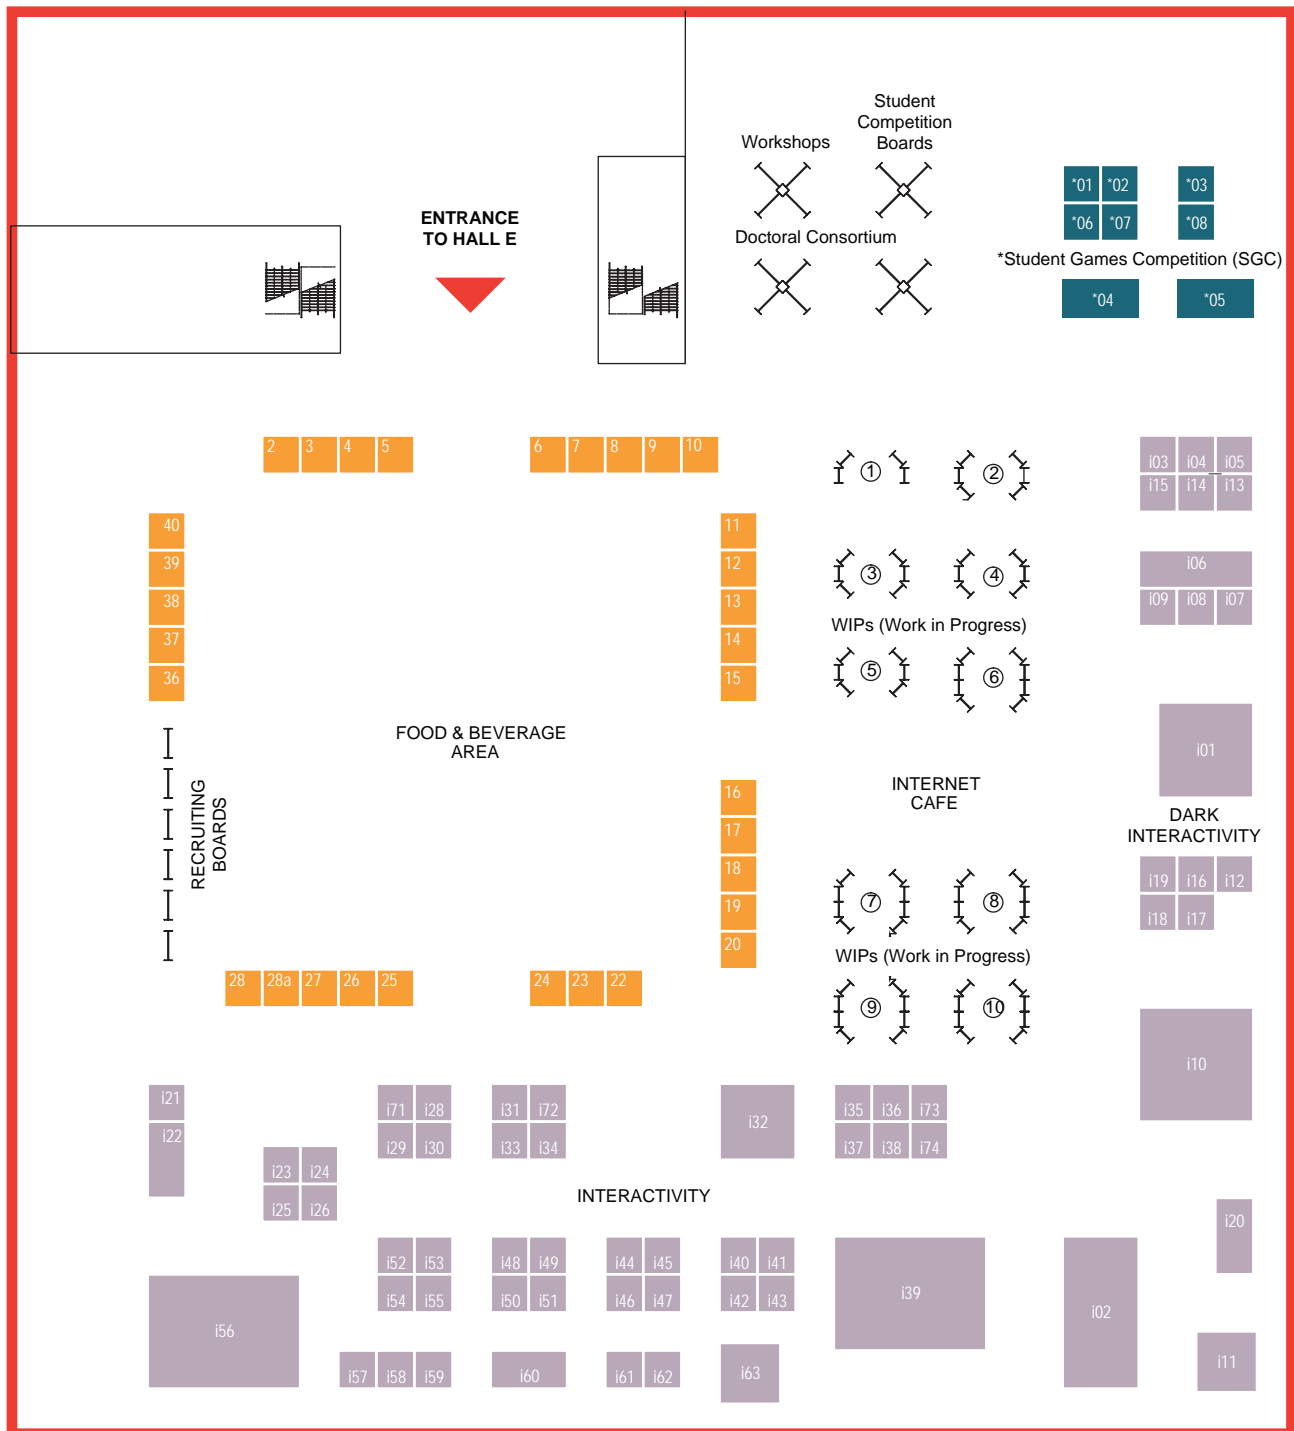

Toronto University Consortium for Accessibility Research and Education (TUCARE) **Champion Sponsor** **Booth 20**
 Toronto is THE foremost city in the world for research and teaching on inclusive design and on accessible, assistive, and seniors' technology, leveraging strengths of the University of Toronto (Computer Science, Occupational Science), OCAD Univ., Ryerson Univ., and Toronto Rehabilitation Institute. Stop by the booth to learn about opportunities for postdoctoral fellowships and graduate study.

Yahoo! Labs **Contributing Sponsor** **Booth 10**
 Yahoo Labs serves as Yahoo's incubator for bold experimentation, applying its scientific findings to create personalized, delightful experiences for Yahoo's users and enhance value for its advertisers. From idea to product innovation, Yahoo Labs is responsible for the algorithms behind the Web experience for Yahoo's hundreds of millions of users. Stop by our booth to find out how you can join us.
